

Health Entrance Record

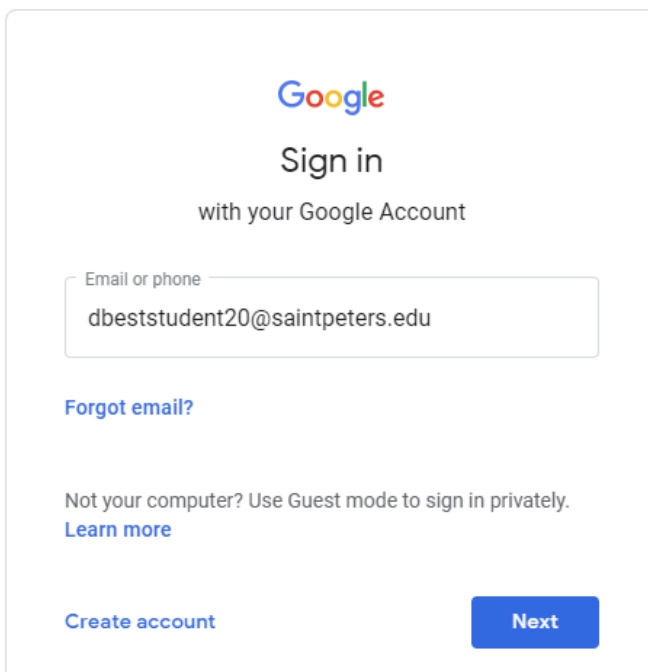

In conjunction with New Jersey State Law, all students are required to submit immunization records (i.e. Health Entrance Form) in order to attend Saint Peter's University. To help make the process as seamless as possible, we have a Student Health Portal where all students are able to electronically submit their health records to our department. Below you will find step-by-step instructions on how to access the Student Health Portal to submit your Health Entrance Record. As a helpful tip, you will need your Saint Peter's University credentials (university email and password) in order to access the Student Health Portal.

If you have any questions about what the specific immunization requirements are, you can find the [detailed breakdown here](#).
