### **Documentary**

*Mysteries of the Universe* is a high-end feature documentary written and co-produced by Dr. William Gutsch in conjunction with Evans & Sutherland (pioneers in virtual reality) for initial showing at the Shanghai Museum of Science & Technology in Shanghai, China. *Mysteries of the Universe* contains some of the very best images from NASA's Hubble Space Telescope and European Space Agency telescopes and spacecraft as well as original, custom 3-D animation and will be displayed on Shanghai's new immersive domed theater at a resolution 4 times higher than HD TV. Featuring dramatic scenes from the birth of the universe to exploding stars, giant black holes and alien worlds that might harbor life, *Mysteries* will be presented in both Mandarin and English. The show will open to an audience of millions this spring and later will likely travel to other theaters around the world.

## CYNTHIA WALKER

### **Book**

Walker, Cynthia W. *Work/Text: Investigating the Man from U.N.C.L.E.*, Media Ecology series, Hampton Press, Cresskill N.J. Lance Strate, editor.

Available:

[http://www.hamptonpress.com/Merchant2/merchant.mvc?Screen=PROD&Product\\_Code=978-1-61289-121-7](http://www.hamptonpress.com/Merchant2/merchant.mvc?Screen=PROD&Product_Code=978-1-61289-121-7)

<http://www.amazon.com/Work-Text-Investigating-Man-U-N-C-L-E/dp/1612891217>

*In the mid-1960s The Man From U.N.C.L.E. was the coolest show in television. It was also "cool" in the way media theorist Marshall McLuhan used the term. Debuting the same year that McLuhan's groundbreaking book, Understanding Media, appeared, The Man From U.N.C.L.E. presented a universe in which fantasy and reality collided, interacted, and blended together. It invited audiences to participate and the fans responded, embracing the show as their own.*

*Employing a new methodological approach that considers the creative as well as the economic, the producer as well as the consumer, this book explores how a cultural "work/text" like The Man From U.N.C.L.E. develops through the many dialogues occurring, often simultaneously, between and among the various collective parties, growing from the first spark of an idea into a complex multileveled media ecosystem of multiple relationships, collaborations, interpretations, and communities.*
