## Major and Minor Offerings

The Department of Mathematics and Statistics offers three majors and two minors in Mathematics and Statistics.

- Mathematics Major - Degree of Bachelor of Science.
- Who should consider this major: those planning to continue with graduate studies and research; those seeking industrial, corporate, or governmental work; and/or those without definite post-graduation plans.
- Mathematics Major. Secondary Education Concentration - Degree of Bachelor of Arts
- Who should consider this major: students who want to teach at the secondary school level, or students who are looking to double major and need a program with fewer credits.
- Mathematics Major, Elementary Education Concentration - Degree of Bachelor of Arts
- Who should consider this major: students who want to teach at the elementary or middle school level, or students who are looking to double major and need a program with fewer credits.
- Mathematics Minor
- Who should consider this minor: those seeking industrial, corporate, or governmental work; and/or those without definite post-graduation plans. This minor is open to students in any major, however students in Computer Science, Physics, Economics, or Finance may find it especially useful.
- Statistics Minor
- Who should consider this minor: those seeking industrial, corporate, or governmental work; and/or those without definite post-graduation plans. This minor is open to students in any major, however students in Psychology, Biology, or Business may find it especially useful.

## Beginning the Mathematics Majors

If you intend to major in mathematics, you should register for either Calculus sequence (MA143/144 or MA123/124/125). In addition, you should identify yourself to your calculus instructor, who can keep you informed of special programs as well as of other important information to mathematics majors.

If you are considering mathematics as one of several possible majors, you should register for either Calculus sequence (MA143/144 or MA123/124/125). These courses fulfill the core mathematics requirement that is obligatory for all Saint Peter's students, so these courses will be applicable towards your degree for almost all majors.

If you are transferring into Saint Peter's University with credits, particularly mathematics credits, and intending to major in mathematics, you should consult with an advisor in the Department of Mathematics and Statistics as early as possible. Only in this way can your past academic records be matched with the Department's requirements.

If you are concerned about the adequacy of your high school preparation, before your first semester, you should consult with the Chairperson of the Mathematics and Statistics Department or the Director of Developmental Mathematics.

If you think that you have had a strong calculus course in high school, before your first semester, you should consult with the Chairperson of the Mathematics and Statistics Department or the Director of Developmental Mathematics. On the basis of this discussion, you may be placed directly into Multivariable Calculus (MA273 or MA274).

## The Core Curriculum for Mathematics Majors

## Core Requirement 3.1

- Mathematics majors pursuing the B.S. in Mathematics degree and the B.A. in Mathematics with a concentration in Secondary Education are required to take CS-180 or another computer programming course.
- Mathematics majors pursuing the B.A. in Mathematics with a concentration in Elementary Education are encouraged to take CS-180 or another computer programming course.
- Mathematics majors pursuing the B.S. degree are encouraged to take PC-185 General Physics I with lab. These Mathematics majors are also encouraged to take PC-186 General Physics II with lab.
- Mathematics majors pursuing the B.A. degree are encouraged to take $\mathrm{BI}-122, \mathrm{BI}-124$, BI-183, or a comparable course in Biology.

## Core Requirement 2.1

- All mathematics majors are encouraged to take EC-101 Macroeconomic Principles.

## Degree Requirements

## Mathematics Major - Degree of Bachelor of Science

| Take one of the following sequences |  | 8 |
| :---: | :---: | :---: |
| MA-143 | Differential Calculus | 4 |
| MA-144 | Integral Calculus | 4 |
| or |  |  |
| MA-123 | Elementary Calculus I | 3 |
| MA-124 | Elementary Calculus II | 3 |
| MA-125 | Intermediate Calculus | 2 |
| MA-247 | Introductory Linear Algebra | 3 |
| MA-248 | Math Tech Lab | 1 |
| MA-250 | Transition to Advanced Mathematics | 3 |
| MA-273 | Multivariable Calculus I | 4 |
| MA-274 | Multivariable Calculus II | 4 |
| MA-441 | Modern Algebra | 3 |
| MA-490 | Senior Seminar in Mathematics (Capstone) ${ }^{1}$ | 3 |
| Take one of the following courses |  | 3-4 |
| MA-377 | Ordinary Differential Equation | 3 |
| MA-379 | Differential Equations for Engineers | 4 |
| Take one of the following courses |  | 3 |
| MA-222 | Intermediate Statistics |  |
| MA-335 | Probability Theory |  |
| MA-336 | Mathematical Statistics |  |
| MA-337 | Statistical Computing With R |  |
| MA-338 | Regression Analysis |  |
| MA-389 | Topics in Statistics |  |
| MA Electives | One Mathematics or Statistics Elective (MA-212 or higher) (A cognate course may be substituted with permission.) | 3 |
| MA Electives | Three Mathematics or Statistics Electives (MA-316 or higher) | 9 |
| Total Credits |  | 47-48 |

