## Introducing Saint Peter's University

Dear Students:

Saint Peter's University is an academic community committed to high standards and the pursuit of excellence both in and out of the classroom. The community is built on a partnership between students who are willing to accept responsibility as fully engaged learners, and the University, which is dedicated to offering quality instruction and excellent services to support student success. This Catalog serves to communicate the expectations of all community members towards fostering a vibrant learning environment.

The policies and guidelines promulgated in the Catalog set forth standards for respect, active learning, and conduct in accord with the highest ethical and moral values. The Catalog also provides detailed information on the mission and philosophy of a Saint Peter's education in preparing students for lives of learning, leadership, and service. In particular, I encourage all to review the goals of the core curriculum, the heart of our Jesuit education. The departmental pages provide information on the diverse curriculum offerings and the breadth of majors, minors, and concentrations. The pages also list our talented and dedicated faculty who work tirelessly as teachers, researchers, and mentors.

The educational experience at Saint Peter's University seeks to open students' minds to the vast riches of human experience and thought and to promote a greater understanding of our world. We can accomplish this goal through a campus-wide commitment to academic excellence.

Sincerely,

Eugene J. Cornacchia, Ph.D.  
President

# About the University - Undergraduate

## The Mission of Saint Peter's University

Saint Peter's University, inspired by its Jesuit, Catholic identity, commitment to individual attention and grounding in the liberal arts, educates a diverse community of learners in undergraduate, graduate and professional programs to excel intellectually, lead ethically, serve compassionately and promote justice in our ever-changing urban and global environment.

## Accreditation

Saint Peter's University is accredited by the Commission on Higher Education of the Middle States Association of Colleges and Schools. It is recognized by the New Jersey State Department of Education as an approved teacher-training University. The teacher preparation program is accredited by the Teacher Education Accreditation Council. The University's Bachelor of Science in Nursing and Master of Science in Nursing programs are accredited by the Commission on Collegiate Nursing Education. The business program is accredited by the International Accreditation Council for Business Education. The University has registered its programs with the Veterans Administration.

## Historical Notes

Saint Peter's University, New Jersey's Jesuit University, was founded in 1872 as an independent liberal arts college. One of 28 colleges and universities in the United States sponsored by the Society of Jesus, Saint Peter's University has become Alma Mater to more than 25,000 graduates and has met the educational needs of many other students. Saint Peter's University began as a men's college. Women were admitted to the evening school for the first time during the 1930's. The College became fully coeducational in 1966 when women were admitted to the day session. In 1979 the College introduced its first graduate program in education. In 2012, Saint Peter's College was recognized by the State of New Jersey as Saint Peter's University.

Today approximately 3,000 full-time and part-time students are enrolled in undergraduate and graduate programs at the main campus in Jersey City.

## Profile of the Campus

The main campus of Saint Peter's University has long been a landmark on Kennedy Boulevard in Jersey City. The University's atmosphere, architecture, and activity reflect a dynamic, vital, urban institution offering important intellectual resources to the community. In recent years Jersey City has developed its waterfront area into an impressive hub for business, finance, and new residential opportunities. The New York City skyline, visible from Jersey City, is a constant reminder of the University's proximity to one of the country's major centers of business and culture.

The Jersey City Campus serves students in five schools: the College of Arts and Sciences for traditional age students and graduate programs; and the School of Business Administration for traditional age students and graduate programs; the School of Nursing which houses the undergraduate and graduate nursing programs; the School of Education, which houses the undergraduate and graduate education programs; and the School of Professional & Continuing Studies (SPCS) which provides courses and programs on a part-time basis for students who work during the day and need the convenience of classes on weeknights and Saturdays.

Traditional day students may choose to either commute to campus or reside in one of the University's residence halls. Graduates of many New Jersey and New York high schools regularly commute to the University by car or by public transportation. The Jersey City campus is conveniently located near the Journal Square PATH Station, a major transportation center connecting to Newark, Hoboken and New York City.

## Graduate Programs

The mission of the graduate programs emanates from and extends the mission of Saint Peter's University. The graduate programs build on the University's strengths and are responsive to the educational needs of adults who wish to acquire graduate degrees to remain competitive in their chosen careers or to embark upon career changes. Saint Peter's University currently offers seventeen degree programs: Master of Arts in Education, Education Specialist, Master of Arts in Communication and Public Relations, Master of Arts/Science in Industrial Organizational Psychology, Master of Business Administration, Master of Public Administration, Master of Science in Accountancy, Master of Science in Business Analytics, Master of Science in Cyber Security, Master of Science in Data Science

with a concentration in Business Analytics, Master of Science in Finance, Master of Science in Marketing Science, Master of Science in Nursing, Doctorate in Educational Leadership (K-12), Doctorate in Educational Leadership (Higher Education), and Doctorate in Nursing Practice. Graduate programs may be offered on either campus, at corporate sites, or at selected school districts.

**Master of Arts in Education** offers concentrations in Educational Leadership, ESL, Higher Education, Pre-School-3, School Counseling, Reading, Teaching, and Special Education. The Master of Arts in Education also offers a program of teacher preparation leading to certification as a K-6 elementary teacher, 6-8 middle school teacher, or 9-12 secondary teacher for individuals who hold a baccalaureate or master's degree, but who have not yet pursued a program in teacher education. In addition, a qualified teacher can pursue certification as a Principal, Supervisor, School Business Administrator, or Reading Specialist.

**Master of Arts in Communication and Public Relations** prepares students for positions in public relations, public relations management, advertising, and corporate communication. Students will gain the knowledge needed to advance their careers within corporations and non-profit agencies, and gain insight into evolving social media technology's impact on corporate communications.

**Master of Business Administration** offers concentrations in Cyber Security, Finance, Health Care Administrator, Human Resource Management, International Business, Management, Marketing, and Risk Management. Each program provides an education at the graduate level which meets industry's changing mission to internationalize its market and to utilize traditional as well as high-tech concepts in decision making.

**Master of Public Administration** prepares graduates for roles in a variety of positions to serve the public trust. The program draws upon the University's expertise in public policy and its unique relationship to the United Nations to help its graduate students better navigate and serve both urban and global communities.

**Master of Science in Accountancy** deals with the growing complexity of the business world and the resulting demands upon accounting professionals. The program provides the additional tools needed to enhance a practicing accountant's professional skills. Together with an undergraduate degree in accountancy, the M.S. in Accountancy satisfies the 150 credit hour requirement under N.J. law.

**Master of Science in Business Analytics** is a program designed for working managers and professionals who seek to deepen their industry credentials, data analysis skills and ability to leverage and monetize data in managerial processes and decision making to meet market needs.

**Master of Science in Cyber Security** provides students with the technical knowledge and skills needed to investigate data breaches, implement security architecture, strategies and recovery plans, and use cyber security and digital forensics software/tool-kits to protect an organization from cyber-attacks. The program prepares students for jobs in the cyber security field including positions as an information security analyst, network architect, systems manager, information assurance analyst/auditor, and detective or criminal investigator.

**Master of Science in Data Science** integrates courses in analytics and computer science with business and prepares graduates for careers as predictive modelers or analysts in data-driven industries such as marketing, finance, banking, and health care.

**Master of Science in Finance** is a program designed for working professional and full-time and part-time students who wish to gain the expertise to succeed in today's globalized financial world. The Master of Science in Finance degree will provide students with the knowledge and practice knowledge on a host of topics and are well-prepared to pass leading financial certification exams.

**Master of Science in Marketing Science** is a STEM program designed for students from diverse backgrounds in Business, Marketing, Data, IT and more. Students will enter the marketplace with the ability to understand critical inquiry through different methods and approaches to evaluating strategies. They will examine the roles of mathematics, analytics, modeling, and psychology in analyzing and interpreting consumer data.

**Master of Science in Nursing** offers one specialization: Primary Care Adult-Gerontology (Adult-Gerontology Nurse Practitioner) with a functional concentration in Nursing Administration. A Post-Master's Certificate Program is also offered to prepare nurses, who already possess a master's degree in nursing, as adult-gerontology nurse practitioners.

**Master of Arts/Science in Industrial Organizational Psychology** is a program designed to prepare students for a wide range of career paths in academic, organizational, and consulting settings. Consistent with the model of I/O psychologists as both scientists and practitioners, our program places a heavy emphasis on developing students' research and analytical skills as well as the core skills and knowledge of I/O psychology. The program will prepare students for ethical research and ethical leadership.

**Education Specialist (Ed.S)** degree is considered a highly specialized and advanced graduate degree. It is designed for professionals who would like to achieve advanced knowledge and theory; acquire skills in interpreting and using educational research, but do not want to pursue their doctorate.

**Doctorate in Educational Leadership (Ed.D.) (K-12)** is designed to prepare students on a multitude of levels for academic, administrative, clinical, or research positions in education. The program seeks to enable graduates to facilitate the development, implementation, and stewardship of a vision of learning that is shared and supported by the entire school community. Moreover, as leaders, they will be able to advocate, nurture and sustain a school culture that is conducive to maximized student learning and staff professional growth. All the while, the effective management of the organization will be ensured. Graduates will be prepared to ensure that essential and needed operations and resources for a safe, efficient, and effective learning environment are in place via the program's core values.

**Doctorate in Educational Leadership (Ed.D.) (Higher Education)** prepares students for careers in higher education administration and leadership. The primary aim of the program is to prepare current administrators, educational leaders, and faculty to take on senior post-secondary leadership roles in community colleges, liberal arts colleges, as well as teaching and research universities. This concentration promotes the development of leadership skills through systematized practice, examination, and research.

**Doctorate in Nursing Practice** prepares those who are already advanced practice nurses or in administrative roles to build upon a foundation.

## The Jesuit Nature of Saint Peter's University

As a Jesuit, Catholic university, Saint Peter's has a long and venerable commitment to academic excellence, to spiritual and moral values, and to the individual personal development of its students. The 450-year-old tradition of Jesuit education is manifested through the University's strong core curriculum, through *cura personalis* (personal care) for its students, and through the cooperation of Jesuits and lay persons in the educational mission of the University.

Through personal counseling, academic advisement, career services, and a vibrant campus life, the University has exemplified its tradition of *cura personalis* by developing various ways of meeting student needs. The intellectual and spiritual dimensions of the Saint Peter's University experience are manifested in many ways – but especially through the interaction of students, faculty, and administrators who work together on University committees and various programs. Incoming students enjoy this relationship immediately through the University Advisement Program. Every new student has an advisor, a member of the faculty or administration who is thoroughly familiar with the University's academic programs and support services. Once students have selected a major, they are assigned an advisor from their major department; however, students who have not declared a major continue with an undeclared advisor.

## The Educational Objectives of Saint Peter's University

Saint Peter's University is a humanistic institution where the study of the liberal arts is considered the foundation for all educational programs. The University offers more than 50 bachelor's programs and six associate degree programs, all of which are based on the principle that knowledge in a special field gains depth, broadness of interpretation, and an understanding of moral values only when based on the humanistic disciplines. The purpose of education is to analyze ideas, to probe mysteries, to suggest solutions to problems, to express thoughts, to understand, and to question the phenomenon of permanence amidst change. In short, education is the process of preparing personally and professionally for one's life work.

Common to all programs at Saint Peter's University is the core curriculum – a series of courses in selected disciplines designed to develop an awareness of the person and one's relationship to others, to the environment, and to the historical accidents which occur. Philosophy and theology are key disciplines in the development of this awareness and are firmly rooted in the tradition of Jesuit education. Courses in history establish the trends which have characterized the responses of various civilizations to war, peace, human rights, and technological developments.

Through courses in literature and the arts, an understanding of the creative impulse is developed as well as an ability to interpret symbol and myth. The natural sciences emphasize the very real relationship between society and the universe, as well as the social sciences and the changing behavioral patterns in society.

The self-awareness and values developed as a result of the Saint Peter's experience provide a significant spiritual, intellectual, and cultural basis for specialized studies in the arts, the sciences, and pre-professional programs.

## **The Saint Peter's Library and Archives**

Built in 1967, the Edward and Theresa O'Toole Library contains over 50,000 square feet of space and houses over 218,608 volumes on its four floors. The library subscribes to 1,000 print periodicals and over 50,000 online periodicals including 13,800 e-books. The library offers individual and group study space, computer access, WIFI connectivity to the Internet and a host of in-house and virtual library and information services for both students and faculty. These services include classes on information literacy, as well as how to best access information from around the globe, regardless of format, to meet course objectives and study needs. The library is fully automated. The catalog and links to many important resources are available on the Internet at: <http://saintpeters.edu/library> (<http://saintpeters.edu/library/>) and available on campus as well as remotely.

Access to books or articles that are not in the University's collection can usually be obtained on inter-library loan. The University can also provide students with a referral card to other metropolitan area libraries. The University is only minutes from the Research Libraries of the New York Public Library on 42nd Street in Manhattan and its new building, the Science, Industry and Business Library (SIBL) on 34th Street. Saint Peter's students and faculty also have free access to state-supported university libraries in New Jersey.

The Honorable Frank J. Guarini Center for Community Memory, The Saint Peter's University Archives, Rare Books and Special Collections hold the institutional memory of the University through its collection of documents, photographs and other ephemera as well as the congressional papers. Use of the archives and congressional collections is by appointment, which can be made by contacting the University's archivist. Rare books and special collections can be accessed by making an appointment through the Library Director.

## **Computer Facilities**

Saint Peter's University offers all current students open-door access to computer facilities with over 300 computers in 17 student computer labs. In addition to such basics as Microsoft Office, Internet access, and e-mail, these computers have a variety of software for Mathematical and Statistical Analysis, Computer Programming, Graphic Arts, and other applications. Special software required for particular courses is installed in several labs. The University has migrated classroom and lab computers to the faster, secured server-based VDI system.

All computer labs and classrooms are connected to the campus LAN and to the Internet. Every student has his/her own network account. E-Mail and Blackboard, the University's online learning system, are accessed from any computer with an Internet connection.

Over 60 classrooms are equipped with computers, video projectors, and other multimedia hardware for computer-supported instruction. Both campuses have the University's wireless network, and almost all residence halls have data connections in each student's room. Use of Saint Peter's University facilities and network infrastructure is governed by the Acceptable Use Policy which is published on our website.

## **Campus Life and Activities**

Campus life at Saint Peter's is vibrant and inspiring, and students are encouraged to take part in all that the University offers. Academic life is enriched by many programs and services which complement classroom instruction. Among those opportunities open to students is the Center for Counseling and Psychological Services, which assists students with their social, psychological, and academic adjustment to college; the Center for Career Engagement and Experiential Learning which offers assistance in career planning, sponsors on-campus recruiting and career fairs, and helps students search for meaningful full-time positions; a Cooperative Education and Internship Program which assists students in searching for part-time positions, internships, and/or summer positions, as well as opportunities to earn money and college credit for practical experience; a Campus Ministry Office which provides religious services, retreats, interfaith dialogue opportunities, and pastoral counseling; and an Office of Community Service, which offers opportunities for volunteer service and a co-curricular service component.

The Office of Student Life and Development sponsors annual events on campus featuring popular entertainment, guest lecturers, and social events, both on-and off-campus. Jersey City and New York City, just a short distance away, offer diverse cultural opportunities. Students make friends and master new skills in the dozens of student clubs and organizations, activities, and events that make up campus life. Student organizations include the Student Senate, Commuter Student Association, Student Entertainment Board, performing arts groups such as the Argus Eyes Drama Society, student publications such as *The Pauw Wow* (the student newspaper), professional and academic groups, and ethnic culture clubs. Leadership programs, such as the Emerging Leaders and Existing Leaders, offer opportunities for students to develop leadership and organizational skills.

Saint Peter's Recreational Life Center offers facilities for tennis, swimming, basketball, volleyball, weight training, racquetball, golf, fitness, aerobics, and martial arts. Each year over 800 men and women participate in an extensive intramural program. Complimentary fitness classes are offered to all students throughout the year. Aquatics programming, including swimming lessons and a certifications course are regularly offered at the RLC pool.

Saint Peter's University sponsors 17 NCAA Division I intercollegiate sports and the co-ed activity of cheerleading. The NCAA Division I sports for men are: baseball, basketball, cross country, golf, soccer, swimming and diving, track and field (indoor), and track and field (outdoor). The 10 NCAA Division I sports for women are: basketball, cross country, soccer, softball, swimming and diving, track and field (indoor), track and field (outdoor), and volleyball. Saint Peter's is a member (one of the six founding members) of the Metro Atlantic Athletic Conference.

No discussion of college life would be complete without mentioning the vibrant community of on-campus residents. Saint Peter's University can now boast having seven residence halls, both traditional and apartment style, that add to an exciting educational environment.

## Campus Ministry

Campus Ministry at Saint Peter's University calls upon a dedicated team of students, faculty, staff and administrators who work together to offer educational programs, retreats, liturgical celebrations, and personal support that help meet the religious, spiritual, and social needs of the campus community. In the spirit of Saint Ignatius of Loyola Saint Peter's provides a person-centered ministry which recognizes that individuals have unique and diverse concerns. Campus Ministry is committed to developing Catholic leadership for the church and world. At the same time, the University seeks to assist non-Catholic students in identifying ways they can practice within their own religious tradition. Campus Ministers are available to be of support to all members of the University community. Campus Ministry offers programs in which students are invited to enter into mutual dialogue, share their various faith traditions and spiritual perspectives, gather socially, and serve others. Campus Ministry offers opportunities for local community service as well as global outreach to other countries where students, staff, faculty, and alumni can exercise the Ignatian call to be women and men for and with others striving to make a difference and make both a local and global impact in the work of social justice and solidarity with the poor.

## Residence Life

The Office of Residence Life is committed to the overall growth, development, and education of students residing within the residence halls through structuring a positive living environment, with a focus on educational, cultural, and social programming.

Since 1983 Saint Peter's University has added residence living to the already rich educational tradition of its history. The University's residence community is divided into two areas. The west area includes Veterans Memorial Court, Durant Hall, 140 Glenwood Avenue complex, and Murray Hall. These residences are furnished apartments housing up to six students per unit and all locations come equipped with laundry facilities. Veterans Memorial provides the common space for the west area with a computer lounge, chapel, and multipurpose room. Whelan Hall, Millennium Hall, and Saint Peter Hall are the residence halls in the east area. These traditional residence halls have a common lounge with a large screen TV, a computer room, a study lounge, and a laundry room. The residence halls are staffed with professionals and para-professionals in various capacities. Members of Campus Ministry and Athletics staff also live within the residence halls and provide various other services.

# Academics - Traditional Day Student Core Curriculum

## The Curriculum

Saint Peter's University offers more than 50 programs leading to the Bachelor's degree and six leading to the Associate's degree. These programs are built around two concepts: the core curriculum and the major. The core curriculum provides students with the opportunity for breadth of knowledge while the major concentrates on specialization in a single field of study.

The curriculum at Saint Peter's University is enriched by opportunities for students to develop composite majors, double majors, and minors; to participate in an honors program and foreign study opportunities; and to become involved in cooperative education and internships.

## The Core Curriculum

The core curriculum, required for all undergraduate degree programs offered by Saint Peter's University, provides opportunities for study in a variety of disciplines. The basic purpose of the core is to address issues intrinsic to a humane education through a liberal arts program committed to the pursuit of knowledge in its fundamental unity, intelligently appreciative of a common cultural heritage, conscious of social and moral obligations, and respectful of the traditions of the Judeo-Christian value system and of Jesuit education.

The objectives and outcomes of the core curriculum, achieved through study of the humanities, the natural and social sciences, the fine arts, philosophy, and theology, and incorporating issues related to values and pluralism, are fundamental to the development of the well-educated person. Through the core curriculum students will be expected to be able to do the following.

### **Objective 1: Develop intellectual and communication skills so that one is able to:**

- 1.1 Outcomes: Problem solve and analyze quantitative information.
- 1.2 Formulate, critique, and analyze an argument.
- 1.3 Utilize effective critical thinking skills.
- 1.4 Demonstrate effective oral communication skills.
- 1.5 Read and write critically and cogently.
- 1.6 Synthesize knowledge from the core to major.

### **Objective 2: Explore humanistic and social disciplines in order to:**

- 2.1 Outcomes: Critically think about ideas and events that have shaped the humanistic tradition.
- 2.2 Distinguish behaviors and characteristics that support effective and appropriate interaction in a variety of cultural contexts.
- 2.3 Discern ethical and moral principles in order to more fully understand one's role as an individual in a larger community.

### **Objective 3: Explore scientific disciplines and technology in order to:**

- 3.1 Outcomes: Apply fundamental scientific principles and methods of inquiry to understand the impacts of the scientific research technology.

### **Objective 4: Exhibit leadership based upon one's ability to:**

- 4.1 Outcomes: Recognize the role of service, leadership and Ignatian ideals in the realization of a just, civil society.

The core curriculum for the Bachelor's degree for students consists of 54-57 specified credits plus a Values course, a Capstone Experience, a Writing Intensive course and a Pluralism course that for most students, will be satisfied within the major.