[^0]Mathematics Major - Secondary Education Concentration Degree of Bachelor of Arts

| MA-247 | Introductory Linear Algebra | 3 |
| :--- | :--- | :--- |
| MA-248 | Math Tech Lab | 1 |
| MA-250 | Transition to Advanced Mathematics | 3 |
| MA-350 | College Geometry | 3 |
| MA-400 | History of Mathematics | 3 |
| MA-441 | Modern Algebra | 3 |
| MA-490 | Senior Seminar in Mathematics ${ }^{2}$ | 3 |
| Take at least fourteen credits in Calculus | $14-16$ |  |
| MA-123 <br> \& MA-124 <br> \& MA-125 | Elementary Calculus I <br> and Elementary Calculus II <br> and Intermediate Calculus <br> (note students can only receive credit for one 100 level Calculus <br> sequence) | 3 |
| MA-143 <br> \& MA-144 | Differential Calculus <br> and Integral Calculus <br> (note students can only receive credit for one 100 level Calculus <br> sequence) | 4 |
| MA-273 <br> \& MA-274 | Multivariable Calculus I <br> and Multivariable Calculus II | 4 |
| MA-375 <br> MA-377 <br> MA-379 | Advanced Calculus <br> Ordinary Differential Equation <br> Differential Equations for Engineers | 4 |
| Take one course in Statistics, Probability, or Discrete Mathematics | 4 |  |
| MA-132 <br> MA-212 <br> MA-222 <br> MA-316 <br> MA-335 <br> MA-336 <br> MA-337 <br> MA-338 <br> MA-389 | Statistics for the Life Sciences <br> Elementary Statistics <br> Intermediate Statistics <br> Intermediate Discrete Mathematics <br> Probability Theory <br> Mathematical Statistics <br> Statistical Computing With R <br> Regression Analysis <br> Topics in Statistics | 3 |
| Total Credits |  | 3 |

## Mathematics Major - Elementary Education Concentration Degree of Bachelor of Arts

| MA-250 | Transition to Advanced Mathematics | 3 |
| :---: | :---: | :---: |
| MA-400 | History of Mathematics | 3 |
| MA-490 | Senior Seminar in Mathematics ${ }^{3}$ | 3 |
| Take three courses in Essential Mathematics and Statistics |  |  |
| Group 1: Essential Mathematics (choose one) |  | 3 |
| $\begin{aligned} & \text { MA-101 } \\ & \text { MA-107 } \\ & \text { MA-218 } \end{aligned}$ | Precalculus <br> Topics in Contemporary Math Quantitative Methods for Business |  |
| Group 2: Essential Statistics <br> (choose two, one course must be number 132 or higher) |  | 6 |
| MA-103 <br> MA-106 <br> MA-132 <br> MA-212 <br> MA-222 <br> MA-304 <br> MA-336 <br> MA-337 | Probability and Statistics for Liberal Art <br> Introduction to Probability and Statistics <br> Statistics for the Life Sciences <br> Elementary Statistics <br> Intermediate Statistics <br> Statistics, Probability and Discrete Math for Middle School <br> Mathematical Statistics <br> Statistical Computing With R |  |
| Take two courses in Calculus |  | 6-8 |
| $\begin{aligned} & \text { MA-123 } \\ & \text { \& MA-124 } \end{aligned}$ | Elementary Calculus I <br> Elementary Calculus II (note students can only receive credit for one 100 level Calculus sequence) | 3 |
| $\begin{aligned} & \text { MA-143 } \\ & \text { \& MA-144 } \end{aligned}$ | Differential Calculus <br> Integral Calculus <br> (note students can only receive credit for one 100 level Calculus sequence) | 4 |
| $\begin{aligned} & \text { MA-273 } \\ & \& \text { MA-274 } \end{aligned}$ | Multivariable Calculus I Multivariable Calculus II | 4 4 |
| $\begin{aligned} & \text { MA-375 } \\ & \text { MA-377 } \\ & \text { MA-379 } \end{aligned}$ | Advanced Calculus <br> Ordinary Differential Equation <br> Differential Equations for Engineers | 3 3 4 |