Some majors require students to choose particular core courses, so students should consult their major requirements before choosing core courses. According to the new core requirements, a single course may be required for a given major, and it may also satisfy one or more of the following requirements as well: Values, Capstone, Writing Intensive, and Pluralism. To complete some majors within eight semesters (4 years), major courses and core courses need to be taken in a particular sequence. Suggested sequences for taking the core curriculum and major requirements are available in the departments and the appropriate dean's office.

In their first semester of enrollment, all freshmen must register for courses in English composition and mathematics, based on their placement test results. Students who do not complete these requirements satisfactorily and in a timely fashion may be subjected to restricted registration. More specific information is available from faculty advisors and the deans. As determined by placement results, students who are not adequately prepared may be required to take zero-credit developmental courses prior to beginning the core requirements in composition and mathematics.

The waiver of any core curriculum requirement can be granted only through the Office of the appropriate dean for traditional day students or the Director of the School of Professional & Continuing Studies for SPCS students.

Any prerequisites for core Composition may be applied towards open electives but may not be used for core credit. CM-116 (for Nursing majors ONLY) and CM-120 - both entitled English Composition - are one semester courses that fulfill the core requirement and do NOT need a prerequisite.
- 2 Students must complete the English Composition Requirement before registering for the Literature Requirement.
- 3 Most freshmen are placed into one of the above sequences based on their major and the results of their mathematics placement test. Insufficiently prepared non-calculus bound students should complete MA-102 and MA-103 or MA-103 and MA-106 (FC section). Insufficiently prepared calculus-bound students will be required to take either MA-101 or both MA-100 and MA-101 before beginning calculus.
- 4 A 6-credit sequence of a modern or classical language or cultural language course is required; the level is determined by previous experience in the given language. Language sequences should be taken in the same year.
- 5 Majors in one of the social sciences must select two courses outside the major to fulfill the core requirements. For students in the School of Professional & Continuing Studies, the choice of courses in Social Sciences will depend on degree and concentration.
- 6 Take a designated Values course (V). Depending on the major, a values course may be required for the major as well. The prerequisite for a values course is either PL-140 or the second Theology Core requirement.
- 7 Any 200/300 level Theology course can count as either the second Theology Core requirement OR as a Values course, but not both.

## Special Academic Resources

### The Center for Academic Success and Engagement (CASE)

The Center for Academic Success and Engagement (CASE) at Saint Peter's University provides students with the academic advising, programming, tools and resources needed to successfully manage the college experience and achieve their academic goals. In collaboration with the schools and colleges CASE assists students with the transition to college-level work and supports their academic endeavors throughout their entire college career. The following programs and services are provided to students in their first year and beyond:

- Academic Coaching and Learning Strategy Consulting
- Disability Services
- First-Year and Transfer Advising
- Freshman Common Reading Program
- Learning Support Programming & Workshops
- Peer Mentoring Program
- Testing and Registration
- Transfer Services
- Tutoring
- Study Groups and Study Skills Preparation
- Supplementary Instruction (SI)
- Undeclared Advising & Major Exploration Services

### Academic Success Program (ASP) and Summer Academy

Tushar Trivedi, *Director*

Students who are conditionally admitted have access to supplemental academic assistance prior to and during freshman year through the Academic Success Program (ASP). ASP students are identified by Admissions as having the potential for success but may require extra support to reach that potential. A key component of ASP is the Summer Academy, a three-week intensive program, designed to facilitate the transition from high school to college—in which students take an engaging, interdisciplinary course to sharpen their reading, writing, and math skills, while earning three academic credits towards graduation. Students are placed in ASP learning labs in the fall semester of freshman year to reinforce study skills and time management and receive dedicated faculty advising. The Coordinator of the Program also assists the Dean of Freshmen and Sophomores and freshmen faculty advisors throughout the academic year in monitoring the academic performance of these students and provides students with personalized guidance and support. The ASP program also offers tutoring services, workshops, and community service learning projects. Additional assistance is available through the orientation program, developmental courses, and tutorial assistance provided by the Center for the Advancement in Language and Learning (CALL).

### Developmental Programs

Before registration, entering students take placement tests in composition, reading, and mathematics, which determine their enrollment in specific composition and mathematics courses. Based on their placement results, students who need supplemental academic assistance in composition, reading, mathematics, and reasoning ability, may be required to take one or more developmental courses. Tutoring assistance is also provided through the Center for the Advancement of Language and Learning. These developmental courses do not carry academic credit and may not be applied towards degree requirements.

### TRiO Student Support Services

The term “TRiO” was coined in the late 1970's when the first three programs were established. These three programs include *Upward Bound* (1964), *Educational Talent Search* (1965) and *Student Support Services Program* (1965). Over the years, TRiO programs have expanded and now include several additional programs.

### E.D.G.E. Program

(Engage, Discover, Gain experience, Excel) Student Support Services helps low-income and first generational students to stay in college until they earn their baccalaureate degrees. Participants also include disabled college

students, who receive tutoring, counseling and remedial instruction. The Student Support Services (SSS) at Saint Peter's offers participants a comprehensive four-year program, entitled the EDGE (Engage, Discover, Gain Experience, Excel), that features result- oriented support services, rather than a series of non-connected activities. The goal of SSS is to increase retention and graduation rates of participants through quality interactions, clear expectations and pathways to academic preparedness.

### **Engage**

- Addresses many issues associated with transitioning from high school to college through the New Student Orientation Program, a Summer Bridge Program and Learning Communities.
- Academic Advising, Academic Assistance and Tutoring by GEMS (Getting Engaged in Mentoring Students) who are existing peer mentors, will also be provided.

### **Discover**

- Continues critical support services and interventions, but begins to focus more specifically on distinct pathways to success
- Guidance on choosing a major, exploring experiential learning, leadership, and service opportunities; and career exploration.

### **Gain experience**

- Emphasizes four areas:
  - Degree completion strategies
  - Experiential learning
  - Graduate/professional school exploration/preparation
  - Preparing to enter the work force

### **Excel**

- Addresses degree completion, implementation of postgraduate plans and assimilation of the academic, experiential learning, social and leadership growth as seen in the Life Portfolio.

## **Center for English Language Acquisition and Culture (CELAC)**

Alicia D'Amato, *Director*

Created to address the needs of our culturally and linguistically diverse student population, CELAC offers a wide range of resources to support and promote academic success for students whose first or strongest language is not English. Along with having a variety of undergraduate writing and reading classes, we also offer courses in English as a Second Language for students and community members who are seeking to improve their English skills.

## Special Academic Programs

### The Honors Program

Dr. Rachel Wifall, *Director*

Dr. Jeanette Wilmanski, *Assistant Director*

The Honors Program at Saint Peter's University provides students of exceptional academic talent and intellectual curiosity with the opportunity to pursue their studies in greater depth, breadth, and intensity.

### Admission to the Program

Freshman enrollment in the Honors Program is by invitation and based upon SAT scores and high school grade point average. Students who have earned 15 or more credits at the University and have attained a cumulative index of at least 3.5 may apply for delayed entry into the program. Transfer students who possess the equivalent of a 3.5 GPA may also apply for admission to the Honors Program.

### Special Notes on Honors Program Requirements

- <sup>1</sup> While Honors provides academic enrichment for highly motivated students, it is not a formal major or minor.
- <sup>2</sup> In order to graduate "in cursu honorum," students enrolled in the program must complete a minimum of 24 credits of Honors-designated classes/special study experiences, the one-credit Methods of Research course, and the senior Honors thesis.
- <sup>3</sup> Up to 6 Honors credits may be earned through special study experiences, including credited internships, study abroad, or service learning course work.
- <sup>4</sup> Students must maintain a minimum grade point average of 3.5 to remain in good standing. Honors students dropping below the minimum will be granted a one-semester grace period to restore their good standing in Honors.
- <sup>5</sup> Any student in the University with at least a 3.5 cumulative average may take an honors-designated course, as an "Honors Associate."

### Health Sciences Articulation Programs with Professional Schools

Dr. Leonard J. Sciorra, *Department of Applied Science and Technology*

Dr. Katherine Wydner, *Chairperson, Health Sciences Advisory Committee*

A number of combined degree programs are available to students through a series of articulation agreements with area colleges and universities. These programs are coordinated through the Department of Applied Science and Technology and the Health Careers Advisory Committee. For more detailed information, see the separate program sections for Pre-Med/Pre-Dental, Clinical Laboratory Sciences (cytotechnology and medical laboratory science), and Pre-Professional Health-Related Programs (pre-physical therapy, pre-pharmacy, and pre-physician assistant). Students interested in these programs need to plan their academic course of study with the assistance of a member of the Health Careers Advisory Committee to ensure fulfillment of requirements for admission to the various professional schools and to prepare to take the necessary required examinations, such as the MCAT or DAT.

### Pre-Law Program

TBA, *Advisor*

Information and guidance regarding law school and law-related careers, including requirements, application procedures, and preparation for the Law School Admission Test (LSAT), are available through consultation with the advisor of the Pre-Law Program. Exceptional high school students and first-year University students interested in an accelerated program, leading to both a Bachelor's degree in political science and a professional degree in law in six years rather than the normal seven years, may apply to the Joint B.A./J.D. Program that Saint Peter's University offers in conjunction with Seton Hall University School of Law. The selective Joint Program is optional and is not required to apply to, or attend, law school. For more information on pre-law preparation at Saint Peter's University, as well as the Joint Program, see the Pre-Law section.

## **Bachelor of Arts *in cursu classico***

Stressing its liberal arts and Jesuit traditions, a Bachelor of Arts degree *in cursu classico* is offered with a major in Classical Languages or Classical Civilization. Requirements for the majors can be found under the Modern and Classical Languages and Literatures section.

## **The Composite Major**

In instances where students wish to meet some special educational or career objective, they may undertake a Composite Major (e.g., Comparative Literature) which is designed in consultation with the appropriate academic dean and mentored by an advisor appointed by the dean. Before meeting with the dean, students should prepare a written proposal which indicates the name of the proposed major, the objective of the proposed major, and the proposed list of courses to be taken. A composite major should consist of 30 to 60 credits depending on the number of departments and programs from which upper-level courses will be selected. A minimum of one half of the credits to be applied to the major must be taken at Saint Peter's University.

## **The Washington Center Internship Program**

TBA, *Liaison*

The Saint Peter's University Washington Center Internship Program, administered by The Guarini Institute through the Department of Political Science, offers qualified students in their sophomore, junior, or senior year the opportunity to earn academic credit while working full-time in Washington as unpaid interns in positions related to their majors. Internships are available with a wide variety of employers including members of Congress, U.S. government agencies, businesses, think tanks, interest groups, news organizations, and international organizations. Each internship is a full-time, supervised work experience in the nation's capital that is supplemented by a weekly academic course and by lectures from prominent leaders in both the public and private sectors. Internships are available in the fall or spring term, during which students earn 15 academic credits, or in the summer term, during which students earn 9 to 12 credits.

To be eligible to participate, students should possess a cumulative grade point average of at least 2.75 and must have completed a full academic year at Saint Peter's University. Grades for the internship and weekly academic course are recommended by the student's employer, course instructor, and Washington Center staff, and are assigned by Saint Peter's University faculty. Both the credits and grades earned are recorded on the student's Saint Peter's University transcript. However, grades from the Washington Center Internship Program are not calculated in the student's Saint Peter's University grade point average. Costs for the program are comparable to those for attending Saint Peter's University, and some scholarships are available. More information about the program can be obtained from the Saint Peter's Liaison to the Program.

## **ROTC: Army Reserve Officers' Training Corps**

Qualified students may participate in the Army Reserve Officers' Training Corps through a cross-enrollment agreement with Seton Hall University. The program complements the normal college course of study and qualifies those who complete the program for commissions as officers in the Active Army, the U.S. Army Reserve, or the Army National Guard. Interested students should contact Seton Hall University ROTC Department.

## **Accelerated Programs**

Saint Peter's University offers accelerated programs. Students must apply for a master's degree during their junior year and be accepted into the program in order to schedule graduate courses during their senior year. The number of graduate credits permitted while an undergraduate student varies per program. Please contact the director of the desired graduate program for more information regarding program requirements and policies.

## **Certification for Teaching in Elementary or Secondary School**

The School of Education offers programs leading to certification for teaching in elementary or secondary schools. A teaching certification is granted to students who successfully complete their chosen program at the University as well as courses prescribed by the New Jersey Department of Education. Specific information about these programs can be found in the School of Education section.

## Academic Centers and Institutes

### The Center for Global Learning

Scott Keller, *Director*

The Center for Global Learning organizes and manages study abroad and exchange programs, facilitates the development of faculty-led international courses, and collaborates with the Office of Admission to support, enrich, and expand international student enrollment at Saint Peter's University. The Center also develops international partnerships and collaborates with external agencies and organizations on outreach programs.

### Center for Special Scholarships and Graduate Study

TBA, *Director*

After discussion with their major advisor, students should consult the Director of the Center for Special Scholarships and Graduate Study for information on graduate programs, required examinations, such as the GRE, procedures for application, and scholarship opportunities including the Davies-Jackson, Fulbright, Goldwater, Marshall, Rhodes, Truman, and many others. The Director assists students in the preparation of essays, personal statements, and other aspects of their applications.

### The Guarini Institute for Government and Leadership

Ginger Gold Schnitzer, *Executive Director*

Established in 1994 by Congressman Frank Guarini, The Institute for Government and Leadership provides a non-partisan forum for discussion of key public policy issues. The Institute sponsors lectures and programs throughout the academic year to promote critical thinking, debate, and careers in public service.

#### Guarini Lecture Series

This Series brings national and state political leaders and policy makers together to discuss timely issues impacting our world. The Guarini Institute also sponsors periodic Public Affairs Forums to address topics of particular interest.

#### United Nations Programs

The University has maintained Non-Governmental Organization (NGO) status at the United Nations since 2004 through the UN's Department of Public Information. This status, administered through the Guarini Institute, provides faculty and students unique opportunities to participate in UN briefings and workshops at the UN as well as interactive video conferences.

#### Internship Opportunities through the UN/NGO Connections Program

The Institute provides assistance to undergraduate and graduate students seeking to pursue internship opportunities through the UN/NGO Connections program. This program provides internship opportunities at UN Headquarters in New York, Geneva, Vienna, Nairobi, Addis Ababa, Bangkok, Beirut and Santiago or with specific NGOs working with the UN in New York.

#### Visiting Ambassador's Colloquium

United Nations Ambassadors come to the University to discuss matters of interest to the United Nations and to acquaint attendees, typically faculty, administrators and honor students, with the ambassador's country.

#### High School Model UN

In partnership with the Department of Political Science, the Institute hosts a High School Model UN that brings together delegates from New Jersey and metropolitan New York.

#### Washington Center Internship Program

The Guarini Institute administers Saint Peter's University's Washington Center Internship Program through the Department of Political Science. This program offers qualified students the opportunity to work full-time in Washington, D.C. and earn academic credit as unpaid interns in programs related to their majors. For a more detailed description see the Special Academic Programs section.

## Approaches to Earning College Credit

Matriculated students at Saint Peter's University may complete degree requirements in a number of ways. The traditional way is by taking courses. Other alternatives include:

1. Advanced Placement sponsored by the College Entrance Examination Board;
2. College Level Examination Program (CLEP)
3. Internships;
4. Cooperative Education;
5. Service Learning;
6. Prior Learning - involves the submission of an experiential learning portfolio for the evaluation of credit; (SPCS only)
7. Evaluation of certain non-collegiate programs taken under the aegis of the Armed Forces and/or some courses given by industrial firms and business corporations evaluated by the American Council on Education.

Students may earn no more than 30 credits towards their degree through any combination of the above programs, not to exceed 15 credits of Prior Learning or CLEP. (Students pursuing Associate's degrees, should consult with the dean's office for advisement.)

### Advanced Placement

Credit for advanced placement is granted by the department responsible for the particular discipline. The scores needed on advanced placement examinations administered by the College Entrance Examination Board may vary by department; consult department sections for more information. If credit is granted for an introductory course in the major, a department may require a student to substitute another more advanced course.

### College Level Examination Program (CLEP)

Saint Peter's University grants credit for CLEP examinations within the following guidelines.

1. On the General Examinations, the University grants credit for scores equal to or above the fiftieth percentile, determined by national college sophomore norms.
2. On the Subject Examinations, the University grants credit for scores equal to or above the standard score based on the recommendations of the Council on College Level Examinations.

Students should check with an advisor or the appropriate dean before taking CLEP examinations in order to make sure that the particular examinations will be acceptable for credit, and also that the examinations do not duplicate courses for which they have earned credit already. Freshmen may not take CLEP examinations in lieu of the University's composition requirement.

### The Center for Career Engagement and Experiential Learning

The Center for Career Engagement and Experiential Learning (CEEL) embraces a comprehensive and developmental approach to career preparedness. The Career Engagement and Experiential Learning team engages students in a high-quality personal and professional experience from the time of admission until graduation. The activities aim to: help students discover strengths and build upon important skills; secure opportunities to gain practical experience through internships, service learning, and part-time jobs; and develop the tools for networking and job searching in order to reach their respective career objectives. The Center for Career Engagement and Experiential Learning serves all students, both traditional and adult learners, at the undergraduate and graduate degree levels.

The Center for Career Engagement and Experiential Learning offers a program of experience-based educational enrichment designed to enhance a student's academic and personal development and to contribute to an understanding of work and careers. The program consists of a series of planned and supervised off-campus working experiences which may be integrated with independent academic study under the tutelage of a faculty member. Students participating in cooperative education or internship experiences may earn a salary and/or academic credit. In addition to internships offered through the Center for Career Engagement and Experiential Learning, many academic departments offer credit-bearing internships as well, and in some cases, a department-based internship may be required for the major. Credit-bearing experiences offered through the Center for Career Engagement and

Experiential Learning are designated by the course number 295 prefixed by the department or program sponsoring the experience, e.g. UR-295, EL-295, etc. Credit-bearing internships offered through academic departments are designated by different course numbers; consult individual departments and course offerings for details.

Cooperative Education and Internship experiences offered through the Center for Career Engagement and Experiential Learning are available for students in any major as well as for those who are undecided about their major field of study. Students interested in participating should register with the Center for Career Engagement and Experiential Learning during the semester preceding the work experience. Those interested in a summer and/or fall placement should register with the Center no later than the preceding March. Students who wish to work during the spring semester should register no later than the preceding October. All credit-bearing experiences offered through the Center for Career Engagement and Experiential Learning must be approved by the instructor, the appropriate Dean's Office, and the Center for Career Engagement and Experiential Learning.

Through the Center for Career Engagement and Experiential Learning, three basic plans for Cooperative Education are available. On the Alternating Plan, students alternate periods of full-time work with periods of full-time study. On the Parallel Plan, students work part-time while attending classes on a full-time basis. On the Job Enrichment Plan, students work on a new full-time or part-time assignment for their present employer. Credit is available for each plan, but no more than three semesters of Cooperative Education may be taken for credit and no more than nine credits toward the degree may be granted for Cooperative Education.

## Office for Community Service and Service Learning

Rooted in the Jesuit tradition of educating *Men and Women for Others*, the Office for Community Service is affiliated with Campus Ministry and directly implements the University's mission "*to prepare students for a lifetime of learning, leadership, and service to others in a diverse and global society.*" Through participation in meaningful volunteer and service learning experiences with more than thirty Hudson County nonprofit agencies and religious organizations, Saint Peter's students and faculty directly contribute to social justice activities and the empowerment of local constituencies. In their roles as tutors, mentors, outreach workers, researchers, and social work assistants, students share their time and talent with their neighbors in need of encouragement, support and assistance.

Through community service projects and service learning in the classroom, students are encouraged to share the benefits of their college experience and invest their time and skills with non-profit agencies and schools with limited resources. To support the student's service experience, the Office facilitates training and discussion sessions that stimulate reflection about the relationship of service to one's personal, intellectual, and spiritual growth. Selected courses incorporate community service as a required component, with faculty guiding student reflection about their service through discussions and journals.

## The Evaluation of Non-Collegiate Courses for Credit

Credit may be granted for courses taken under the auspices of the Armed Services, if the courses are evaluated in *A Guide to the Evaluation of Educational Experience Gained in the Armed Services* and if the credits are applicable to the student's degree program.

Credit may also be granted for certain in-service courses taken under the sponsorship of a business or industrial organization if the course carries a specific credit evaluation in *The National Guide to Educational Credit for Training Programs*, compiled by the American Council on Education or the NY PONS Program.

## Prior Learning Experience

Matriculated students at the School of Professional and Continuing Studies may earn credit for prior learning gained through work experience, in-service courses exclusive of those programs already evaluated by the American Council on Education, community service activities, unique travel experience, and special accomplishments in the arts.

Students who wish to apply for Prior Learning credit must submit a portfolio which demonstrates the learning gained through the experience. The portfolio consists of an application, a detailed resume, an essay, and appropriate documentation in support of the essay. A separate essay and supporting documentation is required for each course for which the student is requesting credit. Students work closely with a faculty member in the appropriate departments.

The guiding principles for granting credit for prior learning are as follows:

- Credit is not granted for experience, but for the knowledge gained as a result of the experience.
- Students must be able to demonstrate that their experiential knowledge is equivalent to a specific course or academic discipline offered by the University. The course number and description must accompany each portfolio submitted.
- Students may not apply for experiential credit which is the equivalent of a course, a CLEP test, or nursing validation examination for which credit has previously been earned.

## **Eligibility Requirements**

Students are eligible to apply for the evaluation of prior learning if they are matriculated students in the School of Professional and Continuing Studies, in good academic standing with a cumulative grade point average (GPA) of 2.5 and have earned at least 18 credits exclusive of developmental courses at Saint Peter's University.

## **Procedures for Declaring Candidacy for Prior Learning Credit**

Students must meet with the appropriate dean to determine the feasibility of earning such credit. At this time, the student will complete an application and interview to determine that a.) credit has not been earned for these experiences in any other way and b.) the experience is eligible for evaluation. Eligibility for evaluation does not guarantee acceptance or award of any credits. Students must file an application for Prior Learning credit with the appropriate dean after they have satisfied eligibility requirements and provided appropriate supporting documentation and information. Portfolios will be evaluated by the appropriate department.

## **Portfolio Evaluation**

Portfolios are evaluated by faculty members whose competencies are pertinent to the experiences submitted for evaluation. Credits will be awarded for specific courses and will be identified on the transcript as experiential learning credits. (Grades are not assigned to experiential credits.) Students who wish to appeal the results of a portfolio evaluation may address their request to the appropriate dean.

## **Fee Structure**

A portfolio evaluation fee is payable in full when the application is accepted and before the portfolio is assessed for credit. The check for the proper amount must accompany the portfolio at the time of submission. A fee per credit, with a maximum of 15 credits to be earned experientially, will be assessed for credits actually awarded.

## Academic Policies and Regulations - Undergraduate

All policies and regulations outlined in this catalog will be interpreted and managed according to procedures which are too lengthy to be printed here. These protocols may be found in the office of the appropriate dean for each college or school. Students may appeal all academic policies and regulations to the appropriate dean, who may, depending on the circumstances, consult the Dean of Students.

Note: all policies and procedures pertain to the College of Arts and Sciences, School of Business, School of Nursing, School of Education and SPCS unless specifically addressed.

### Requirements for Degrees

The fulfillment of degree requirements includes both credit-related and performance-related criteria. Students must complete a minimum of 120 credits for the Bachelor's degree and 66 credits for an Associate's degree. In order to be eligible for a Saint Peter's University degree in any major, at least one half the number of credits required in the major, exclusive of cognate requirements, must be earned in courses taken at Saint Peter's University or in programs sponsored by the University. The maximum number of credits a student may transfer from a two-year institution is 66 credits, and the maximum number from a four-year institution is 90 credits. The credits must be distributed according to the curriculum outlined for each degree program. The last 30 credits for the degree, defined as the residency requirement, must be completed at Saint Peter's University.

The performance-related requirement for all degrees reflects a standard of academic excellence. Students must attain a GPA of 2.0 for their entire academic record at Saint Peter's University. In addition, all students must attain a minimum GPA of 2.0 in the courses required in their major program. Departments may establish GPA requirements higher than 2.0; whenever this is the case, the specific requirements will be stated in the "department section" of the catalog. No student will be given a diploma until all financial and property obligations with Saint Peter's University have been satisfied.

### Time Limitations for Earning Degrees

The normal time span for the completion of the Bachelor's degree by full-time students is four years. Part-time students normally complete the Bachelor's degree in six years.

These times may be shortened by attendance at summer sessions or lengthened depending on the needs of the student. The maximum period allowed to satisfy all requirements for the Bachelor's degree is ten years and for the Associate's degree, six years. In extraordinary cases, an extension of time may be permitted. Students who need an extension should file a request for extension, stating pertinent reasons, with the appropriate dean at least one term before the maximum time period has elapsed.

If an extension of time is requested, students should be aware of the following guidelines that the dean will have to consider:

1. If courses taken more than ten years prior to the completion of the Bachelor's degree are courses in liberal studies such as literature and history, the dean may exercise discretion and waive the ten-year limit on the acceptability of these courses for a Bachelor's degree.
2. In technical areas where recent developments may have changed substantially the atmosphere of academic studies in a subject, the dean will submit the courses in question to the appropriate department chairperson who will indicate in writing whether the courses are still applicable and what steps students must take to update their knowledge in the subject area.

The same procedures apply in the case of courses taken more than six years prior to the completion of an Associate's degree.

### The Double Major

Students may elect to complete requirements for two separate major areas of study. Permission for a double major must be obtained from the chairperson of the principal major department and the chairperson of the second major department. A form for this purpose is available in the Enrollment Services Center. All courses requisite and cognate for each major must be completed. At least one-half of required courses, exclusive of cognate courses, must be completed in courses taken at Saint Peter's.

## Minors

In addition to their major areas of concentration, students may declare a minor in another academic discipline. The University offers a variety of minor programs. See the chart under Degree Programs for the complete listing. Minor programs may be developed within the following guidelines:

1. The completion of a minimum of 18 credits in a specific discipline, at least one half of which should consist of upper division courses. A minimum of one half of the courses for the minor program must be taken at Saint Peter's University.
2. The courses selected for the minor must be distinct from those required for the core or major. Cognate courses (courses in other disciplines needed to complete major requirements) may be approved as part of the minor program.
3. Normally students may not take a major and a minor in the same department. There are some exceptions to the rule, based on the principle that there are substantial differences in the disciplines offered by some departments. Students may take both a major and a minor in programs offered by the following departments: Applied Science, Computer Science, Business Administration, Fine Arts, and Modern and Classical Languages and Literatures. Art History majors may minor in Music; English majors, in Communication and Media; and Economics majors, in Finance.
4. The GPA for courses in the minor must be 2.0 or greater. Departments may establish GPA requirements higher than 2.0; wherever this is the case, the specific requirements will be stated in the "department section" of the catalog.

## Criteria for Earning A Second Undergraduate Degree

Saint Peter's University will grant a second undergraduate degree, either a Bachelor's degree or an Associate's degree, upon fulfillment of the following conditions.

1. A minimum of 30 credits in the second major must be taken in courses at Saint Peter's University, none of which was applied towards the previous degree.
2. All current requirements of the core curriculum and the major program for the new degree must be fulfilled. Courses applied towards the core requirements for the previous degree may be utilized.
3. At least four upper-division courses in the new major must be taken at Saint Peter's University.
4. At least one academic year must have elapsed since the granting of the previous undergraduate degree.

As a consequence of the above rules, students pursuing a second Bachelor's degree must plan their course work so that these degrees are awarded in separate years. Any exceptions to this rule must be approved by the appropriate dean.

## Granting of Bachelor's Degrees to Holders of Professional Degrees

Students who left Saint Peter's University for study at a professional school before completing all of the requirements for a Bachelor's degree may request approval for receiving a Bachelor's degree from the University if they:

1. completed three years of work (90 credits) at Saint Peter's University;
2. were in good academic standing upon leaving Saint Peter's University;
3. subsequently earned a higher degree in an accredited graduate or professional school; and
4. are willing to have their work evaluated in light of the present course requirements of the University.

Candidates who apply for the granting of a degree under these conditions must apply to the appropriate dean who will determine whether the student meets the requirements, or if necessary, must take the courses needed to satisfy core requirements and/or bring the record up to 90 credits. If these conditions are met, the candidates should then have an official transcript from the professional school forwarded to the appropriate dean, file for graduation with the Registrar, and pay the graduation fee.

## Commencement

Students that graduated last December or expect to complete their remaining program requirements in May or August are eligible to participate in the University's annual Commencement exercises held at the close of the spring term. Effective Fall 2016, students who need no more than 6 credits remaining to complete degree requirements

may participate in the Commencement exercises provided they have pre-registered for the remaining coursework or completed a Commencement Contract with the appropriate Dean indicating the program requirements that are still outstanding for degree completion. Exceptions to the credit requirement will be permitted for students in the School of Education who need to complete student teaching in the Fall term. To qualify for Commencement Awards, all program requirements must be successfully completed in May or August. Candidates that apply for December and request participation in early Commencement will not be considered for awards.

Participation in the Commencement exercises is ceremonial and does not constitute degree conferral. After final grades are received and a final graduation verification is completed, diplomas will be mailed approximately one month after the ceremony to those who qualify. All obligations to the University, including financial, must be fulfilled before the diploma will be released. Students may only participate in one Commencement exercise. Degrees are awarded in May, August and December.

## **Advisement and Registration**

### **General Information**

Each student at Saint Peter's University is assigned an academic advisor who aids the student in planning an academic schedule. Online advisor's approval of courses is required before a student may register for any term. Registration dates for each term are published online in the Academic Calendar. Formal registration is not complete until the student's financial obligation has been satisfied.

### **Advisement for Traditional Day Students**

Through the University Advisement Program, freshmen are assigned advisors upon entering the University and should consult with them periodically during their first year of study. After their first year of study, when a student formally declares a major, he/she will be referred to the appropriate department for advisement. Students with multiple majors or minors will be assigned an advisor for each and must consult with all prior to registration for each term. (Even if first-year students declare a major, they continue to be advised by their freshman advisor through the spring term.)

### **Advisement for SPCS Students**

Adult students at both campuses of Saint Peter's University/SPCS division have advisors available to them throughout their academic career. The advisor's approval of courses is required before a student may register for any term. Registration dates for each term are listed in the annual Academic Calendar which appears in the course schedules published for each term. Students who register after the official registration periods noted in the Academic Calendar must pay a late registration fee.

### **Administrative Deregistration**

Students may be administratively deregistered from some or all of their courses if they fail to complete by published deadlines appropriate forms and processes required to properly register for courses, if they fail to complete by published deadlines all requested financial forms and arrangements with the University, if they lack appropriate course prerequisites, or if they fail to attend class.

### **Registration Between Schools**

SPCS students may not register for semester courses. Students in semester-based programs may not register for winter trimester courses. Traditional day students are not permitted to take more than two quad courses unless an exception is approved by the Dean. First year students are not allowed to register between schools.

## **Saint Peter's University Credit Hour Assignment Policy**

This Credit Hour Assignment Policy ensures that the number of credits awarded for the completion of each course taught at Saint Peter's University reflects United States Department of Education (USDOE), Middle States Commission on Higher Education (MSCHE) and New Jersey state requirements for classroom hours and recommended out of class course work.

The policy assures that measurable learning outcomes and credits awarded for the completion of programs that do not adhere to the standard definition of a "credit hour" (such as online, hybrid and internship courses, as well as

credits awarded through prior learning assessment) are consistent with those assigned to traditional face-to-face courses, considering course content and expected learning outcomes.

This policy applies to the assignment of credit hours to all current and new Saint Peter's University programs, undergraduate and graduate.

## **Definition of a Semester Credit Hour**

One semester credit shall be equal to not less than one hour (50 minutes) of classroom instruction plus two hours (120 minutes) of out of class course work over a span of no less than fifteen (15) weeks. Courses that meet on a TF course pattern (75 minutes) over a span of no less than fifteen (15) weeks meet this credit hour requirement.

## **Course Requirements**

Consistent with the definition of a semester credit hour policy, students in traditional lecture/discussion courses are expected to devote two hours outside the classroom on related course work, including study, preparation of written assignments and course-related projects. Instructors acquaint students with all course expectations at the beginning of each course with a detailed syllabus that follows a prescribed format to foster the attainment of measurable learning outcomes. Syllabi include all course requirements and policies in addition to sharing clear evaluation criteria.

For programs that do not adhere to the standard definition of a "credit hour" (such as online, hybrid and internship courses, including student teaching, and credits awarded through prior learning assessment), courses shall be consistent with those face-to-face offerings, with due consideration given to course content and measurable learning outcomes. In addition, syllabi include a clear set of course expectations, policies and evaluation criteria.

## **Ongoing Assessment of Semester Credits**

The number of credits assigned to each course shall be considered in course design and syllabi with expected student learning outcomes for each course meeting the semester hour standard. Consideration of assigned credits are part of the periodic review of syllabi by department chairs, regularly scheduled annual course assessments involving faculty and students, curriculum committee reviews, and formal program evaluations. The school deans collect and store syllabi each semester.

## **Review**

The Provost /Vice President for Academic Affairs, the school deans, and the chair of either the Curriculum Committee or the Committee on Graduate Programs will review all new programs, including those associated courses and credit hours assigned, before submission to and approval by the Faculty Senate. New courses or changes to existing courses may not be instituted without prior departmental approval and the approval of the appropriate school dean.

## **Student Status**

Students enrolled at the University are classified as follows:

### **Traditional Day Student Status**

Students enrolled in the traditional day fall and/or spring semesters. Full-time students are expected to enroll for a minimum of 12 credits per term.

### **SPCS Status**

Students enrolled on a quad basis, typically part-time. Full-time students are expected to enroll for a minimum of 12 credits per term.

### **Matriculated Students**

Students who have satisfied the entrance requirements and are following a prescribed program of studies towards a degree.

### **Non Matriculated Students**

Students who are not pursuing a degree at Saint Peter's University but who are admitted at the discretion of the University Registrar in certain circumstances to fulfill an academic need. Students may take no more than 12 credits before matriculating.

## Auditors

Students who have the permission of the appropriate dean and the instructor to attend the sessions of a particular course on a non-credit basis.

## Full-time Students

Students who carry a course load of 12-18 credits per semester or generally six credits per quad. Unless stated otherwise for particular courses of study, permission to take credits beyond these limits in a term must be obtained from the appropriate dean.

## Part-time Students

Students who carry a course load of fewer than 12 credits per semester or three credits per quad.

## Class Standing

A student's class standing is determined by the number of credits earned by the end of the academic year:

Class	Credits Earned
Freshman Status	Fewer Than 30 Credits Earned
Sophomore Status	30 Credits Earned
Junior Status	60 Credits Earned
Senior Status	90 Credits Earned

## Tutorials and Independent Studies

A tutorial or independent study is a course in which normally one student engages in study under the direction of a faculty member, with weekly meetings of at least one hour and fifteen minutes throughout the semester or one hour and fifty minutes each week of a trimester. The student must secure the permission of the instructor, who should not feel constrained to assume such extra work, and also obtain permission from the department chair and the dean. All tutorials and independent studies must be approved by the appropriate dean in advance of the term for which they are planned. Ordinarily, no faculty member may direct more than one tutorial or independent study each term, i.e., two in any academic year and one in the summer.

Tutorials and independent studies may be approved for: a.) students who desire special study in a specific area, which is not ordinarily covered in sufficient breadth and depth to suit their particular needs and interests; b.) students who because of legitimate academic or human problems (e.g., student teaching or illness) have been unable to take required courses when normally scheduled, and who for substantial reasons (e.g., course is no longer offered, course is irregularly offered and is not available during the appropriate year) will be unable to take such courses at any other regularly scheduled time. This category will not be construed as including students who, having legitimately been unable to take a regularly scheduled course, have subsequently neglected without good cause to take that course at one of its regularly scheduled times. Preference for a particular instructor or for a particular time is not to be considered good cause. Tutorials and independent studies are not available to students as a means of replacing a grade in a course previously taken. Tutorials and independent studies are available only to matriculated Saint Peter's University students and our graduates, and may be given only by Saint Peter's University faculty. Registration for a tutorial or independent study must be completed prior to the end of the appropriate add period.

## Adding/Drop Courses

Students may add or drop courses by obtaining online approval from their academic advisor. Once they are approved by their advisor, the student can add/drop with Student Planning.

## Adding Courses

Courses may be added only within the period of time stated in the Academic Calendar.

## Withdrawing from Courses

Students may withdraw from courses until the date published in the Academic Calendar. The advisor's signature is needed on the Course Withdrawal Request form. Unless the withdrawal is within the 100% refund period, all courses from which a student withdraws remain a part of the academic record. Withdrawal is not complete, and a grade of

WD is not assigned, until the Course Withdrawal Request form is filed. The designation WD is final and will be used in place of a grade. Students who stop attending class and neglect to file a Course Withdrawal Request form may be assigned a grade of FA. See the Tuition and Fees section for information regarding possible refunds related to course withdrawal.

## **Declaration of Major**

Students must formally declare an academic major by the time that they have completed 60 credits. Undeclared students who have completed 60 credits shall not be allowed to register for any courses at the University. An Academic Hold will be placed on the student's record, which can only be removed with permission of the appropriate dean and by completing a major declaration form.

## **Change of Major**

Students wishing to change their major field should complete a major declaration form and obtain the approval and signature of the chairperson of the new department and the appropriate dean. SPCS students should obtain the approval and signature of the Dean of SPCS.

## **Auditing of Courses**

Students may register for a course on an audit or a non-credit basis with permission of the appropriate dean. Students may not audit courses in accountancy, studio art, data processing, composition, language studies, or any subject which involves laboratory work, field work, or work of a similar nature. Auditors may not be admitted to closed courses, tutorials or independent studies. Auditors, with approval of the course instructor and permission of the dean, may change their status from audit to credit by the last date for adding courses specified in each term. A grade of "AU" is recorded for courses taken on an audit basis. No other grade is given.

## **Traditional Day Student Credit Loads**

In order to complete the Bachelor's degree in four years, students must complete 15 credits per semester of non-developmental courses.

## **First-Year Students**

First-year students in good academic standing generally take five courses (one of which is the Freshman Seminar) during the first semester and five courses during the second semester. A dean's approval is required for freshmen to take fewer than 15 or more than 17 credits in the fall or spring semester. Freshmen may not take evening courses. Credits taken during the Summer Academy are considered fall semester credits.

## **Sophomores, Juniors and Seniors**

Sophomores, juniors and seniors in good academic standing may enroll in up to 18 credits in a given term. Tuition for full-time students covers up to 18 credits. Students wishing to enroll in more than 18 credits, and pay the additional tuition charge, may do so if the following criteria are met.

- They have attained a cumulative grade point average of 3.0.
- They have their advisor's approval.
- The appropriate dean grants approval after careful assessment of the reasons for the additional credit load and the student's ability to successfully complete all courses.

## **Student on Academic Probation or Suspension**

See the Academic Standing section for credit load restrictions for students on academic probation or suspension.

## **Change of Campus**

Students attending one campus of the University may transfer to another campus by contacting the appropriate dean of the new campus.

## Traditional Day Students Enrolling in SPCS Courses

Traditional day students are expected to complete their degree requirements through courses offered during the day session. However, traditional day students may take courses in the School of Professional and Continuing Studies, consistent with the University policy on credit loads, provided they fulfill the following conditions:

- They will have earned 30 or more credits at the time the course commences;
- They secure the approval of the Center for Academic Success and Student Engagement;
- They will not have exceeded a total of six credits in the Academic year in SPCS courses (excluding Janmester courses) and no more than three credits in any given term; Exceptions may be granted by the Dean.
- Students with a GPA below 2.0 are not permitted to enroll in online courses.

## Traditional Day Student Policy on Summer Session Course Loads

Traditional day students may take no more than 12 credits in a given summer session and no more than six credits in any particular session, and no more than three credits in any session of three weeks or less.

## Traditional Day Student Policy on Courses Taken at Other Institutions

While a student is matriculated at Saint Peter's University, only under specific circumstances, can up to 18 credits for courses taken at another college, outside of the fall/spring regular academic year schedule, be transferred to Saint Peter's University to count as part of a student's graduation requirements. (The academic year restriction does not apply to courses taken through the Washington Internship Program or the Saint Peter's University Study Abroad Program.) Other credit load limits apply as well, and the last 30 credits of the degree must be completed at Saint Peter's University. Students also may not matriculate at Saint Peter's and another institution simultaneously during the same academic year.

The following describe the conditions under which matriculated students may transfer in credit for courses taken at an accredited college outside of the fall/spring regular academic year schedule.

1. Prior to registering for a course, a student must complete a request to take undergraduate courses at another institution form available from Enrollment Services. With the form, the student must supply the course description from the other college's catalog or webpage. The following individuals' signatures are also required on the form: appropriate dean, chairperson of the equivalent Saint Peter's department, and the chairperson of the student's major department. Note that these signatures do not constitute waivers for the residency requirement, 18-credit limit requirement, or other credit load limit requirements.
2. After the course is completed, a student must supply Enrollment Services with a transcript indicating a grade of C (2.0) or better.
3. The grade is recorded on the Saint Peter's transcript for information only and is not computed in the student's grade point average.

## Conditions of Non-Matriculation

Non-matriculated students (students who are not pursuing a degree at Saint Peter's University) may not take more than 12 hours of credit. If a non-matriculated student wishes to register for additional credits beyond 12 hours, that student must apply for matriculated status. Any request to continue as a non-matriculated student beyond 12 credits must be made in writing, with specific reasons cited, to the appropriate dean. Once matriculated into a degree program at the University, a student may not take courses as a non-matriculated student until he/she has graduated from the University. After a student has graduated, a student may return to the University as a non-matriculated student, but the credit hour limits apply. No courses taken after graduation as a non-matriculated student may be applied retroactively to any major, minor, or degree program.

## Class Attendance

The interaction in the classroom among students and faculty is a vital part of the learning experience. Students are required to attend classroom and laboratory sessions regularly and promptly. At the first class meeting of the term, the professor must indicate what relationship attendance has to the final grade. The responsibility for any work missed due to absence rests entirely with the student.