[^2]| Take one course in Algebra |  | 3 |
| :---: | :--- | :--- |
| MA-247 <br> MA-302 <br> MA-441 | Introductory Linear Algebra <br> Elementary Math Functions for Middle School <br> Modern Algebra |  |
| Take one course in Geometry | 3 |  |
| MA-306 <br> MA-350 | Geometry for Middle School <br> College Geometry | 3 |
| MA Elective | Take one Mathematics or Statistics Elective <br> (200 level or higher) | $33-35$ |
| Total Credits |  |  |

Note: At least four courses must be at the 300-Level or above.

## Mathematics Minor

| Select one of the following calculus sequences: |  | $6-8$ |
| :--- | :--- | :---: |
| MA-123 | Elementary Calculus I | 3 |
| \& MA-124 | and Elementary Calculus II | 3 |
| MA-132 | Statistics for the Life Sciences | 3 |
| \& MA-133 | and Calculus for the Life Sciences | 4 |
| MA-143 | Differential Calculus | 4 |
| \& MA-144 | and Integral Calculus | 4 |
| MA-273 | Multivariable Calculus I | 4 |
| \& MA-274 | and Multivariable Calculus II | 4 |
| Select 4 MA-courses, 200-level or above | $12+$ |  |
| Total Credits | $18-20+$ |  |

## Statistics Minor

| Select one of the following courses |  | 3 |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { MA-132 } \\ & \text { MA-212 } \end{aligned}$ | Statistics for the Life Sciences Elementary Statistics |  |
| Select five of the following options |  | 15 |
| MA-222 | Intermediate Statistics |  |
| MA-335 | Probability Theory |  |
| MA-336 | Mathematical Statistics |  |
| MA-337 | Statistical Computing With R |  |
| MA-338 | Regression Analysis |  |
| MA-389 | Topics in Statistics |  |
| One from the following group |  |  |
| BA-388 or BA-414 or BI-311 or CJ-350 or EC-300 or MA-304 or PO-200 or PS-200 or SO-448 |  |  |
| One from the following group may be taken by permission of the department chair when appropriate |  |  |
| BA-351 or BI-385 or BI-497 or BI-498 or CU-400 or HS-499 or HP-492 or MA-295 or MA-399 or PC-390 or PS-398 or SO-450 |  |  |
| One from the following group |  |  |
| MA-123 or MA-124 or MA-133 or MA-143 or MA-144 or MA-218 or MA-273 or MA-274 or MA-316 or MA-385 or MA-400 |  |  |
| Total Credits |  | 18 |

## Degree Maps

## Mathematics Major - Degree of Bachelor of Science.

For a complete list of requirements, please see above.

The following degree map indicates one path through the major. However, the Department stresses that there are many routes through our major. Please consult with a member of the department to construct a degree map that meets your needs.

## First Year

| Fall | Spring |
| :--- | :--- |
| MA143 (4 credits) | MA144 (4 credits) |
| or |  |
| MA123 (3 credits) | or |
| MA124 (3 credits) and MA125 (2 credits) |  |\(\left|\begin{array}{l}Core Requirement Courses such as CS180 <br>

(required) or PC185 (recommended)\end{array} \quad \begin{array}{l}Core Requirement Courses such as CS180 <br>

(required) or PC186 (recommended)\end{array}\right|\)| Core Requirement Courses such as EC101 |
| :--- |
| (recommended) | | Core Requirement Courses such as EC101 |
| :--- |
| (recommended) |,

## Sophomore Year

| Fall | Spring |
| :--- | :--- |
| MA273 (4 credits) | MA247 (3 credits) |
| MA250 (3 credits) | MA274 (4 credits) when available, offered <br> alternate springs ending in odd numbers <br> or <br> an intermediate or upper level MA course |
|  | MA248 (1 credits) when available, offered <br> alternate springs ending in even numbers |

## Junior and Senior Years

During your junior and senior years you will round out your major with a variety of required courses and elective courses. You should take two to three Mathematics courses per semester.