## **Absence from Class**

An occasional illness or other important personal matter may sometimes make class attendance impossible; however, it is up to the student to notify the instructor within 24 hours, and provide any required documentation within a reasonable amount of time. Whether the absence is excused or not is up to the instructor, and the responsibility for work missed rests entirely with the student.

Traditional day students who exceed absences totaling more than two times the number of lecture meetings per week may be given a failing grade if the student continues in the course past the withdrawal date. Students taking SPCS classes in eight-week sessions are permitted one absence per term. An absence is defined as missing one class meeting, or for hybrid and online courses, non-participation for a one-week period.

## **Absence from Laboratory**

All missed laboratory sessions must be made up.

## **Extended Absence**

Students who must be absent for extended periods (i.e., three or more consecutive classes for traditional day students or two classes for SPCS students) must notify the appropriate dean who will inform the faculty as a service to students. Traditional day students must notify the appropriate dean. Students attending evening classes in Jersey City must notify the office of the Director of the School of Professional and Continuing Studies (SPCS). Bergen County Campus students must notify the Director's office. Upon their return, written documentation from the appropriate source (e.g., hospital, doctor, government agency, etc.), along with the student's cover letter, must be delivered to the appropriate dean. Students must consult their professors about their status upon their return and should not presume their eligibility to continue courses.

## **Absence Due to Trips on Class Days**

Students seeking an excused absence from class due to their participation in a course-related or non-course-related University-sponsored trip must get permission from their instructor(s). Granting the excused absence is at the discretion of the instructor(s). If excused absences are not granted, a student may not be penalized for declining to participate in the course-related trip. If permission is not granted, and a student still decides to participate in the trip, the student is responsible for the consequences that action may have on his/her class attendance record and/or grade.

When seeking permission for these excused absences, students should supply instructors with a signed letter from the faculty (or staff) member leading the trip. The letter should indicate the student's name and describe the purpose of the trip.

## **Examinations**

Examinations are a partial but significant measure of a student's academic progress.

### **Class Examinations**

Class examinations are periodic examinations within a course, previously announced by the professor, and generally considered a determining factor in the final term grade.

### **Late Examinations**

Late examinations are conducted by an instructor for those students who have an excused absence for a missed class examination. It is the student's responsibility to make arrangements for a late examination with the professor.

### **Final Term Examinations**

Final term examinations are scheduled by the Registrar for every traditional day course. Any substitute procedure for a final examination must be authorized by an instructor's department chairperson and the appropriate dean. Final exams for SPCS courses may be given during the final week of classes and may or may not be given during the final meeting. Projects, papers or presentations may be assigned for SPCS courses in lieu of final examinations, as set forth in the course syllabus.

## Absence from Final Examinations

The final decision as to whether or not a student has an adequate reason for being absent from a final examination rests completely and exclusively with the professor. If the professor decides the reason is adequate, he/she will arrange for and conduct a late examination. Should the professor decide the student's reason is not adequate, the student receives a failing grade for the examination.

## Grading System and Procedures

Grades at Saint Peter's University are assigned on a numerical quality point basis, with a D as the minimum passing grade in each undergraduate subject. A student's final term grade in any course is assigned by the instructor on the basis of performance in all work throughout the entire period of the course, including class participation, recitations, readings, reports, quizzes, major tests, term papers, and final examinations. Final grades for a term cannot be altered later than six weeks after the start of the next term.

Grades should be interpreted as an index of achievement in a course according to the following scale:

Grade	Description
A	4.0 Outstanding
A-	3.7 Excellent
B+	3.3 Very Good
B	3.0 Good
B-	2.7 Above Average
C+	2.3 Average Satisfactory
C	2.0 Satisfactory
C-	1.7 Less than Satisfactory
D+	1.3 Poor but passing
D	1.0 Minimum for passing
F	0.0 Failure
FA	0.0 Student never attended or stopped attending course without formal withdrawal. The grade of FA is calculated into the GPA. *

\*Students who stop attending class meetings, or do not meet other stated attendance measures in a web-based course, will be given a Final Grade of FA: Failure Due to Non-Attendance. The student's Last Date of Attendance in the course will be used in determining if Federal Financial Aid must be returned. It is in the student's best interest to contact their Dean's Office if they cannot complete their courses. A grade of FA in an eligible course impacts the students Term and Cumulative GPA as indicated in the Grade Table. In cases where an FA is not appropriate, (i.e. failure due to violating the instructor's attendance policy), students will receive a grade of F - Failure.

Other symbols used in the official recording of grades include:

Symbol	Subject
AU	Course audited; no credit
IC	Incomplete in course requirements
IP	In Progress; course runs beyond the normal end of term
IT	Incomplete because of late submission of grade by instructor
P	Pass without a specific grade being given
TR	Credits Transferred
WD	Formal withdrawal from a course

## Pass/Fail Option

Any student, except those in their first semester with less than six earned credits, is allowed to register for one course per term on a Pass/Fail basis. **There is a limit of three Pass/Fail courses in any Bachelor's or Associate's degree program.** Completion of a course under this option results in either a P or F grade. Courses not available for this option are those in the major department, cognate courses required by the major, or courses given through the

Honors Program. Students may not take courses needed to satisfy matriculation requirements on a Pass/Fail basis. The Pass/Fail option is not available for basic courses in writing, composition, reading, or for any developmental courses. Permission to take any course under the Pass/Fail option must be approved by the student's advisor and the appropriate dean. A traditional day student who has completed at least one semester of courses at Saint Peter's University or an SPCS student who has earned at least six credits may register for one course each summer (including Intersession and the Janmester term) on a Pass/Fail basis.

Credit will be granted for a passing grade, but since there is no numerical equivalent, the grade is not included in the GPA. A failing grade will be recorded as F and will be computed in the student's cumulative average.

Appropriate forms for the option must be filed with Enrollment Services by the date noted in the Academic Calendar. Once students have filed for the Pass/Fail option and it has been recorded, they may not cancel the option.

## **Failures**

Students will receive a failing grade for a course whenever they have a final term grade below D, fail to complete the necessary course work in order to remove the grade of Incomplete (IC) from their record, or fail a course due to excessive absence.

## **Incomplete Grades**

If students believe that they have a legitimate reason for requesting time beyond the final examination to complete course work, they may request a grade of Incomplete (IC) from the instructor. If granted, students will have six weeks after the start of the next term or quad to complete the course work. SPCS students who receive IC's in the second spring session must complete the required work within six weeks of the start of the summer term. Traditional day students who receive an IC for any of the summer sessions will have six weeks after the start of the fall term to complete the necessary course work. At the end of the six weeks, the grade of IC will automatically change to an F unless the instructor has submitted another grade.

## **In Progress Grades**

For courses that run beyond the normal end of term, grades of In Progress (IP) may be assigned. Courses assigned an IP grade must have the course work completed by the end of the following term. If the course work is not completed, IP grades will become IC grades.

## **Change of Grade**

A change of grade can only be initiated by the instructor of a course who must submit a Change of Grade Request detailing the reason for the extension to the school dean for approval. Such changes are made in unusual circumstances only.

## **Resolution of Grade Disputes**

Students have the right to know the components of a course on which their final grade will be based, to be graded fairly, and to understand why they were given a particular grade. The instructor has the right to determine which course components will be graded and the weight that will be given to each, the right to determine the grading scale to be employed, and the responsibility to grade students consistently on that scale. The instructor is also expected to provide a syllabus for each course, specifying the assignments and examinations, and the weight given to each course component in determining the final grade. Finally, graded material should be returned to the student within a reasonable period of time; any material not returned must be retained by the instructor for one year.

Should students believe, in light of the above, that they have been graded unfairly, then the first step is to make an appointment with the instructor, bring copies of any papers and/or exams in question, and request that the instructor review the grade. This may be done until the sixth week of the term after the term in which the grade was issued. After that point, the grade becomes final.

If, after discussing the grade with the instructor, the student still believes that he/she was treated unfairly, then the next step is to seek the assistance of the chairperson of the department in which the course is offered to resolve the issue. Should the department chairperson be the instructor in question, then the appropriate dean is to appoint a member of that department to serve as mediator in the dispute.

If the above steps do not lead to resolution of the issue, the student may meet with the appropriate dean to discuss the issue further.

When the assistance of the chair or the appropriate dean is called upon, that office will act as a mediator and will be authorized to collect all materials (e.g. exams, papers, quizzes and any other evaluative materials), whether in the hands of the instructor or the student, relevant to the construction of the grade. The instructor must be prepared to show that the grade was constructed according to the criteria described in the syllabus.

## Cumulative Grade Point Average (GPA)

The grade point average is computed in the following manner:

1. Multiplying the grade in each course taken at Saint Peter's University by the number of credits assigned to the course;
2. Adding these products and dividing the total by the total number of credits attempted in all courses taken at Saint Peter's University.

Pass grades, credit by examination grades, and transfer grades are not utilized in computing the cumulative grade point average.

## Repeating a Course for a Higher Grade

Students may repeat any course for which they received a grade below a C, including grades of F or FA. All courses and grades remain on the transcript. Only the most recent grade will be included in the cumulative GPA and will apply towards degree completion. This option is open only to students who have not completed their degree requirements for Saint Peter's University. Tutorials and independent studies are not an option for repetition of a course and grade replacement.

## Transcripts

A transcript is an official record of courses taken, credits earned, and grades received. The Enrollment Services Center offers several options for former and current students to order and receive transcripts. In partnership with SCRIP-SAFE®, Saint Peter's is able to provide official transcripts delivered electronically through the SCRIP-SAFE server network. The cost of the transcript varies by the type of delivery service requested and is detailed on the ordering site. Online orders for same-day service must be received by 4:00 pm Monday through Friday to be processed the same day. No service is available on weekends or official University holidays as indicated on the Academic Calendar.

Unofficial transcripts are no longer provided by the Enrollment Services Center. Students with SPIRIT online access may view their unofficial transcripts online; students who do not have access to SPIRIT online must request an official transcript. No transcripts or certifications will be released to students who have unpaid financial obligations to the University.

## Students with Disabilities

Saint Peter's University is committed to providing students with disabilities educational opportunities free from discrimination. Eligible students will be afforded appropriate academic accommodations and/or housing accommodations on a case-by-case basis. Student, for the purpose of this policy, includes prospective students, full and part time undergraduate students, full and part time graduate students and doctoral candidates.

## Academic Accommodations

**Self-Disclosure:** Saint Peter's University is not responsible for identifying students with disabilities. In order to receive academic accommodations, students must self-identify and apply for academic accommodations as set forth in this policy. Students with disabilities seeking academic accommodations must self-identify to the University Disability Services Coordinator & Dean of Academic Engagement and Student Success. A student seeking academic accommodation must disclose information about the student's impairment in support of the request and so that a meeting and discussion regarding appropriate accommodations may occur.

**Application and Documentation:** Students seeking academic accommodations must fill out an Accommodation Request Form. Copies of the Accommodation Request Form are available in the Center for Academic Success and

Engagement which is located in the lower level of McDermott Hall or may be obtained online from the Students with Disability website.

Saint Peter's University recommends that the Accommodation Request Form be submitted at least three weeks prior to the start of the term. Students whose applications for academic accommodations are submitted after the start of the term will be processed as soon as possible.

In addition to the student's self-reporting of a disability, the student's health care provider or other qualified professional must submit a certification in support of the student's application. Students may also submit additional supporting documentation to support their requests, such as IEPs, Section 504 plans, or prior evaluations for consideration. Saint Peter's University recommends that the supporting documentation be no more than six years old.

**Confidentiality:** To the extent permitted by law, any information about students' disabilities or academic accommodations is kept confidential. If release of student records is not required by law, students may elect to file a FERPA Waiver Request with Enrollment Services Center.

Saint Peter's University will not release student information about students' disabilities to their professors, but may communicate with professors to confirm certain information relating to the approved accommodation (i.e. exam date/time) as set forth in this policy.

**Approval Process:** Academic accommodations must be approved by the University Disability Services Coordinator & Dean of Academic Engagement and Student Success. Students may deliver a completed Accommodation Request Form copies in person or by mail to the Center for Academic Success and Engagement to the University Disability Services Coordinator & Dean of Academic Engagement and Student Success, 2641 John F Kennedy Blvd, Jersey City, New Jersey, 07306.

Matriculated students may also submit applications or supporting documentation by email to accommodations@saintpeters.edu. Students electing to submit applications through email **must** use their Saint Peter's University email address.

Following the student's submission of the application and supporting documentation, a meeting between the student and the University Disability Services Coordinator & Dean of Academic Engagement and Student Success will be scheduled. The purpose of this meeting is to review the documentation submitted and discuss potential academic accommodations. To the extent practicable, these meetings will occur within the first two weeks of the term.

Accommodations will be assessed on a case-by-case basis depending on the student's individual needs, course selection, documentation, and any other information presented during the application process. Accommodations may include, but are not limited to, extended time to take examinations, alternative testing locations, alternative instructions (i.e. read aloud, different instructions), use of calculator, post-test reviews, and copies of materials or enlarged materials.

All academic accommodations must be approved by the University Disability Services Coordinator & Dean of Academic Engagement and Student Success. If the student is approved for academic accommodations, the student will be provided a Letter of Accommodation by the University Disability Services Coordinator & Dean of Academic Engagement and Student Success addressed to each professor for every class that the student is enrolled in and is approved for accommodations in.

**Communication with Professors:** The Center for Academic Success and Engagement and the University Disability Services Coordinator & Dean of Academic Engagement and Student Success will not forward copies of Letter(s) of Accommodations to approved students' professors.

Students who receive Letter(s) of Accommodations must provide a copy of those letters to their professors in order to receive the approved accommodations. Saint Peter's University recommends that students meet with their professors during office hours or during any other scheduled time to discuss the Letter of Accommodation.

**Examinations:** Students approved to take examinations in an alternative location must submit notice to the Center for Academic Success and Engagement as soon as possible of the examination's date and time, but at least 10 business days in advance of the scheduled examination. The Center for Academic Success and Engagement will contact the student's professor to confirm the date of the exam and to obtain testing documentation and resources.

Whenever possible, students will be notified by a staff member in the Center of Academic Success and Engagement regarding the location and time of the examination at least 48 hours in advance of the examination.

**Renewals of Accommodations:** Matriculated students must complete the Academic Accommodation Renewal Request and submit the form to the Center for Academic Success and Engagement. Saint Peter's University recommends that this application at least three weeks in advance of the start of the term. Supporting documentation must be presented with Academic Accommodation Renewal Request applications at least once a year. For example, if a student requests academic accommodations for the fall term, and provides documentation in support of that application, the student may, but is not required to submit additional supporting documentation for the spring and/or summer terms.

**Changes of Accommodations:** Students are urged to contact the Center for Academic Success and Engagement at any point during the term to discuss changes to approve accommodations or to request alternative accommodations. Changes to previously approved academic accommodations may require submission of additional supporting documentation.

## Academic Accommodation Grievance Process

**Denials:** Denials of academic accommodations must undergo an informal appeal process with the University Disability Services Coordinator & Dean of Academic Engagement and Student Success. Students will meet with the University Disability Services Coordinator & Dean of Academic Engagement and Student Success to discuss the accommodation denial. During this meeting the student may present additional supporting documentation to support the requested accommodation. Students will be notified of the outcome of the meeting within 10 business days of the meeting.

If the meeting with the University Disability Services Coordinator & Dean of Academic Engagement and Student Success does not resolve the dispute, a formal written Academic Accommodation Appeal may be filed with the Associate Vice President for Academic Affairs. Reasons for appeal may include, but are not limited to, failure to provide any accommodations based on the initial documentation, concerns that the accommodations are unaligned with the student's specific course load selected or changes to the courses selected or how access is impaired or lacking with your current accommodations. This must be submitted within 10 business days of the University Disability Services Coordinator & Dean of Academic Engagement and Student Success decision. Students must include their contact information, identification number, a summary of the dispute and requested outcome. The decision of the Associate Vice President for Academic Affairs is final.

**Lack of Implementation:** Students who provide their professor(s) with their Letter(s) of Accommodations and whose professor(s) fail to implement the approved accommodations should schedule a meeting with the University Disability Services Coordinator & Dean of Academic Engagement and Student Success as soon as possible after the accommodations is not implemented. University Disability Services Coordinator & Dean of Academic Engagement and Student Success will contact the professor(s) to reinforce that accommodations have been approved and must be implemented.

If the meeting with the University Disability Services Coordinator & Dean of Academic Engagement and Student Success does not resolve the dispute, a formal written Academic Accommodation Appeal may be filed with the Associate Vice President for Academic Affairs. This must be submitted within 10 business days of the meeting held with the University Disability Services Coordinator & Dean of Academic Engagement and Student Success decision.

Students must include their contact information, identification number, a summary of the dispute and requested outcome. The decision of the Associate Vice President for Academic Affairs is final.

## Official Written Communication to Students/Change of Address

It is each student's responsibility to inform the University of any changes in directory information. You can update your address and contact information on SpiritOnline. A student's lack of receipt of important notifications due to the student's failure to provide a correct, current address is not an acceptable reason for non-receipt of important notifications. Ensuring that a correct address is on file is entirely a student's responsibility.

## Official Email Communication to Students

The official, sanctioned method of email communication with students is through each student's account provided by the University. Students are expected to check their University email accounts regularly. A student's lack of receipt

of important notifications, due to the student's failure to use the email account provided by the University, is not an acceptable reason for non-receipt of important notifications.

## Change of Name

Students who wish to change their name on University records must complete an Official Name Change Request. Two forms of legal documentation must be submitted, e.g. a marriage certificate, divorce decree, court order indicating the change of name, SSN card or drivers license indicating the updated name.

## Academic Standing

The academic records of traditional day students are reviewed by the appropriate dean and the Committee on Academic Standing each semester. The records of students in SPCS are reviewed by the appropriate dean two times per year. As a result of this review, students will be placed, at the end of the spring term, in one of the following categories:

### Good Standing

First-year Saint Peter's students with a cumulative GPA at or above 1.8, and all other students at or above 2.0, are considered to be in good academic standing.

### Academic Probation

First-year Saint Peter's students with a cumulative GPA below 1.8, and all other students below 2.0, are provided a serious warning and are required to participate in the University's Academic Recovery Program. These students may be restricted from participating in certain co-curricular activities that require a significant investment of time and that may thus detract from a student's ability to improve academic standing. Such activities include but are not limited to intercollegiate athletics and leadership participation in student government or other campus organizations. Exception to these restrictions may be granted, where appropriate, by the appropriate dean.

### Academic Suspension

Students will be placed on Academic Suspension from their studies at the University by the appropriate dean at the end of the spring term if their cumulative GPA falls below the institutional requirements outlined below.

Attempted Credits	24-47	48-71	72-95	95+
Minimum cumulative GPA needed	1.5	1.8	1.9	2.0

Academic Suspension is an enforced termination of formal studies and normally will be granted only once to a student. Students on academic suspension, with the advice and permission of the appropriate dean, may be enrolled for a limited number of courses at another college during the period of their suspension. Successful completion of up to 12 college-level credits indicating a composite GPA at or above the minimum needed will be considered as a positive factor in reviewing a suspended student's application for reinstatement.

For further discussion of the details and implications of Academic Suspension on financial aid, see the section on Student Financial Aid.

### Financial Aid Suspension

It is possible for a student to be in good academic standing but be placed on Financial Aid Suspension if the student's completion rate does not meet the federal guidelines. See the Financial Aid section for more information.

### Academic Dismissal

If a student, after readmission from Academic Suspension, again becomes academically deficient, the student will be dismissed. Academic Dismissal is final and precludes the possibility of readmission to the University. The transcript will note that a student has been placed on Academic Probation, Academic Suspension, or Academic Dismissal.

### Readmission from Academic Suspension

Students on Academic Suspension may apply for readmission by writing a letter to the appropriate dean explaining the reasons for seeking readmission and describing the manner in which the period of suspension has been spent.

Traditional day students should address this request for readmission to the Dean of Upperclassmen who will present it to the Committee on Academic Standing. Students who wish to be readmitted to the SPCS should write to the appropriate dean who will arrange for an interview to discuss the request for readmission and plans for future study. Applications for readmission should be submitted at least one month before the start of the term for which enrollment is requested.

Students who attended as traditional day students but are requesting readmission to SPCS status (or vice-versa) should complete the Request to Change Status form which may be obtained from the appropriate dean of the school into which admission is requested.

## **Leave of Absence and/or Voluntary Withdrawal from the University**

Students in good academic standing sometimes find that they must interrupt college studies because of a family situation, a career change, or other personal reason. Students should discuss the situation with the appropriate dean who may suggest a leave of absence. In cases where a leave of absence is not possible, students should then observe procedures for voluntary withdrawal from the University.

### **Leave of Absence**

Students who are obliged to discontinue their studies temporarily should notify the appropriate dean and the Registrar immediately and file a form for leave of absence; and, if after the period for full or partial refund has passed, will be obligated for the full cost of the semester.

### **Voluntary Withdrawal**

Any student wishing to withdraw from the University while in good academic standing must secure a Withdrawal form from the Center for Academic Success and Student Engagement and obtain the specified signatures. The date of official withdrawal is the date when the document is received by the Registrar, unless an end-of-the-term withdrawal is requested. Tuition refund (if any) is based on this date. A notation of withdrawal is made on the student's transcript.