Additional required intermediate and upper division courses include:

- MA248 Mathematics Technology Lab
- MA274 Multivariable Calculus II
- MA377 (or MA379) Ordinary Differential Equations
- MA441 Modern Algebra
- MA490 Senior Seminar in Mathematics
- One Statistics Class chosen from
- MA-222 Intermediate Statistics
- MA-335 Probability Theory
- MA-336 Mathematical Statistics
- MA-337 Statistical Computing With R
- MA-338 Regression Analysis
- MA-389 Topics in Statistics

In addition to these courses you are required to take four Mathematics/Statistics Electives. One of which must be at the level of 212 or higher, the remaining must be taken at the level of 316 or higher. A cognate course may be substituted with permission.

Some required intermediate and upper division courses are expected to be offered in alternate years. The expected pattern of alternation is noted in the section Expected Course Offerings.

## Mathematics Major - Secondary Education Concentration Degree of Bachelor of Arts.

For a complete list of requirements, please see above.

The following degree map indicates one path through the major. However, the Department stresses that there are many routes through our major. Please consult with a member of the department to construct a degree map that meets your needs.

## First Year

| Fall | Spring |
| :--- | :--- |
| MA143 (4 credits) | MA144 (4 credits) |
| or |  |
| MA123 (3 credits) | or |
| MA124 (3 credits) and MA125 (2 credits) |  |$|$| Core Requirement Courses such as CS180 |
| :--- |
| (required) or BI183 (recommended) |$\quad$| Core Requirement Courses such as CS180 |
| :--- |
| (required) or BI183 (recommended) |, | Core Requirement Courses such as EC101 |
| :--- |
| (recommended) | | Core Requirement Courses such as EC101 |
| :--- |
| (recommended) |,

## Sophomore Year

| Fall | Spring |
| :--- | :--- |
| MA273 (4 credits) | MA247 (3 credits) |
| MA250 (3 credits) | MA274 (4 credits) when available, offered <br> alternate springs ending in odd numbers <br> or <br> MA355 (3 credits) when available, offered <br> alternate springs ending in even numbers |
|  | MA248 (1 credits) when available, offered <br> alternate springs ending in even numbers |

## Junior and Senior Years

During your junior and senior years you will round out your major with a variety of required courses and elective courses. You should take one to two Mathematics courses per semester.

Additional required intermediate and upper division courses include:

- MA248 Mathematics Technology Lab
- MA274 Multivariable Calculus II or MA377 (or MA379) Ordinary Differential Equations
- MA350 College Geometry
- MA400 History of Mathematics
- MA441 Modern Algebra
- MA490 Senior Seminar in Mathematics
- One Probability, Statistics, or Discrete Mathematics class chosen from
- MA-132 Statistics for the Life Sciences
- MA-212 Elementary Statistics
- MA-222 Intermediate Statistics
- MA-316 Intermediate Discrete Mathematics
- MA-335 Probability Theory
- MA-336 Mathematical Statistics
- MA-337 Statistical Computing With R
- MA-338 Regression Analysis
- MA-389 Topics in Statistics

Some required intermediate and upper division courses are expected to be offered in alternate years. The expected pattern of alternation is noted in the section Expected Course Offerings.

## Mathematics Major - Elementary Education Concentration Degree of Bachelor of Arts.

For a complete list of requirements, please see above.
This is an especially flexible major. The following degree map indicates one path through the major. However, the Department stresses that there are many routes through the major. Please consult with a member of the department to construct a degree map that meets your needs.