Students who stop attending the University during a term and do not comply with the procedures for voluntary withdrawal will receive failing grades in all courses for which they registered and will not be readmitted to the University without the permission of the appropriate dean.

## **Medical Leave of Absence Policy**

### **Purpose**

Saint Peter's University expects students to maintain continuous registration throughout their academic program. It is sometimes necessary for a student to take a leave from enrollment for a period of time. The policies and procedures described below establish a process for the medical leave of absence (medical withdrawal) of undergraduate or graduate student. The procedures herein provide guidance for the basis for a medical leave of absence, process for requesting a medical leave of absence, responsibilities of the student, and appeals process.

### **Basis for Medical Leave of Absence**

Saint Peter's University students who experience extraordinary cases in which serious illness, injury, psychological crises, or other significant medical related trauma that substantially impairs their ability to function successfully or safely as a student may be eligible for a medical leave of absence. It is expected that time away from the University will be used for treatment and recovery.

Absence(s) from class due to an illness or medically related issue(s) is not a medical leave of absence and does not reduce financial obligations or guarantee that final grades will not be recorded. Withdrawing from some or all classes for the semester does not constitute a medical leave of absence. A medical leave of absence determination will be based on an evaluation by the appropriate College/School Dean in conjunction with the Dean of Students.

A medical leave of absence is for a partial or complete withdrawal. All applications for partial or complete withdrawal require thorough and credible documentation from qualified medical professionals. Hand written doctor notes, prescription tabs, or other informal documentation will not be accepted.

A medical leave of absence request may be made at any time during the semester, but must be completed no later than the last day of classes in a semester. Requests not completed by the last day of classes (retroactive requests) will be considered late requests and will be considered for the following semester barring exceptional circumstances.

Students who are absent for one or more semesters before officially taking a medical leave of absence jeopardize their privilege to return without reapplication to the University.

Approval of a leave of absence request does not guarantee that a student will remain able to complete degree requirements within the timeframe associated with their accepted catalog year or as required by the academic college. Individual colleges may have additional stipulations. Students should review the appropriate school or college website and/or inquire with academic advising staff regarding the potential change in degree complete from a medical leave of absence.

A medical leave of absence is not intended to be a way of shielding a student from unsatisfactory progress or any other academic concern. A medical withdrawal will not be used when disciplinary or other academic responses are appropriate and the student's circumstances should be addressed through those responses.

A student on a medical leave of absence is not permitted to reside in Saint Peter's University owned or affiliated housing, attend classes, conduct research, maintain employment, participate in Student Life or other campus events, or utilize Saint Peter's University facilities.

## **Student Responsibilities**

Students have several responsibilities in the medical leave of absence process. Students are responsible for completing a written Request for Medical Leave of Absence Form along with appropriate documentation as outlined below in the 'Medical Leave of Absence Student Request Procedures' section.

Students are responsible for their financial obligations and loan repayments. This policy does not have any effect on the exemption of students from student loan repayments or other financial obligations. Before taking a medical leave of absence, a student should contact their lender regarding repayment obligations that may arise as a result of their medical leave. A student should also consult with a Financial Aid officer to discuss any impact the leave may have on financial aid and their tuition bill.

Students who are participating in an Intercollegiate Athletics program should contact Intercollegiate Athletics to discuss the implications for eligibility and other concerns related to a medical leave of absence.

International students with an F1/J1 visa should contact the Director of the Center for Global Learning to discuss the implications and impact on an immigration visa that may result from your medical withdrawal from the University.

## **Medical Leave of Absence Request Student Procedures**

Requests for medical leave of absence must be submitted by undergraduate or graduate degree candidates to the appropriate school or college dean. To request a medical leave of absence, you must submit a Request for Medical Leave of Absence Form along with appropriate documentation. Appropriate documentation for a medical leave of absence withdrawal consists of a letter from your attending health care provider on letterhead that specifies the following:

- the date of onset of illness,
- the dates you were under professional care,
- the general nature of your medical condition and why/how it prevented you from completing course work,
- the date of your anticipated return to school, and
- the last date you were able to attend class.

Additional documentation may be requested should it be determined by the appropriate school dean, or the Dean of Students. The letter must be typed on the health care provider's letterhead stationery and submitted in a sealed envelope.

## **Medical Leave of Absence Effective Dates**

A medical withdrawal, if approved, is effective on the day a signed and fully completed request is received in the appropriate school dean office.

## **Tuition, Fees, and Refund Schedule**

Approval of a medical withdrawal does not exempt students from their financial obligations. Tuition is adjusted in accordance with the University's refund schedule, which is published by the Office of Student Accounts and is

available at [www.saintpeters.edu/refund](http://www.saintpeters.edu/refund) (<http://www.saintpeters.edu/refund/>). Fees are non-refundable after the last day do drop tuition at a hundred percent.

## Parental Notification

The University reserves the right to notify a parent or guardian if deemed appropriate under the circumstances and applicable laws, including making arrangements for the family member to pick up the student from the University's premises.

## Privacy of Information Regarding Medical Leave

The University will maintain the privacy of information regarding voluntary and involuntary leaves in accordance with federal, state, and local law, and to the greatest extent consistent with the goal of processing such leaves.

## Process for Appeal of Decision

Students may be eligible to appeal a determination of ineligibility for a medical leave of absence after a decision has been made in writing by the appropriate dean. Students who fail to complete the requirements or deadlines will be ineligible for an appeal. A student may request an appeal to the Vice President of Academic Affairs/Provost or designee within five business days of the receipt of the decision. The Vice President of Academic Affairs/Provost or designee will review of the decision. Appeals submitted after five business days will not be considered however; the Vice President of Academic Affairs/Provost or designee may accept late supporting documentation (medical records, documentation from qualified medical professionals, etc.). Such request should be made in writing at the time of the appeal.

The appeal should include detailed support for the request to modify the original decision. The Vice President of Academic Affairs/Provost or designee will review the student's appeal and may affirm, overturn or modify the decision within ten working days from the date of receipt of request for review or an agreed extended time. The Vice President of Academic Affairs/Provost or designee can meet with the student if needed or can consult with anyone that he or she determines is reasonable in order to review the appeal. The decision will be communicated to the student in writing and shall be considered final.

## Return Procedure

Traditional day students who have been away from the University may resume studies by conferring with the Center for Academic Success and Student Engagement who will oversee the procedures for updating their status. SPCS students who have been away for two terms must see the director who will assist them with procedures for readmission to the University.

## The Student-University Contract: Principles of Student Conduct

### Statement of Purpose

As a Catholic and Jesuit University, Saint Peter's stands for the human dignity and worth of every person, and is dedicated to pursuing truth, discovering and transmitting knowledge, promoting a life of faith, and developing leadership expressed in service to others. The University's educational mission reflects a commitment to intellectual rigor, social justice, and an active engagement of contemporary issues. Saint Peter's believes, therefore, in values that foster the human respect needed for people to live, work, study and recreate together as a community. Living these values requires each of us to make an effort towards building a campus community that will be known for love of truth, active care, concern for the common good, and selfless sacrifice towards others.

The Division of Student Affairs implements the University's mission by sponsoring programs, services and activities that encourage students to develop academically, spiritually, socially, physically, and personally. In partnership with students, faculty, and staff, the offices that comprise the Division of Student Affairs help to create an educational climate consistent with principles rooted in its Jesuit, Catholic tradition. Saint Peter's University takes seriously its academic mission of fostering the creative intellectual potential of each of its students. In order to maintain an atmosphere that nurtures this potential, Saint Peter's University has established rules of conduct consistent with this goal and with the University's philosophy as a Catholic institution. By accepting admission to the University, students are expected to abide by the general conditions for community living and the **Code of Conduct**. Working together as a community, students, faculty, and staff help foster a campus atmosphere that furthers the mission of the University. Students are expected to enhance the University Community Standards. This expectation calls for behavior that

demonstrates the five principles of student conduct: respect for oneself, respect for others, respect for property, respect for authority, and honesty.

## **Student Code of Conduct**

The Student Code of Conduct can be found in the Student Handbook, which is available in the Office of the Dean of Students and on the University website. The Handbook also includes additional information on topics such as emergency administrative action, judicial procedures and hearings, and judicial sanctions.

## **Standards of Classroom Behavior**

The primary responsibility for managing the classroom environment rests with the faculty. Students who engage in any prohibited or unlawful acts that result in disruption of a class may be directed by the instructor to leave the class for the remainder of the class period. Longer suspensions from a class or dismissal on disciplinary grounds must be preceded by the instructor filing a formal Complaint Against a Student form with the Dean of Students, who will then convene a judicial hearing, as set forth in the Student Handbook.

The term "prohibited or unlawful acts" includes behavior prohibited by the instructor including, but not limited to:

1. The use of cell phones.
2. Leaving to answer cell phones.
3. Eating or drinking in the classroom.
4. Speaking without being recognized or called on.
5. Refusing to be seated
6. Disrupting the class by leaving and entering the room without authorization.

It must be emphasized that these standards are not designed to be used as a means to punish classroom dissent. The expression of disagreement with the instructor or classmates in a civil manner is not in itself disruptive behavior.

## **Academic Dishonesty**

The University, as a matter of policy, does not condone or tolerate academic dishonesty, such as cheating or plagiarism. Students who cheat or submit plagiarized work are liable to receive a failing grade for the assignment and/or the course at the discretion of the instructor. In more serious cases, the student who cheats or plagiarizes is liable to be suspended or dismissed from the University by the appropriate dean. Instructors submit Academic Dishonesty Reports to the appropriate dean and these reports are included in students' permanent files.

Cheating is a serious form of dishonesty. It may be defined as the giving or accepting of unauthorized assistance with any assignment (including, but not restricted to, examinations and papers). The most common examples would be: copying an answer on an examination; knowingly allowing your answer to be copied (except when collaboration is authorized by the instructor); bringing unauthorized aids to an examination room for your own or someone else's benefit, and providing test questions in advance (or receiving them from anyone other than the instructor in the course).

Plagiarism is another serious form of dishonesty. It may be defined as stealing or purchasing the ideas and writings of another and using them as one's own. The most common form of plagiarism is the incorporation of whole sentences and paragraphs from published material into papers submitted as one's own work or purchasing term papers and/or related materials and submitting them as one's own work. The forms of plagiarism are many and varied, and it is not the intent of this policy statement, therefore, to give a complete catalog. Plagiarism is rarely the result of confusion or misunderstanding. If one conscientiously acknowledges the sources of one's ideas and citations, plagiarism is effectively avoided. In cases of doubt, students should consult their instructors.

## **Computer Usage and Piracy**

Information on computer usage and piracy can be found in the Student Handbook, which is available in the Office of the Dean of Students and on the University website.

## **Grievance Procedures**

Saint Peter's University, through its Faculty Senate, has codified and established procedures for resolving student grievances that are not resolvable through normal departmental and/or divisional channels. (Such grievances DO NOT include violations of the Student Code of Conduct, which are adjudicated by the Dean of Students through

student judicial hearings.) These procedures are too lengthy to be enumerated here. For further information, contact the offices of the appropriate dean, Student Life and Development, or Human Resources.

## Disclosure of Information

Disclosure of information is required by various laws and regulations, including the Family Educational Rights and Privacy Act (FERPA), the Equity in Athletics Disclosure Act, the Drug-Free School and Communities Act, and the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

In accordance with these laws and regulations, Saint Peter's University makes available to prospective students, current students, and employees the following information: the Annual Campus Security Report; drug and alcohol prevention information; athletic program participation rates and financial support; information regarding all federal, state, local, private, and institutional financial assistance available to students; institutional information regarding costs, refunds, withdrawal requirements, and requirements for return of Title IV funds; information regarding accreditations held, disability services, employees available for assistance, and study abroad program information; graduation and transfer rates; and student rights under the Family Education Rights and Privacy Act. Instructions regarding how to obtain all of this information can be found on the University's website.

## Immunization Requirements

**Measles, Mumps, and Rubella Regulations and Requirement.** New Jersey State Law (N.J.A.C. 8:57:6.1.13) requires all college entrants to submit documented proof of immunization against Measles, Mumps and Rubella prior to registration. The requirements are as follows.

- Two doses of a live Measles or Measles containing vaccine
- One dose each of a Mumps and Rubella vaccine

OR

- Two doses of the combination vaccine Measles, Mumps, Rubella (MMR)

OR

- Blood test (titer) to verify immunity to Measles, Mumps and Rubella

*The first dose of the vaccine must be no sooner than four days prior to the first birthday, and the second dose no less than one month later. If no childhood record is available, a student must then be vaccinated. The first and second dose are given one month apart.*

**Hepatitis B Regulations and Requirements.** New Jersey State Law (N.J.A.C.8:57:6.9) requires all full-time college entrants to submit documented proof of immunization against Hepatitis B. The requirements are as follows.

- Three doses of a Hepatitis B containing vaccine, or alternately any two doses of a Hepatitis B vaccine licensed and approved for a two dose regimen administered to the student between 11 through 15 years of age.

OR

- Blood test (titer) to verify immunity to Hepatitis B. Lab results are required.

**Meningitis Regulations and Requirements.** New Jersey State Law A1546 requires all college entrants who reside in a campus residence facilities must receive a Meningococcal vaccine as a condition of attendance.

## Immunization Exemption

According to the laws of New Jersey, a student may receive an exemption for Measles, Mumps, and Rubella ONLY if he/she satisfies any of the following criteria.

1. Age - A student must have been born on or before January 1, 1957. A photocopy of the student's birth certificate, driver's license, or passport is required.
2. Religious – A student must provide a written statement explaining how these immunizations conflict with the student's bona fide religious tenets or practices. Philosophical or moral objections are not sufficient.

3. Medical – A student must provide a physician's written statement explaining the exemption and including a diagnosis.

## Insurance

**The State of New Jersey requires all full-time students to carry accident and sickness insurance.** Full-time students are automatically enrolled in the University's Group Student Accident and Sickness (Health) Insurance Program. The Accident Insurance policy, which is mandatory, covers students, on or off campus, 24/7 for the entire year, including vacation periods. Full-time students are required to maintain a Sickness (Health) Insurance plan **or present evidence that they are covered under another plan.** Such evidence must be submitted to the Enrollment Services Center (McDermott Hall) in the form of a **Student Insurance Waiver Card** in accordance with the deadlines prescribed in the University's Group Student Accident and Sickness Insurance Program brochure. Brochures are mailed directly to all full-time students' homes during the summer months, and are also available in the offices of Student Affairs and Health Services and the Enrollment Services Center. **Claim forms** may be picked up at the Health Services Office (Saint Peter Hall) or downloaded from the Health Services webpage.

## Notification of Rights Under FERPA for All Students

The *Family Educational Rights and Privacy Act (FERPA)* affords students certain rights with respect to their education records. These rights include:

- 1.) The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. A student should submit a written request that identifies the record(s) the student wishes to inspect to the University Registrar. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Registrar, s/he shall advise the student of the correct official to whom the request should be addressed.
- 2.) The right to request the amendment of the student's education records that the student believes to be inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. A student who wishes to ask the University to amend a record should write the University official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- 3.) The right to provide written consent before the University discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent. The University discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University.
- 4.) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

### Family Policy Compliance Office

#### U.S. Department of Education

400 Maryland Avenue, SW Washington, DC 20202#5901

### FERPA Waiver Request

## FERPA Waiver

Students who wish to authorize release of their academic information to parents, guardians, spouses or any other individual may do so by submitting a *FERPA Waiver Request* to the Enrollment Services Center. Once recorded, the student will be able to issue authorization on *Spirit Online*. By signing a *FERPA Waiver Request*, the student is waiving his/her rights under the *Family Educational Rights and Privacy Act* and is asking that grades, grade point averages, course schedules, or academic standing be released to the named person(s) indicated on the *Waiver*. The requested information will be released to the named person(s) via *Spirit Online*, once the system has been updated; in person with photo identification; or by mail when the named person makes a written request for the information. \*\*

\*\*Please note that absolutely no Non-Directory Information relating to academic status (e.g., grades and/or grade point average) will be released by telephone or email whether or not a *Waiver* is submitted. Also, the submission of a *Waiver* does not include the release of any student passwords.

## Financial Aid

FERPA provides an exception regarding the release of education records information without the consent of the student when the release is related to financial aid. The disclosure is permitted if the information is necessary to determine eligibility for the aid; determine the amount of aid; determine the conditions for the aid; and/or enforce the terms and conditions of the aid.

### Release of Information Via Telephone

Although FERPA does not preclude an institution from disclosing Non-Directory Information via telephone to the student or a *FERPA Waiver* contact, it is the University's policy that no Non-Directory Information relating to academic status (e.g., grades and/or grade point average) will be released by telephone, whether or not a *Waiver* is submitted. Billing information, including tuition and fee charges, outstanding balances, and financial aid information, will be communicated via telephone providing the student or *Waiver* contact can correctly answer personally identifiable questions that only the student or *Waiver* contact would be able to answer. These questions may include, but are not limited to, Saint Peter's Student Identification Number (*Spirit Number*), permanent address on file, high school or previous institutions attended, and currently enrolled courses.

## Statement Regarding Dependent Students

Institutions are not required to disclose information from the student's education records to a parent of a dependent student. Saint Peter's University does not accept proof of dependency status in lieu of a *FERPA Waiver Request*.

## School Officials

School officials with a legitimate educational interest may access student education records with the scope of performing their job duties. A school official is deemed to have legitimate educational interest if the information requested is necessary for that official to:

(a) perform appropriate tasks that are specified in his/her position description or by contract agreement; (b) perform a task related to a student's education; (c) perform a task related to the discipline of a student; (d) provide a service of benefit relating to the student or student's family.

Disclosure to a school official having a legitimate educational interest does not constitute authorization to share that information with a third party without written consent.

## Statement Regarding Transfer of Education Records

Saint Peter's University does not release education records to any external third-party without a signed request.

## Campus Security/Police Records and Disciplinary Records

In order to remain exempt from FERPA, law enforcement and disciplinary records are therefore created by the University's law enforcement unit and/or Dean of Student's Office, for law enforcement or disciplinary purposes, and are maintained separately from education records.

## Retention of Academic Documents

Saint Peter's University does not re-release official copies of documents submitted for admission, scholarship application, or any other academic reason. This includes, but is not limited to, high school and non-Saint Peter's

University transcripts. A student may request copies of materials in the academic file; the copies provided will bear a "FILE COPY" watermark. The student's signature is required to release copies of any documents from the academic file. Saint Peter's University follows the *American Association of Collegiate Registrars and Admissions Officers* (AACRAO) guidelines for retention and disposal of student records: materials in academic files are destroyed following five years of non-attendance for any reason. The complete policy is available in the Enrollment Services Center.

## Release of Information Under Special Circumstances

Records may be released to parents without a signed *FERPA Waiver Request* under certain exceptions. These include health or safety emergency; or where the student has been found in violation of the University's code of conduct relating to the use of alcohol and/or another controlled substance if the student is under the age of 21.

## Student's Right to Non-Disclosure of Directory Information

FERPA requires Institutions to give public notice to students in attendance of the categories of personally identifiable information which the institution has designated as Directory Information. Institutions may disclose Directory Information about former students without meeting the notification requirement; however, if a student has requested, at his or her last opportunity as a student, that Directory Information not be disclosed, the institution must continue to honor that request until informed to the contrary by the former student. If requested to withhold Directory Information by a student after he or she has left the institution, the institution may, but is not required to, comply with the request.

## Information Which May be Designated as Directory Information

Saint Peter's University hereby designates the following information as public or "Directory Information." Such information may be disclosed without a student's previous consent by the University for any purpose, at its discretion:

- Student Name(s) and Spirit Number
- Address Information (local, permanent, and email)\*
- Telephone number (local and permanent)
- Date and place of birth
- Program major(s)/concentration(s), and minor(s)
- Student activities including athletics
- Dates of attendance
- Date of graduation, degrees sought/conferred, and other academic awards
- Most recent previous school attended and/or high school
- Academic awards and scholarships, including Dean's List
- Full or Part-time status

\* Address information is not provided without a written request indicating the reason for the information.

As of January 3, 2012, the U.S. Department of Education's FERPA regulations expand the circumstances under which your education records and Personally Identifiable Information (PII) contained in such records — including your Social Security Number, grades, or other private information — may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities (Federal and State Authorities) may allow access to your records and PII without your consent to any third-party designated by a Federal or State Authority to evaluate a federal or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education," such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

## Procedure to Withhold Directory Information

Saint Peter's University will not partially withhold Directory Information, so students are advised to think carefully before withholding disclosure as this may prevent third-parties from obtaining critical information in a timely manner, including degree conferral and enrollment verification. To withhold disclosure of Directory Information, written notification must be provided. Saint Peter's University assumes that failure on the part of any student to specifically request the withholding of Directory Information indicates individual approval for disclosures. If students wish to restrict the release of Directory Information, they should contact the University Registrar, who will explain the ramifications and provide a statement for the student to sign as indication they do not want Directory Information released.

## Policy Notification

At the beginning of each fall and spring semester, every student enrolled at Saint Peter's University receives an email from the Registrar containing an updated FERPA policy for the current academic year. The policy also appears in academic catalogs, and printed copies are available in the Enrollment Services Center.

## Traditional Day Departments and Programs

### Departments, Programs, and Courses of Instruction

Each department or program offering a field of major concentration has listed its requirements and recommendations under department listings in this catalog. Students will be held responsible for observing these directives to the satisfaction of the department or program which administers the major course of study.

Students should check the Registration Schedules for the courses offered each term. Not all courses listed in this catalog are given every term or every year. Some courses are given every other year. The University reserves the right to cancel courses for which there are insufficient enrollments.

### Course Numbering System

Each course number normally designates a course for a single term.

Classification	Type of Course
001-099	developmental courses, including courses for non-effective credit such as MA-001 Introductory Algebra
100-150	required core courses, including freshman and sophomore HP seminars which replace certain required core courses
151-199	other introductory level courses such as Drawing and Painting Workshops
200-499	upper-division courses which may have prerequisites determined by content or maturity of attitude
500-600	graduate courses
Special Course Designations, as follows:	
295	Cooperative Education courses arranged by the Center for Experiential Learning and Career Centers
390-398	Research Projects, etc. (courses involving 1:1 student/faculty ratio)
490-499	Seminars for groups of students, including HP Junior and Senior elective seminars and departments internships

### Course Credits

Unless otherwise indicated in the description for each course, courses offered by the University are three-credit courses.

### Prerequisites

A prerequisite is a course or its equivalent that normally must be taken and passed before admission to a given course can be approved.

### Subject Symbols

The following abbreviations are used throughout the catalog to indicate the various subjects:

Symbol	Subject
AB	Arabic
AC	Accountancy
AF	Africana Studies
AR	Fine Arts
AT	Anthropology
BA	Business Administration
BC	Biochemistry
BI	Biology

BL	Business Law
BT	Biotechnology
CC	Classical Civilization
CH	Chemistry
CJ	Criminal Justice
CM	Composition
CN	Chinese
CO	Consumer Science
CS	Computer Science
CU	Communication

EA	English Acquisition
EC	Economics
ED	Education
EE	Elementary Education
EL	English
ES	Environmental Science
EX	Exercise Science
EV	Environmental Studies
FN	Finance
FR	French
GK	Greek
GM	German
GS	Gender and Sexuality
HC	Health Care (Science-based)
HE	Health Education
HP	Honors Program
HS	History
IS	Information Science
IT	Italian
JN	Journalism
JP	Japanese
LA	Latin
LS	Latin American & Latino Studies
LW	Law
MA	Mathematics

# College of Arts and Sciences

Dr. WeiDong Zhu, *Dean*

Founded in 1872, the College of Arts and Sciences is the oldest college at Saint Peter's. The University's broad **core curriculum** is housed here and it thoroughly prepares students to critically address issues that are fundamental to a humane education. Students learn to intellectually appreciate diverse perspectives and ideas, to be conscious of social and moral obligations, and to respect the traditions of Jesuit education. The College's more than 50 undergraduate majors, minors, special programs, as well as its articulation programs and graduate programs are designed to further develop ethically minded students to become rigorous and critical thinkers, lifetime learners and strong leaders in today's diverse and global society.

## Undergraduate Major Programs\*

- Anthropology (B.A.)
- Art History (B.A.)
- Asian and Asian-American Studies
- Biochemistry (B.S.)
- Biology (B.S. and B.A.) – B.S. with a concentration in Forensic Science
- Biotechnology (B.S.)
- Chemistry (B.S. and B.A.) – B.S. with a concentration in Forensic Science
- Classical Languages and Literatures (B.A.)
- Classical Civilization (B.A.)
- Communication (B.A.)
- Criminal Justice (B.A.) – with concentrations in Law and Justice, Corrections, Police Administration, Investigative Sciences and Profiling, Criminal Research and Intelligence Analysis, Cyber Security and Computer Forensics, and Foundations of Law
- English Literature (B.A.)
- Environmental Studies (B.A.)
- Fine Arts (B.A.)
- Graphic Arts (B.A.) – a concentration in Photography is also available
- History (B.A.)
- Latin American and Latino Studies (B.A.)
- Mathematics (B.S. and B.A.) – B.A. with concentrations in Elementary Education, and in Secondary Education
- Medicinal Chemistry (B.S.)
- Modern Languages (B.A.) – with concentrations in Italian and/or French
- Natural Science (B.S.)
- Philosophy (B.A.) – with concentrations in Ethical Leadership and Ethics and Moral Philosophy
- Physics (B.S.)
- Political Science (B.A.)
- Psychology (B.S.) – with concentrations in Clinical, Industrial-Organizational, and Forensic Psychology

- Sociology (B.A.)
- Spanish (B.A.)
- Theology (B.A.)
- Urban Studies (B.A.)
- Visual Arts (B.A.)

\* Almost all major programs offer a minor with a credit requirement ranging from 18 to 20 credits.

#### Undergraduate Minor Programs (self-standing)

- Africana Studies
- French
- Gender and Sexuality Studies
- Italian
- Journalism
- Music
- Social Justice
- Theater Arts

#### Collaborative/Articulation Programs

- Pre-Med/Pre-Dental Program (with Rutgers University)
- Pre-Pharmacy Program (with Rutgers University)
- Pre-Physician Assistant Program (with Rutgers University)
- Pre-Physical Therapy Program (with Rutgers University)
- Clinical Laboratory Sciences (with Rutgers University)
- Dual Bachelor's degree in Physics and Electrical Engineering (with New Jersey Institute of Technology)
- Joint B.S./M.S. Program in Physics/Engineering Physics (with Stevens Institute of Technology)
- Joint B.A./J.D. Program (with Seton Hall University)

#### Graduate Programs

- Communication and Public Relations (M.A.)
- Industrial-Organizational Psychology (M.S. and M.A.)
- Public Administration (M.A.)

\* Accelerated graduate programs are available for high achieving undergraduate students.

## Africana Studies Program

Dr. David S. Surrey, *Program Director*

The Africana Studies Program offers a minor in Africana Studies that includes both Africana Studies courses and courses from Business Administration, Education, Economics, Fine Arts, History, Latin American/Latino Studies, Political Science, Sociology, Theology and Urban Studies to provide students with a foundation for understanding the historical underpinnings of current events involving people of African ancestry.

### Requirements for a Minor in Africana Studies

AS-177	Introduction to Africana Studies	3
AS-343	Black Theology	3
Select 4 of the following:		12
LS-101	Introduction to Latin American and Latino Studies	
SJ-130	Introduction to Nonviolence

## American Studies Program

James P. Jacobson, *Coordinator*

The American Studies Program offers an interdisciplinary approach to the study of the history, culture and society of the United States. It provides students with the opportunity to develop an integrated understanding of American society by transcending the boundaries of traditional disciplines. Students may major in American Studies or choose a Composite Major with an individualized area of concentration such as: The American City, The American Family, American Public Policy, Politics in America, Race and Ethnicity in America, Visual, Literary and/or Performance Cultures, Criminal Justice in America, American Government, Women in America and Minority Groups in America. Areas of concentration may be highly individualized, depending on the student's intellectual focus, prior preparation and the availability of courses.

### Requirements for American Studies Major

#### Degree of Bachelor of Arts

HS-341	American Main Currents I	3
HS-342	Main Currents in American History II	3
Select two of the following in American Literature:		6
EL-353	The American Short Story	
EL-356	Modern American Poetry	
Interdisciplinary Electives (one course from five of the following groups)		15
AM-XXX	Capstone Course	3
Total Credits		30

#### Interdisciplinary Electives

Select one course from five of the following groups.

##### Group 1

AR-214	Art Advertising and Design	3
AR-240	Cultural Diversity in Art	3
AR-250	Live Performance Art	3
AR-340	The Visual Arts in America	3
AR-420	New York Theatre Live	3
AR-293	Today's Film Scene	3

##### Group 2

CJ-165	Introduction to Criminology	3
CJ-170	Introduction to Criminal Justice	3
CJ-175	Introduction to Law Enforcement	3
CJ-210	Multiculturalism in Justice	3
CJ-222	Family Law	3
CJ-240	Gangs and Organized Crime	3
CJ-253	Social Deviance	3
CJ-258	Criminal Justice Ethics (Values course)	3

<sup>1</sup> May count towards the Core Theology Requirement.

<sup>2</sup> May count towards the Core Social Science Requirement.

**Special Notes on Major Requirements**

- <sup>1</sup> All American studies majors must enroll in the capstone course during their senior year.
- <sup>2</sup> For Elementary Education majors who have chosen American Studies as their second major, the capstone project is to develop a two week unit of study on an aspect of American studies that they will teach during their student teaching assignment.

## Department of Applied Science and Technology

Dr. Leonard Sciorra, *Interim Chairperson*

The Department of Applied Science and Technology houses a minor in Physics and majors in Biochemistry, Biotechnology, and Physics. The Department also houses a number of combined or joint degree programs through articulation agreements with other area colleges, universities, medical/dental schools and hospitals. Detailed information about both admission and degree requirements for these programs can be found in the separate section for each program.

### Majors

#### Degree of Bachelor of Science

Biochemistry  
Biotechnology  
Physics

### Minors

Physics

### Engineering Program

Electrical Engineering (joint degree, see the Physics Program)

## Asian and Asian-American Studies

Mark Destephano, Ph.D., *Director*

The program offers a major and minor in Asian Studies consisting of courses that are selected from throughout the University curriculum and that deal entirely or in more than half of their content with Asian and/or the Asian-American Diaspora. Experience abroad through participation in study abroad, a University travel course, or other credit-bearing experiences is not required but is strongly recommended.

### Requirements for the Asian Studies Major

#### Degree of Bachelor of Arts

Six of the required credits for the major count towards the Core Curriculum Requirements.

AN-100	Introduction to Asian Studies	3
Take the following four course sequences: <sup>1, 2</sup>		12
Chinese		
AN-113	Elementary Mandarin Chinese I	
AN-114	Elementary Mandarin Chinese II	
Japanese		
AN-130	Elementary Japanese I	
AN-131	Elementary Japanese II	
AN-134	Intermediate Japanese I	
AN-135	Intermediate Japanese II	
Select six Asian Studies Courses		18
Total Credits		33

<sup>1</sup> Students who initially place above the introductory level should choose consult the Program Director to choose four suitable language courses.

<sup>2</sup> The first two courses in the sequence fulfill the Core Language Requirement.

### Requirements for the Asian Studies Minor

AN-100	Introduction to Asian Studies	3
Select one of the following two course sequences: <sup>1</sup>		6
Chinese		
AN-113	Elementary Mandarin Chinese I	
AN-114	Elementary Mandarin Chinese II	
Japanese		
AN-130	Elementary Japanese I	
AN-131	Elementary Japanese II	
Select three Asian Studies Courses		9
Total Credits		18

<sup>1</sup> Students who initially place above the introductory language level should choose consult the Program Director to choose suitable language courses.

# Biochemistry Program

Leonard Sciorra, Ph.D., *Coordinator*

The Biochemistry Program is housed within the Department of Applied Science and Technology. The Department offers a major in Biochemistry in collaboration with the Biology and Chemistry Departments.

## Requirements for Biochemistry Major

### Degree of Bachelor of Science

Twelve of the required credits for the major count towards the Core Curriculum Requirements.

BI-183	General Biology I <sup>1</sup>	3
BI-185	General Biology I Lab	1
BI-184	General Biology II <sup>1</sup>	3

### Special Note on Core Curriculum Requirements for all Biology Majors—All Concentrations

While CH-251-CH-252, Organic Chemistry I and II and the associated labs CH-251L and CH-252L, are not required for Biology (Biology Concentration) majors, these courses are strongly recommended since they are required for many post-graduate programs (health careers and/or graduate school).

### Requirements for a Minor in Biology

BI-183	General Biology I	3
BI-185	General Biology I Lab	1
BI-184	General Biology II	3
BI-186	General Biology II Lab	1

BI-240 & 240L	Cell and Molecular Biology and Cell and Molecular Biology Lab	
BI-350 & 350L	Genetics and Genetics Lab	
BI-310 & 310L	Ecology and Ecology Lab	
BI-	Biology Electives	4
Total Credits		20

### Articulations with Professional Schools

Saint Peter's University has entered into a series of formal agreements with several Professional Schools to enhance the opportunities of students majoring in the sciences. See the separate listing for Pre-Professional Programs for details.

### Core Courses Offered for Non-science Majors

The 100-level courses are offered for non-science majors to satisfy the Core Natural Science Requirements and are not open to majors in Biology or the Natural Sciences. Most include lectures and demonstrations only; some, such as BI-130, may include a laboratory component as well.

## Biotechnology Program

Dr. Leonard J. Sciorra, *Coordinator*

The Biotechnology Program is housed within the Department of Applied Science and Technology. The Department offers a major in Biotechnology with an emphasis on the biomedical aspects of Biotechnology. Student training is multidisciplinary, with course work in mathematics, biology, chemistry, physics as well as an internship at The Institute of Human and Molecular Genetics at UMDNJ-New Jersey Medical School.

## Clinical Laboratory Sciences Collaborative Program

Dr. Katherine Wydner, *Coordinator*

Saint Peter's University and Rutgers University offer collaborative programs leading to the Bachelor of Science in Clinical Laboratory Sciences with a concentration in Cytotechnology or a concentration in Medical Laboratory Science. Clinical Laboratory Science majors complete all pre-professional and general education requirements—minimum of 90 to 95 credits over three years (6 semesters)—at Saint Peter's University before beginning the 12 to 15 month (4 semesters) of clinical/professional training at Rutgers University School of Health Related Professions and affiliated clinical/research facilities.

- <sup>1</sup> BI-473 Vertebrate Zoology is strongly recommended.

## Department of Communication and Media Culture

Ernabel Demillo, *Chairperson*

The Communication and Media Culture Department offers a major in Communication and minors in Communication and Journalism.

### Requirements for Communication Major

#### Degree of Bachelor of Arts

CU-202	Media Communications I	3
CU-203	Media Communications II	3
CU/JN-205	News Writing and Reporting (WI)	3
Take the following:		
CU-275	Public Speaking Workshop	3
CU-255	Ethics in Communications (Values)	3
CU-400	Research Writing (Capstone, WI)	3
Communications Electives (choose 18 credits; see following description)		18
Outside concentration (choose 12 credits; see following description)		12
Total Credits		48

#### Communications Major Electives

Students are required to take six courses (18 credits) with the CU designation, including cross-listed courses. The following groupings are suggested so that a student may gain expertise in a major area.

##### Writing and Publishing

CU/AR-157	Introduction to Photography I	3
CU/AR-158	Introduction to Photography II	3
CU/JN-208	Broadcast Newsroom	3
CU/JN-210	Writing Workshop	3
CU/AR-232	Art and Desktop Publishing	3
CU/JN-304	Principles of Media Law and Ethics	3
CU/JN-310	News Writing II	3
CU-313	Pauw Wow Workshop	3
CU/JN-340	Sportswriting	3
CU/JN-341	Art and Entertainment Journalism	3
CU-352	Conversations With Writers and Metro Seminar	3
CU/JN-355	Video Journalism	3
CU-385	Multimedia Reporting	3
CU/JN-410	Investigative Journalism and Advanced Features	3
CU-419	Magazine Writing	3

##### Media Business

CU-101	Communication Basics	3
CU-102	Media Literacy	3
CU/AR-214	Art Advertising and Design	3
CU-218	Media Business	3
CU-232	Art and Desktop Publishing	3
CU-241	Advertising Management	3
CU-247	Marketing Communications and Branding	3
CU-260	Radio Station I	3
CU-261	Podcasting	3

CU/GS-285	Gender and Communication (DIV)	3
CU/BA-315	Business and Professional Communication	3
CU/BA-327	Digital and Social Media Marketing	3
CU-350/BA-360	Public Relations	3

**Film and Media Culture**

CU-190	Introduction to Film	3
CU-228	Asian Film	3
CU-256	The Horror Film	3
CU-265	Screenwriting	3
CU-266	Advanced Screenwriting	3
CU-270	Broadcast Studies	3
CU-282	Science Fiction Film	3
CU-283	The Conspiracy Theory Film	3
CU/EL-293	Today's Film Scene	3
CU-300	Film Theory and Criticism	3
CU-306	The Animated Film	3
CU-307	Art Commerce and Cultural Impact of Disney	3
CU-308	Disney: Behind the Scenes	3
CU-454	Black Films	3
EL-493	Film Noir: Dark Side of American Film	3

**Communication Major Outside Concentration - (12 credits)**

To serve their individual goals, students must choose outside concentrations from classes in a single department or create a composite area of study from courses in several departments. After consultation with outside departments, students must send a one-page letter requesting the outside concentration to the Director of the Communication major. Courses accepted for double majors and minors in other departments can also be used for the outside concentration, but not for core or Communication electives.

**Media Internships**

The courses CU-295, CU-495 and CU-496 are internship courses offered in conjunction with the Center for Experiential Learning and Career Services which can provide placement for students at on- and off-campus media sites. Internships receive CU elective credits and are encouraged for all majors. To gain credits, students combine work experience with concurrent academic study. On campus internships may include jobs at the *Pauw Wow*, *Pavan* and *Peacock Pie* under the supervision of a moderator.

**Special Notes on Major Requirements**

- <sup>1</sup> The completion of freshman composition with a minimum score of a C+ is a prerequisite for all courses. Students who score less than a B must take CU/JN-210 Writer's Workshop as one of the Communication electives.
- <sup>2</sup> A student must average 2.5 or better in CU-202 and CU-205 to remain a candidate for the Communication major, and students must also maintain a 2.5 cumulative average in all CU courses in order to graduate with a Communication major.

**Requirements for the Minor in Communication**

Select one of the following theory courses

CU-202	Media Communications I	3
or CU-203	Media Communications II	

Select one of the following writing courses: 3

CU-205	News Writing and Reporting	
CU-315	Business and Professional Communication	
CU-400	Research Writing	

Take the following speaking course:		3
CU-275	Public Speaking Workshop	
CU-	Three CU Electives	9
Total Credits		18

### Requirements for the Minor in Journalism

CU/JN-205	News Writing and Reporting <sup>1</sup>	3
CU/JN-304	Principles of Media Law and Ethics	3
CU/JN-310	News Writing II	3
CU/JN-410	Investigative Journalism and Advanced Features	3
JN-	Two JN Electives	6
Total Credits		18

### Special Note on the Minor in Journalism

- <sup>1</sup> Since CU-205 is already a required course for students majoring in Communication, those who wish to complete a Communication major and the Journalism minor will be required to take one extra writing and publishing elective.

## Department of Criminal Justice

Kari E. Larsen, *Chairperson*

The Criminal Justice Department offers a major in Criminal Justice with concentrations in: Law and Justice, Corrections, Police Administration, Investigative Sciences, Criminal Research & Intelligence Analysis, Cyber Security & Computer Forensics, and Foundations of Law. A minor in Criminal Justice is also offered.

### Degree Requirements for Criminal Justice Major

#### Degree of Bachelor of Arts

Six of the required credits for the major count towards the Core Curriculum Requirements.

CJ-165	Introduction to Criminology	3
CJ-170	Introduction to Criminal Justice	3
SO/CJ-253	Social Deviance	3
CJ-280	Juvenile Delinquency	3
CJ-258	Criminal Justice Ethics (Values course)	3
CJ-285	Criminal Corrections Systems	3
CJ-315	Criminal Procedure	3
CJ-350	Research Techniques and Data Analysis	3

CJ-489	Senior Seminar in Criminal Justice	3
PS-151	Introduction to Psychology <sup>1</sup>	3
CJ/BI/CH-237	Forensic Science <sup>1</sup>	3
Select one of the following		3
AS/UR/SO-412	Ethnicity and Race in Urban History	
SO-200	Ethnic and Racial Relations	
CJ-210	Multiculturalism in Justice	
HS-444	History of American Immigration	
Select one of the following concentrations and take 9 credits in that concentration, except for the Computer Science and Crime Forensics Concentration, take 12 credits		9-12
Total Credits		48-51

#### Special Note on Core Requirements for Criminal Justice Majors

<sup>1</sup> May count towards the Core Natural Science Requirement.

#### Special Note on Major Requirements for Criminal Justice Majors

<sup>1</sup> All Criminal Justice majors are required to maintain a 2.25 average in major core and concentration courses.