## First Year

| Fall | Spring |
| :--- | :--- |
| MA107 <br> (possible essential math requirement) | MA212 <br> (possible essential stats requirement 1 of 2) |
| Core Requirement Courses such as CS180 <br> (recommended) or BI83 (recommended) | Core Requirement Courses such as CS180 <br> (recommended) or BI183 (recommended) |
| Core Requirement Courses such as EC101 <br> (recommended) | Core Requirement Courses such as EC101 <br> (recommended) |

## Sophomore Year

| Fall | Spring |
| :--- | :--- |
| MA123 (3 credits) or MA143 (4 credits) <br> (1 of 2 calculus requirement) | MA124 (3 credits) or MA144 (4 credits) <br> (1 of 2 calculus requirement) |
| MA250 (3 credits) (required course) | MA247 (possible algebra requirement) |

Junior and Senior Years

| Fall | Spring |
| :--- | :--- |
| MA400 (required course) | MA306 (possible geometry requirement) |
| Math/stats elective |  |

| Fall | Spring |
| :--- | :--- |
| MA304 <br> (possible essential stats requirement 1 of 2) | MA490 Senior Seminar in Mathematics <br> (required course) |

Some required intermediate and upper division courses are expected to be offered in alternate years. The expected pattern of alternation is noted in the section Expected Course Offerings.

## Expected Course Offerings

Please note that this information is provided for pre-planning purposes only. All offerings noted here are tentative. Unforeseen circumstances could impact the offering of a particular course; however, the department will make every effort to assure the least negative impact on students should a change in a rotation be required.

## Courses Required by the Mathematics Majors

The following classes are expected to be offered every year.

| Fall | Spring |
| :--- | :--- |
| MA250 Transitions to Advanced Math | MA247 Linear Algebra |
| MA273 Multivariable Calculus I |  |

Some required intermediate and upper division courses are expected to be offered in alternate years. The expected pattern of alternation is as follows:

| Even Fall | Odd Spring |
| :--- | :--- |
| MA400 History of Mathematics | MA274 Multivariable Calculus II |
| One or two additional upper level electives. |  |

| Odd Fall | Even Spring |
| :--- | :--- |
| MA377/379 Ordinary Differential Equations | MA248 Mathematics Technology Lab |
|  | MA350 College Geometry |
| One or two additional upper level electives. |  |

## Statistics Courses

| Fall | Spring |
| :--- | :--- |
| MA212 Elementary Statistics | MA212 Elementary Statistics |
|  | MA222 Intermediate Statistics |
|  | MA337 Statistical Computing With R |

MA214, MA216, MA218

| Even Fall | Odd Spring |
| :--- | :--- |
| MA218 Quantitative Methods for Business | MA216 Computer Mathematics |
|  | MA218-HP Quantitative Methods for <br> Business (honors) |

| Odd Fall | Even Spring |
| :--- | :--- |
| MA218 Quantitative Methods for Business | MA214 Math of Finance |
|  | MA216 Computer Mathematics |

## Mathematics For Middle School Courses

| Even Fall | Odd Spring |
| :--- | :--- |
| MA302 Elementary Math Functions for Middle <br> School | MA306 Geometry for Middle School |

| Odd Fall | Even Spring |
| :--- | :--- |
| MA304 Statistics, Probability, and Discrete <br> Math for Middle School |  |

## Comprehensive Rotation

Please note that this information is provided for pre-planning purposes only. All offerings noted here are tentative. Unforeseen circumstances could impact the offering of a particular course; however, the department will make every effort to assure the least negative impact on students should a change in a rotation be required.

| Even Fall | Odd Spring |
| :--- | :--- |
| MA212 Elementary Statistics | MA212 Elementary Statistics |
| MA218 Quantitative Methods for Business | MA216 Computer Mathematics |
| MA250 Transitions to Advanced Math | MA218 Quant Methods for Business (HP) |
| MA273 Multivariable Calculus I | MA222 Intermediate Statistics |
| MA302 Elem Math Functions for Mid School | MA247 Linear Algebra |
| MA400 History of Mathematics | MA274 Multivariable Calculus II |
|  | MA306 Geometry for Middle School |
|  | MA337 Statistical Computing With R |
|  | MA441 Modern Algebra |

| Odd Fall | Even Spring |
| :--- | :--- |
| MA212 Elementary Statistics | MA212 Elementary Statistics |
| MA218 Quantitative Methods for Business | MA214 Math of Finance |
| MA250 Transitions to Advanced Math | MA216 Computer Mathematics |
| MA273 Multivariable Calculus I | MA222 Intermediate Statistics |
| MA304 Stats, Prob, and Discrete Math for MS | MA247 Linear Algebra |
| MA377/379 Ordinary Differential Equations | MA248 Mathematics Technology Lab |
|  | MA337 Statistical Computing With R |
|  | MA350 College Geometry |