#### Law and Justice Concentration

CJ-316	Criminal Evidence	3
Select two of the following:		6
CJ-290	Comparative Justice Systems	
CJ-486 or CJ-487	Internship I Internship II	
CJ-222	Family Law	
CJ-250	Victimology	
CJ-333	Gender Crime and Justice	
CJ-406	Homicide: Investigation and Prosecution	
CJ-485	Child Protection Agencies and the Law	

PO-477	International Law	
PO-417	Constitutional Law and Civil Liberties	
UR/AS-333	Black Community and the Law	
Total Credits		9

### Corrections Concentration

CJ-395	Probation and Parole	3
Select two of the following:		6
CJ-290	Comparative Justice Systems	
CJ-299	Leadership for Criminal Justice	
CJ-420	Drugs, Society and Human Behavior	
CJ-486	Internship I	
or CJ-487	Internship II	
PS-250	Personality	
PS-260	Abnormal Psychology	
Total Credits		9

### Police Administration Concentration

CJ-175	Introduction to Law Enforcement	3
Select two of the following:		6
CJ-177	Police Culture	
CJ-230	Homeland Security and Terrorism	
CJ-240	Gangs and Organized Crime	
CJ-260	Traffic Management	
CJ-299	Leadership for Criminal Justice	
CJ-359	Corruption	
CJ-396	Community Policing	
CJ-400	Police Administration	
CJ-435	Police Patrol	
CJ-486	Internship I	
or CJ-487	Internship II	
Total Credits		9

### Investigative Sciences and Profiling Concentration

CJ-237	Forensic Science	3
Select two of the following:		6
CJ-357	Infamous Crimes and Criminals	
CJ-418	Introduction to Forensics Techniques	
CJ-486	Internship I	
or CJ-487	Internship II	
CJ-405	Crime Investigation	
CJ-299	Leadership for Criminal Justice	
CJ-406	Homicide: Investigation and Prosecution	
PS-260	Abnormal Psychology	
PS-435	Forensic Psychology	
Total Credits		9

## Criminal Research & Intelligence Analysis Concentration

Students are also strongly encouraged to pursue a minor in Accountancy, Modern Languages, or Mathematics as well.

AC-151	Principles of Accounting I	3
CJ-230	Homeland Security and Terrorism	3
Select one of the following:		3
CJ-240	Gangs and Organized Crime	
CJ-418	Introduction to Forensics Techniques	
CJ-358	White Collar Crime	
CJ-486	Internship I	
or CJ-487	Internship II	
CJ-419	Terrorism and Threat Assessment	
CS-495	Cryptology	
Total Credits		9

## Cyber Security and Computer Forensics Concentration

CS-180	Introduction to Programming	3
CS-260	Information Technology Ethics	3
CS-489	Network Technology Protocols and Defense	3
CS-496	Cybersecurity and Digital Forensics Lab	3
IS-381	Cyber Security Planning and Risk Management	3
CS-495	Cryptology	3
Total Credits		18

## Foundations of Law Concentration (for students preparing to attend law school)

PL-153	Logic	3
Select two of the following:		6
PL-200	Rhetoric Speech and Argument	
PL-247	Philosophy of Law	
PL-248	Political Philosophy	
PL-425	Symbolic/Mathematical Logic	
Total Credits		9

## Requirements for a Minor in Criminal Justice

CJ-165	Introduction to Criminology	3
CJ-170	Introduction to Criminal Justice	3
CJ-258	Criminal Justice Ethics	3
CJ-285	Criminal Corrections Systems	3
CJ-315	Criminal Procedure	3
CJ-390	Criminal Law	3
Total Credits		18

## Special Notes on Requirements for Criminal Justice Minors

<sup>1</sup> All Criminal Justice minors are required to maintain a 2.0 average in minor courses.

## Department of English

Scott Stoddart, Ph.D., *Chairperson*

The Department of English offers a major in English Literature and a minor in English.

### Requirements for English Literature Major

#### Degree of Bachelor of Arts

Six of the required credits for the major count towards the Core Curriculum Requirements.

Choose two of the following courses <sup>1</sup>		6
EL-201	English Literature I	
EL-202	English Literature II	
EL-203	American Literature I	
EL-204	American Literature II	
EL-205	Survey of World Literature	
Choose two EL Electives at the 200-level (including other surveys)		6
Choose five EL Electives at the 300 or 400-level		15
EL-306	Textual Analysis: Theory and Practice	3
EL-450	Capstone Seminar	3
Total Credits		33

<sup>1</sup> May count towards the Core Literature Requirement.

### Special Notes on English Literature Major Requirements

- <sup>1</sup> Majors are required to take two courses in pre-1800 literature beyond the survey courses at the 300 or 400-level.
- <sup>2</sup> A student should have a 2.5 average in the core courses to be accepted as an English major. Majors must maintain a 2.5 average in department courses. Students may petition to waive these requirements under special circumstances.

### Requirements for a Minor in English

Choose two of the following courses		6
EL-201	English Literature I	
EL-202	English Literature II	
EL-203	American Literature I	
EL-204	American Literature II	
EL-205	Survey of World Literature	
Select four English Electives		12

# Environmental Studies Program

Dr. David S. Surrey, *Director*

The Environmental Studies Program offers a major and minor in Environmental Studies. These prepare students to work in a variety of settings, such as community-based organizations, corporations, or government agencies and in positions requiring interdisciplinary expertise, such as those in media, education, or public policy. Although based on a solid science foundation, the programs are not intended for students interested in a career in science.

## Requirements for Environmental Studies Major

### Degree of Bachelor of Arts

EV-100	Introduction to Environmental Studies	3
BI-183	General Biology I	3
or CH-131	General Chemistry and Qualitative Analysis I	
MA-132	Statistics for Life Sciences	3
EV/TH-304	Ecological Ethics and Religious Environment	3
EV-327	Environmental Politics and Policies	3
EV-492	Environmental Studies Internship	3
Electives - Choose four of the following courses		12
EV-102	Introduction to Climate Change	
EV/BI-122	Nutrition in Health and Disease	
BI-130	Natural History of New Jersey	
EV-155	Politics of Climate Disruption	
EV-200	Economics of Environmental Decisions	
EV-232	China: Environmental Change and Possibilities	
EV/BI-271	Concepts of Public Health	
BI-310	Ecology	
EV-312	Biology of Global Change	
EV-313	Human Evolution Ecology and Adaptation	
EV-489	Globalization and Fieldwork Seminar	
Total Credits		30

## Requirements for Environmental Studies Minor

EV-100	Introduction to Environmental Studies	3
CH-131	General Chemistry and Qualitative Analysis I	3
CH-131L	General Chemistry and Qualitative Analysis I Lab	1
BI-183	General Biology I	3
BI-185	General Biology I Lab	1
SO-492	Urban Internship	3
Select two courses from the following		6
BI-130	Natural History of New Jersey (Total)	
EV-155	Politics of Climate Disruption	
EV-200	Economics of Environmental Decisions	
EV-327	Environmental Politics and Policies

## Department of Fine Arts

Dr. Jon D. Boshart, *Chairperson*

The Department of Fine Arts offers four majors: Art History, Fine Arts, Graphic Arts and Visual Arts and five minors: Graphic Arts, Music, Theatre Arts, Visual Arts, and Art History. Students in all four majors must maintain a 2.5 average in major courses.

### Requirements for Art History Major

#### Degree of Bachelor of Arts

Three of the required credits for the major count towards the Core Curriculum Requirements.

AR-127	Introduction to the Visual Arts <sup>1</sup>	3
AR-211	Renaissance Art I	3
AR-212	Renaissance Art II (Capstone)	3
AR-215	Medieval Art (Capstone)	3
AR-229	Baroque Art	3
AR-231	Egyptian Art	3
AR-240	Cultural Diversity in Art	3
AR-384	Art and Buddhism	3
or AR-386	Art and Hinduism	
AR-340	The Visual Arts in America	3
AR-	Fine Arts Electives	12
Total Credits		39

<sup>1</sup> May count towards the Core Fine Arts Requirement.

### Requirements for Fine Arts Major

#### Degree of Bachelor of Arts

Three of the required credits for the major count towards the Core Curriculum Requirements.

AR-127	Introduction to the Visual Arts <sup>1</sup>	3
AR-128	Introduction to Music	3
Art History Electives		6
Visual Arts Workshop-Studio Electives		9
Music Electives		9
Fine Arts Electives		6

## Gender and Sexuality Program

Dr. Devin A. Heyward, *Director*

The Gender and Sexuality Program is an interdisciplinary cross/cultural program and offers a minor and focused courses. It provides interested students with an in-depth knowledge of the social construction of gender, the significance of gender in structuring human social life and women's contributions to history and culture. The program emphasizes the link between the personal and the political and using knowledge to create community based agendas for social change to eliminate gender based inequality.

### Requirements for Minor in Gender and Sexuality

GS/SO-140	Introduction to Women's Studies	3
Choose one of the following		3
GS-310	Feminist Political Theory	
GS-340	Feminist Philosophy	
Select four of the following, no more than two with the same prefix:		12
CU/GS-285	Gender and Communication	
ED-428	Literature of East and West Africa	
CJ-333	Gender Crime and Justice	
SO-345	Sociology of Intimacy	
UR/SO-370	Urban Anthropology	
UR/AT-309	Women in Changing Urban World

## Health Information Management Collaborative Program

Dr. Christina Mortellaro, *Advisor*

The Health Information Management Program prepares graduates to take a leading role in the management of patient information collected and maintained in electronic and manual processes. Roles in HIM are expansive and include management, medical coding, data analysis and computerized system development and maintenance ( [www.hicareers.com](http://www.hicareers.com) (<http://www.hicareers.com/>) ). Students who successfully complete the four-year program are granted a Bachelor of Science Degree in Health Information Management jointly by Rutgers University and Saint Peter's University. The Program involves eight traditional semesters in total: four semesters plus two summer sessions of coursework offered at Saint Peter's, and four semesters plus one summer session offered at the Rutgers campus during the Professional Phase of the Program.

During their first two years, students take 73-76 credits, including the core requirements and required ancillary courses, at Saint Peter's University. This course of study is followed by the Professional Phase of the Program in which students take 61 credits at Rutgers. By May 1 of their sophomore year at Saint Peter's University, students must apply to the School of Health Related Professions at Rutgers. To be accepted, students must be recommended by the Advisor of the Health Information Management Program, have completed all of the specified credits, have an overall GPA of 2.75 or greater, and satisfy all other admissions requirements of Rutgers. After acceptance at the School of Health Related Professions, which is decided solely by Rutgers, students begin their coursework at Rutgers during the summer after their sophomore year at Saint Peter's. Requirements for the joint degree may change at the discretion of Rutgers University. For more information, please visit <http://shrp.rutgers.edu/dept/informatics/HIM/>

### Requirements for a Joint Health Information Management Major

#### Joint Degree of Bachelor of Science

Fifteen of the required credits for the major count towards the Core Curriculum Requirements.

MA-132	Statistics for Life Sciences <sup>1</sup>	3
MA-133	Calculus for the Life Sciences <sup>1</sup>	4
BI-171	Anatomy and Physiology I <sup>2</sup>	4
BI-171L	Anatomy and Physiology I Lab	0
BI-172	Anatomy and Physiology II <sup>2</sup>	4
BI-172L	Anatomy and Physiology II Lab	0
AC-151	Principles of Accounting I	3
Core Curriculum Requirements *		42
Credits to be transferred in from Rutgers University from the professional program of study.		61
Total Credits		121

<sup>1</sup> May count towards the Core Mathematics Requirement.

<sup>2</sup> May count towards the Core Natural Science Requirement.

\* Please note 3 credits transferred from Rutgers will count towards 3 credits of core curriculum credits.

#### Special Notes on Major Requirements

<sup>1</sup> Students should consult the Program Advisor before beginning the program in order to take the courses in the correct sequence so that the program is finished on time.

<sup>2</sup> To finish the component of the program at Saint Peter's in 2 years, students will need to take summer courses and/or take more than 15 credits for several semesters.

<sup>3</sup> The credits transferred in from Rutgers University must be for courses for the major specified by Rutgers.

<sup>4</sup> Saint Peter's University Values and Capstone Core Requirement to be fulfilled in Rutgers University's professional phase of program.

## Department of History

Dr. David Gerlach, *Chairperson*

The Department of History offers a major and minor in History.

### Bachelor of Arts History Major

#### Degree Requirements

Six of the required credits for the major count towards the Core Curriculum Requirements.

One Core 100 Level Course (Pre-Modern, Western History) <sup>1</sup>	3
One Core 200 Level Course (Modern, Global History) <sup>1</sup>	3
HS-341 American Main Currents I	3
HS-342 Main Currents in American History II	3
HS-399 Platt Seminar	3
Take one course from each of the following:	
HS-300-319, 400-419 Group A: Pre-Modern World History Elective	3
HS-320-339, 420-439 Group B: Modern European History Elective	3
HS-340-369, 440-469 Group C: United States History Elective	3
HS-370-389, 470-489 Group D: Modern Non-Western or Thematic History Elective	3
HS- History Electives (any A-D group)	6
HS-499 The Tuleja Seminar <sup>2</sup>	3
<b>Total Credits</b>	<b>36</b>

<sup>1</sup> May count towards the Core History Requirement.

<sup>2</sup> May count towards the Writing Intensive Requirement.

#### Special Notes on Major Requirements

<sup>1</sup> History majors must maintain an average of 2.5 in major courses.

<sup>2</sup> Students must take HS-499 The Tuleja Seminar during their last year of study.

<sup>3</sup> The Tuleja Seminar may count as a Group A, B, C, or D elective. In that case, students must take another HS-elective to meet the required number of credits in the major.

### Minor in History

#### Degree Requirements

One Core 100 Level Course (Pre-Modern, Western History) <sup>1</sup>	3
One Core 200 Level Course (Modern, Global History) <sup>1</sup>	3
HS-399 Platt Seminar	3
HS- History Electives (any A-D group)	9
<b>Total Credits</b>	<b>18</b>

<sup>1</sup> May count towards the Core History Requirement

## Latin American and Latino Studies Program

Dr. Victoria Stone-Cadena, *Program Director*

The Latin American and Latino Studies Program offers a major and a minor that give students a broad understanding of Latin-America, the Caribbean, and Latino communities in the United States. The curriculum includes courses from a range of areas including Business, Economics, Fine Arts, History, Modern Languages, Political Science, Sociology, Urban Studies and Social Justice.

### Requirements for Latin American Studies Major

#### Degree of Bachelor of Arts

LS-101	Introduction to Latin American and Latino Studies (PL)	3
SP-	Any 2 Spanish courses <sup>1</sup>	6
LS-	6 LS electives, with no more than 3 from the same discipline	18
LS-	One 400-level LS course <sup>2</sup>	3
Total Credits		30

<sup>1</sup> May count toward the Core Language Requirement and may be substituted with another Latin America or Caribbean - related language.

<sup>2</sup> Any 400-level LS course in which the student is required to complete a research paper that can be related Latin American and Latino Studies curriculum. The student will consult with the LS Program Director when choosing this course.

### Requirements for Minor in Latin American and Latino Studies

LS-101	Introduction to Latin American and Latino Studies (PL)	3
LS-	5 LS electives, with no more than 3 from the same discipline	15
Total Credits		18

#### Special Note on Minor Requirements

Minors are encouraged to fulfill their language requirement in Spanish or another Latin America or Caribbean-related language.

## Department of Mathematics and Statistics

Dr. John E. Hammett III, *Chairperson*

The Department of Mathematics offers three majors and one minor in Mathematics. Students must maintain an average GPA of at least 2.0 in all mathematics courses counted towards the B.S. degree or an average GPA of at least 2.5 in all other mathematics courses counted towards the B.A. degree in order to graduate with a mathematics major.

### Requirements for Mathematics Major

#### Degree of Bachelor of Science

Eight of the required credits for the major count towards the Core Curriculum Requirements.

MA-143	Differential Calculus <sup>1</sup>	4
MA-144	Integral Calculus <sup>1</sup>	4
MA-247	Introductory Linear Algebra	3
MA-248	Math Tech Lab	1
MA-250	Transition to Advanced Mathematics	3
MA-273	Multivariable Calculus I <sup>1</sup>	4
MA-274	Multivariable Calculus II <sup>1</sup>	4
MA-335	Probability Theory	3
Take one of the following courses		3-4
MA-375	Advanced Calculus	
MA-377	Ordinary Differential Equation	
MA-379	Differential Equations for Engineers	
Take one of the following courses		3
MA-382	Mathematical Modeling	
MA-385	Topics in Applied Mathematics	
MA-387	Topics in Mathematics	
MA-389	Topics in Statistic Regression Analysis	
MA-441	Modern Algebra	3
MA-490	Senior Seminar in Mathematics (Capstone)	3
MA	Three Mathematics Electives (MA-316 or higher)	9
Total Credits		47-48

<sup>1</sup> May count towards the Core Mathematics Requirement.

#### Special Notes on Core Curriculum Requirements

- <sup>1</sup> The Core Curriculum Natural Science Requirement for the B.S. in Mathematics degree is ordinarily PC-185 General Physics I, and CS-180 Introduction to Programming. These Mathematics majors are encouraged to take PC-186 as well. A more advanced course in computer programming may substitute for CS-180, but a course in computer programming is expected.
- <sup>2</sup> Mathematics majors are encouraged to take EC-101 Macroeconomic Principles as part of their Social Sciences Requirement.
- <sup>3</sup> Ordinarily a student may not receive credit for more than one of the calculus sequences, nor may a student receive credit for both MA-132 Statistics for the Life Sciences and MA-212 Elementary Statistics.
- <sup>4</sup> Satisfactory completion of core mathematics courses with integrated mathematics reviews, such as MA-102 Mathematics for the Liberal Arts and MA-103 Probability and Statistics for the Liberal Arts, may be required based on placement test results
- <sup>5</sup> Students intending or expected to take calculus courses may first be required to take MA-100 Fundamentals of College Algebra and/or MA-101 Precalculus, unless exempted by placement test results

- <sup>6</sup> Students who receive advanced placement beyond the introductory calculus sequences may use MA-273 Multivariable Calculus I and MA-274 Multivariable Calculus II to satisfy the Mathematics Core Requirement.

### Special Note on Major Requirements

- <sup>1</sup> The Chairperson of the Mathematics Department may reduce the 9 credit requirement in the Mathematics electives to 3 credits for the B.S. degree if the student has, in consultation with a departmental advisor, combined this Mathematics major with a specified program of courses in a related field. Such programs include, but are not limited to, major or minor programs in another department and the certification program in secondary education.

## Requirements for Mathematics Major

### Degree of Bachelor of Arts, Concentration:

#### Elementary Education

MA-250	Transition to Advanced Mathematics	3
MA-400	History of Mathematics	3
MA-490	Senior Seminar in Mathematics	3
Take three courses in Essential Mathematics and Statistics		9
Group 1: Essential Mathematics (choose one)		
MA-101	Precalculus	
MA-102	Mathematics for the Liberal Arts	
MA-105	Elementary Applied Mathematics	
MA-108	Mathematics for Educators I	
MA-218	Quantitative Methods for Business	
Group 2: Essential Statistics (choose two, one course must be higher than MA-132)		
MA-103	Probability and Statistics for Liberal Art	
MA-106	Introduction to Probability and Statistics	
MA-109	Mathematics for Educators II	
MA-132	Statistics for Life Sciences	
MA-212	Elementary Statistics	
MA-222	Intermediate Statistics	
MA-304	Statistics, Probability and Discrete Math for Middle School	
MA-336	Mathematical Statistics	
MA-337	Statistical Computing With R	
Take two courses in Calculus		6-8
MA-123 & MA-124	Elementary Calculus I and Elementary Calculus II <sup>1</sup>	
or		
MA-143 & MA-144	Differential Calculus and Integral Calculus <sup>1</sup>	
MA-273 & MA-274	Multivariable Calculus I and Multivariable Calculus II	
MA-375	Advanced Calculus	
MA-377 or MA-379	Ordinary Differential Equation Differential Equations for Engineers	
Take one course in Algebra		3
MA-247	Introductory Linear Algebra	
MA-302	Elementary Math Functions for Middle School	
MA-441	Modern Algebra	
Take one course in Geometry		3

MA-306	Geometry for Middle School	
MA-350	College Geometry	
Take one Math Elective <sup>2</sup>		3
Total Credits		33-35

<sup>1</sup> MA-133 may substitute for MA-123 or MA-143. MA-144 does require preparation in trigonometry.

<sup>2</sup> Math elective must be 200-Level or above.

### Special Notes on Core Curriculum Requirements

<sup>1</sup> Mathematics majors are encouraged to take CS-180 or another computer programming course as part of their Natural Science Requirement.

<sup>2</sup> Mathematics majors are encouraged to take EC-101 as part of their Social Sciences Requirement.

<sup>3</sup> Mathematics majors pursuing the B.A. degree, Concentration in Elementary Education, are encouraged to take BI-122, BI-124 or a comparable course in Biology as part of their Natural Science Requirement.

### Special Note on Major Requirements

<sup>1</sup> At least four (4) courses must be at the 300-Level or above.

## Requirements for Mathematics Major

### Degree of Bachelor of Arts, Concentration:

#### Secondary Education

MA-247	Introductory Linear Algebra	3
MA-250	Transition to Advanced Mathematics	3
MA-350	College Geometry	3
MA-400	History of Mathematics	3
MA-441	Modern Algebra	3
MA-490	Senior Seminar in Mathematics	3
Take 3 courses in Calculus		11-12
MA-123 & MA-124 & MA-125	Elementary Calculus I and Elementary Calculus II and Intermediate Calculus <sup>1</sup>	
or		
MA-143 & MA-144	Differential Calculus and Integral Calculus <sup>1</sup>	
MA-273 & MA-274	Multivariable Calculus I and Multivariable Calculus II	
MA-375	Advanced Calculus	
MA-377 or MA-379	Ordinary Differential Equation Differential Equations for Engineers	
Take one course in Statistics		3
MA-132	Statistics for Life Sciences	
MA-212	Elementary Statistics	
MA-222	Intermediate Statistics	
MA-336	Mathematical Statistics	
Take one Math Elective <sup>2</sup>		3
Total Credits		35-36

- <sup>1</sup> MA-133 may substitute for MA-123 or MA-143. MA-144 does require preparation in trigonometry.
- <sup>2</sup> Math elective must be 200-Level or above.

### Special Notes on Core Curriculum Requirements

- <sup>1</sup> Mathematics majors are encouraged to take CS-180 or another computer programming course as part of their Natural Science Requirement.
- <sup>2</sup> Mathematics majors are encouraged to take EC-101 as part of their Social Sciences Requirement.
- <sup>3</sup> Mathematics majors pursuing the B.A. degree, Concentration in Secondary Education, are encouraged to take BI-122, BI-124 or a comparable course in Biology as part of their Natural Science Requirement.

### Special Note on Major Requirements

- <sup>1</sup> At least four (4) courses must be at the 300-Level or above
- <sup>2</sup> Students who complete MA-124 and MA-124 and MA-125 for 8 credits must complete one (1) additional calculus course

### Special Note on Multiple BA Concentrations

If a student wishes to earn concentrations in both Elementary Education and Secondary Education, an additional 12 credits of 200-Level courses or above must be completed.

### Requirements for a Minor in Mathematics

Select one of the following calculus sequences:

6-8

MA-123 & MA-124	Elementary Calculus I and Elementary Calculus II
MA-132 & MA-133	Statistics for Life Sciences and Calculus for the Life Sciences
MA-143 & MA-144	Differential Calculus and Integral Calculus
MA-273 & MA-274	Multivariable Calculus I and Multivariable Calculus II

Select 4 MA-courses, 200-level or above

12+

Total Credits

18-20+

### Special Notes on Minor Requirements

- <sup>1</sup> Students wishing to minor in mathematics should meet with the department Chairperson to choose appropriate electives to match or complement their major.
- <sup>2</sup> A student must maintain an average of at least 2.0 in the courses presented for the mathematics minor.
- <sup>3</sup> MA-133 may substitute for MA-123 or MA-143. MA-144 does require preparation in trigonometry.

## Department of Modern and Classical Languages and Literatures

Mark DeStephano, Ph.D (1995) *Chairperson*

The Department of Modern and Classical Languages and Literatures offers a major in Spanish. Students may, with the permission of the Department and the Academic Dean, major in Modern Languages with a concentration in Italian and/or French. Minors in French and Italian are also offered. All majors and minors must achieve a cumulative GPA of 2.5 in their major courses in order to be awarded their degree.

### Requirements for Major in Spanish

#### Degree of Bachelor of Arts

Six of the required credits for the major may count towards the Core Curriculum Requirements.

Select one of the following sequences: 6

SP-133 & SP-134	Intermediate Spanish I and Intermediate Spanish II <sup>1</sup>	
SP-135 & SP-136	Intermediate Spanish for Native Speakers I and Intermediate Spanish for Native Speakers II <sup>1</sup>	
SP-243	Survey: Literature of Spain I	3
SP-244	Survey: Literature of Spain II	3
SP-245	Survey of Hispanic-American Literature I	3
SP-246	Survey of Hispanic-American Literature II	3
SP-	Choose 8 Spanish Electives <sup>2</sup>	24
Total Credits		42

<sup>1</sup> May count towards the Core World Language Requirement.

<sup>2</sup> May include up to 5 Modern Language (ML), up to 2 Latin (LA), up to 2 Greek (GK), and/or up to 2 Classical Civilization (CC) courses.

#### Special Notes on Requirements for the Spanish Major

<sup>1</sup> Non-native speakers should register for SP-133/SP-134. Native speakers must register for SP-135/SP-136.

<sup>2</sup> Students without adequate preparation for SP-133/SP-134 must take SP-113/SP-114 first.

#### Special Note on Interdisciplinary Modern Language (ML) Courses

Courses labeled ML (Modern Language) are interdisciplinary in scope and may be taught in English. Majors in the department may apply up to 15 credits in these courses towards their major requirements. Selected assignments will be required in the departmental student's major language.

### Requirements for Minor in French

Required courses 6

FR-133 & FR-134	Intermediate French I and Intermediate French II <sup>1</sup>	
FR-	French Electives	12
Total Credits		18

<sup>1</sup> May count towards the Core World Language Requirement

#### Special Note on Requirements for the Minor in French

<sup>1</sup> Students without adequate preparation for FR-133/FR-134 must take FR-113/FR-114 first.

## Requirements for Minor in Italian

Required courses		6
IT-133 & IT-134	Intermediate Italian I and Intermediate Italian II <sup>1</sup>	
IT-	Italian Electives	12
Total Credits		18

<sup>1</sup> May count towards the Core World Language Requirement.

## Special Note on Requirements for the Minor in French

<sup>1</sup> Students without adequate preparation for IT-133/IT-134 must take IT-113/IT-114 first.

## Requirements for Minor in Spanish

Select one of the following sequences:		6
SP-133 & SP-134	Intermediate Spanish I and Intermediate Spanish II <sup>1</sup>	
SP-135 & SP-136	Intermediate Spanish for Native Speakers I and Intermediate Spanish for Native Speakers II <sup>1</sup>	
SP-243	Survey: Literature of Spain I	3
SP-244	Survey: Literature of Spain II	3
SP-245	Survey of Hispanic-American Literature I	3
SP-246	Survey of Hispanic-American Literature II	3
Total Credits		18

<sup>1</sup> May count towards the Core World Language Requirement.

## Special Notes on Requirements for the Minor in Spanish

<sup>1</sup> Non-native speakers should register for SP-133/SP-134. Native speakers must register for SP-135/SP-136.

<sup>2</sup> Students without adequate preparation for SP-133/SP-134 must take SP-113/SP-114 first.

## Core Curriculum World Languages Requirements

Any six-credit sequence (e.g., parts I and II consecutively-in the same academic year) in one of the modern or Classical languages offered by the Department is required of all students who are Bachelor's Degree candidates. This requirement can be fulfilled in a number of ways and on a number of levels, namely:

1. The Elementary courses (113-114) introduce the sounds, spelling and basic grammatical principles with emphasis on hearing and speaking the language. No student who has any previous study in the language is admitted to these courses. If students wish to continue further study in that language, they must register for the intermediate-level course or higher.
2. Intermediate courses in a language (133-134, 135-136) seek to provide a solid foundation in all language skills, namely reading, writing, speaking and aural understanding and a foundation for continued study of a language on more advanced levels. Readings and material for oral practice include literature, past and present. Use of the language laboratory may be required at the discretion of the instructor. Prerequisite: one or two years of secondary school or one year of college-level elementary language .
3. With departmental permission, any two language or literature courses in the same language above the intermediate level, which are dedicated to advanced practice in language skills or to particular topics in the study of literature.
4. Completion of the Advanced Placement Examination in language and/or literature, with a grade of 4 or 5. The student will be awarded three credits for each Advanced Placement Examination in Language and/or Literature that has been passed with a grade of 4 or 5. If the student successfully passed both the language and the literature AP examinations, this will be considered as the successful completion of the World Languages Core

Requirement. AP students who are awarded three credits of the language requirement must take the additional three credits in the same language at the advanced level (i.e., over the “200” level).

5. Students may not fulfill the Core World Languages Requirement with Classical Civilization courses.
6. Students may fulfill the World Languages Core Requirement by taking any two-course sequence in American Sign Language (when offered).
7. Students may fulfill the World Languages Core Requirement by taking the two-course sequence in “Romance Language Synthesis, I and II”.
8. Students fulfilling the core requirement with an elementary or intermediate level course must complete both parts of the course consecutively (i.e. both parts of the course must be taken in the same academic year).  
Students failing to complete the core requirement consecutively must begin a new language in order to fulfill the requirement. Exceptions may be made in special cases.

## Proficiency Examinations

All proficiency examinations have been eliminated. The external examinations accepted by the Department is the AP Examination and International Baccalaureate (Higher Level). Other than this, the language requirement must be fulfilled through coursework at Saint Peter’s University. The Department does not accept CLEP test credits for the fulfillment of the Core World Languages requirement.

## Natural Science Program

The Program in Natural Science offers an interdisciplinary major in Natural Science. For this major, students must have the approval of both the Academic Dean and the Chair of the department in which they would have the heaviest concentration of science courses. Natural Science majors who plan to teach at the primary or secondary level are required to also consult with the Chair of the Education Department.

### Requirements for Natural Science Major

#### Degree of Bachelor of Science

Choose a Subject I List of courses from: Biology, Chemistry, Computer Science, Mathematics, or Physics <sup>1</sup>	24-26
Choose a Subject II List of courses from: Biology, Chemistry, Computer Science, Mathematics, Psychology, or Physics <sup>1</sup>	14-16
Choose a Subject III List of courses from: Biology, Chemistry, Computer Science, Mathematics, Psychology, or Physics <sup>1</sup>	8-9
Choose a Subject IV List of courses from: Biology, Chemistry, Computer Science, Mathematics, Psychology, or Physics	6-9
<b>Total Credits</b>	<b>52-60</b>

<sup>1</sup> A different subject must be chosen for each of the four Subject List. Additional completion of three credits of Independent Study at the senior level in Subject I to enhance development of the student's science program is encouraged.

## Department of Philosophy

Dr. Lisa O'Neill, *Chairperson*

The Philosophy Department offers a major and minor in Philosophy, with three concentrations in: Ethics and Moral Philosophy, Ethical Leadership, and Traditional track. Philosophy as part of a double-major is especially encouraged.

### Requirements for Philosophy Major - Traditional Concentration

#### Degree of Bachelor of Arts

PL-130	Introduction to Philosophy	3
PL-140	Introduction to Ethics	3
PL-153	Logic	3
	Capstone Experience <sup>1</sup>	0
PL-xxx	Electives in Ethics, History of Philosophy, and Topical Areas	21
Total Credits		30

#### Ethics and Moral Philosophy Electives

PL-230	Critical Moral Thinking	3
PL-240	General Ethics	3
PL-252	Justice and Human Rights	3
PL-253	Business Ethics	3
PL-254	Contemporary Issues in Bioethics	3

# Physics Program

Dr. Leonard Sciorra, *Chairperson*

The Physics Program is housed within the Department of Applied Science and Technology. The Department offers both a major and a minor in Physics.

## Requirements for Physics Major

### Degree of Bachelor of Science

Fourteen of the required credits for the major count towards the Core Curriculum Requirements.

PC-185	General Physics I <sup>1</sup>	3
PC-187	General Physics Laboratory I	1
PC-186	General Physics II <sup>1</sup>	3
PC-188	General Physics Laboratory II	1

PC-300	Math Methods in Physics	
MA-382	Mathematical Modeling	
MA-385	Topics in Applied Mathematics	
PC-331	Electronics	4
PC-337	Modern Physics	4
PC-344	Optics	4
PC-370	Mechanics	3
PC-374	Electricity and Magnetism I	3
PC-	Electives (300-level or above)	6
MA-143	Differential Calculus <sup>2</sup>	4
MA-144	Integral Calculus <sup>2</sup>	4
MA-273	Multivariable Calculus I	4
MA-274	Multivariable Calculus II	4
CH-131	General Chemistry and Qualitative Analysis I	3
CH-131L	General Chemistry and Qualitative Analysis I Lab	1
PC-390	Independent Study in Physics	1
Total Credits		56

### Special Notes on Core Curriculum Requirements

<sup>1</sup> May count towards the Core Natural Science Requirement.

<sup>2</sup> May count towards the Core Mathematics Requirement. These courses may not be taken on a Pass/Fail basis.

### Special Note on Major Requirements and Electives

<sup>1</sup> MA-247 Introductory Linear Algebra and MA-377 Ordinary Differential Equations are highly recommended.

## Requirements for a Minor in Physics

PC-185	General Physics I	3
PC-187	General Physics Laboratory I	1
PC-186	General Physics II	3
PC-188	General Physics Laboratory II	1
Select one of the following:		4

## Department of Political Science

Dr. Anna Brown, *Chairperson*

The Political Science Department offers a major and a minor in Political Science.

### Requirements for Political Science Major

#### Degree of Bachelor of Arts

Political Science majors must complete the following courses, and must maintain a 2.5 GPA in their political science major course of study.

PO-100	Perspectives on Politics	3
PO-200	Research Methods in Political Science	3
PO-201	American Government	3
PO-499	Political Science Capstone	3
Distribution Courses: choose one course from each of the following designations		
PO-	Political Science course with American Politics designation (AP)	3
PO-	Political Science course with Political Theory designation (PT)	3
PO-	Political Science course with Comparative Politics designation (CP)	3
PO-	Political Science course with International Relations designation (IR)	3
PO-	Political Science elective courses: choose four courses from any designation or combination of designations (AP, PT, CP, IR)	12
Total Credits		36

#### Special Notes on Major Requirements

- <sup>1</sup> PO-499, the Political Science Capstone course must be taken at the University during the spring semester of a student's senior year.
- <sup>2</sup> Students are required to take one Political Science course identified as a seminar course. The seminar course may be taken either as a Distribution Course or as an Elective Course.

### Requirements for a Minor in Political Science

PO-100	Perspectives on Politics	3
PO-200	Research Methods in Political Science	3
PO-201	American Government	3
PO-	Political Science electives: choose three courses from any designation or combination of designations (AP, PT, CP, or IR)	9
Total Credits		18

### Pi Sigma Alpha, the National Political Science Honor Society

The Department sponsors a chapter of Pi Sigma Alpha, the national political science honor society. Membership in the Theta Chi chapter is open to any student who has completed at least fifteen credits in political science, maintained at least a 3.3 average in those courses, and demonstrates a deep commitment to the ethical-political life and to social justice. Inductions into Pi Sigma Alpha occur annually during the spring semester and applications are available in the Department office.

### Internship Experience

Majors are encouraged to obtain valuable internship experience in government or in public advocacy organizations available through either the Department, the Center for Experiential Learning and Career Services, the Washington Center, or the Guarini Institute for Government and Leadership as well as to participate in the Gannon Debate Society and/or the Harvard Model United Nations.

## Harvard Model United Nations

A unique and exciting part of the political science curriculum, the Harvard Model United Nations (U.N.) is a component of PO-376, one of the International Politics courses offered annually during the fall semester. Together with delegations of students from colleges and universities from around the world, each representing a different United Nations member nation, a delegation from Saint Peter's University participates in a four-day mock United Nations session at Harvard University, debating various topics and advancing the official government policy positions of the nation it is assigned. The Model U.N. affords the student the opportunity to gain first-hand experience in the processes of conference diplomacy and negotiation that increasingly characterize the dynamics of international politics. Because the course selected to include the Model U.N. changes every year, interested students are able to participate more than once in this fascinating educational experience.

## The Washington Center Internship Program

The Washington Center Internship Program, administered by The Guarini Institute through the Department of Political Science, offers students the distinctive and exciting opportunity to intern in Washington, D.C. and earn Saint Peter's University academic credit at the same time. Professor Alain L. Sanders, Liaison to the Program, guides and supervises interested students from all major fields of study through the application process. Students interested in the Program should contact Professor Sanders. For more details about the program, consult the Special Academic Programs section.

For students majoring in Political Science, no more than 9 academic credits earned through the Washington Center Internship Program may count towards the fulfillment of the required political science major course of study. For political science minors, no more than 6 academic credits earned through the Washington Center Internship may count towards the fulfillment of the required political science minor course of study. Students must have these credits approved ahead of time by the Washington Center Internship Program Coordinator.

## Pre-Law

The Department of Political Science is home to the University's Pre-Law Advisor. Students desiring to learn about the law school application process, the course of study at law schools, or the professional practice of law should contact the Pre-Law advisor, Political Science Professor Alain L. Sanders. For more information about the Pre-Law Program or Saint Peter's University's Joint B.A./J.D. Program with the Seton Hall University School of Law, consult the Pre-Law section.

## Pre-Law Program

TBA, *Advisor*

The Pre-Law Program is designed to assist students who are interested in attending law school after graduation from Saint Peter's University. The Pre-Law Advisor assists students in choosing their academic program, planning for the LSAT exam, selecting internships, and applying to law school.

Preparation for law school requires a broad-based and rigorous undergraduate education that emphasizes critical thinking, studious reading and excellence of writing. A particular major is not required. However, the chosen program of study should encompass challenging courses that sharpen the intellect and develop a student's ability to think analytically and communicate clearly. These skills can be refined in any number of courses including those in the humanities, social sciences, natural sciences, and business.

Law schools seek students who are able to operate at their peak in a demanding academic environment, and who can demonstrate this ability by achieving an outstanding undergraduate academic record and scoring high on the Law School Admission Test (LSAT).

Students interested in law school, legal careers, or the Joint B.A./J.D. Program outlined below, should contact the University's Pre-Law Advisor as early as possible for information and guidance about preparation for law school, the application process, the study of law, and the practice of law.

### Joint B.A./J.D. Program with Seton Hall University School of Law

Qualified high school students who are interested in an accelerated program may apply, upon admission to Saint Peter's University or as early as possible during their first year at the University, for entrance into the Joint B.A./J.D. Program with Seton Hall University School of Law. The Program offers exceptional high school students the opportunity to obtain in six years, rather than the normal seven years, a Bachelor's Degree in Political Science from Saint Peter's University and a Juris Doctor Degree from Seton Hall University School of Law. Eligibility requirements include, among other components, minimum SAT scores (600 on the verbal, 600 on the math, and a composite verbal + math of 1300) and rank in the top 10% of the student's high school class.

The Joint B.A./J.D. Program is an optional accelerated program, and entrance into the Program is not required to apply to or attend law school in the usual manner.

## Pre-Med/Pre-Dental Program

Dr. Katherine Wydner, *Advisor*

### Pre-Med/Pre-Dental

The Pre-Med/Pre-Dental Program is designed to assist students who are interested in attending medical or dental school after graduation from Saint Peter's University. The Health Career Advisor assists students in choosing their academic program, planning for the Medical College Admission Test (MCAT) or the Dental School Admission Test (DAT), selecting internships or research experiences, and applying to medical or dental school.

Medical and dental schools do not require specific majors; however, they do require exceptional performance in a series of very specific science and mathematics courses. For most medical and dental schools these requirements include: one year of general biology with lab, one year of general chemistry with lab, one year of general physics with lab, one semester of calculus, one semester of statistics, and one year of organic chemistry with lab. We also recommend that students take one semester of biochemistry. Admission to medical or dental school also requires very high scores on the MCAT or DAT exams. Students interested in medical or dental school or the combined B.S./M.D. or B.S./D.M.D. programs outlined below, should contact the University's Health Career Advisor, Dr. Katherine Wydner of the Biology Department, as early as possible for information and guidance about preparation for medical or dental school, the application process, and the undergraduate courses required.

### Combined B.S./M.D. Program or B.S./D.M.D. Program with the medical and dental schools of Rutgers University

Students apply to the seven year B.S./M.D. program at the same time as they apply for admission to Saint Peter's University. Students are accepted to Saint Peter's and are conditionally admitted to the medical school track by Rutgers University. Students apply to the dental school track at the end of their freshman year. After admission to the combined pre-med or pre-dental programs, students are monitored for compliance with the requirements set by Rutgers. Admission to Rutgers' medical or dental school is conditional at all stages of the program and is determined solely by Rutgers University.

## Pre-Professional Health-Related Combined Degree Programs

Dr. Katherine Wydner, *Advisor*

A number of combined degree programs are available to students through a series of articulation agreements with area colleges and universities. These programs are coordinated through the Department of Applied Science and Technology and the Health Careers Advisory Committee. Students participating in these programs spend three years at Saint Peter's University in a pre-professional program (pre-physician assistant, pre-pharmacy, and pre-physical therapy) and then finish their professional degree at another institution in three or four additional years. Students must meet all of the requirements of the individual professional school and acceptance at an individual professional school is solely at the discretion of that school. Participation in any of these pre-professional programs while a student at Saint Peter's does not guarantee admittance to the partner school. For particular details about when and how students should apply to each of the professional school partners, students should consult the Health Careers Advisor.

These combined degree programs represent only particular options for ultimately obtaining a graduate Physician Assistant, Physical Therapy, or Pharmacy degree. Students who complete a traditional four year Bachelor's degree from Saint Peter's, take the courses required for the particular graduate program, and show high academic performance may qualify for application to other graduate programs.

Students interested in these combined degree programs need to plan their academic course of study with the assistance of a member of the Health Careers Advisory Committee so as to ensure compliance with program requirements, which may change at the discretion of the professional schools. Students not interested in these combined-degree programs, but planning on entering similar or other graduate, health-related programs upon completion of their Bachelor's degree, should likewise consult the Health Careers Advisor for help with choosing the appropriate course of study.

### Pre-Physician Assistant with Rutgers University or Seton Hall University

The Pre-Physician Assistant programs are designed to assist students who are interested in attending a Physician Assistant (PA) program after Saint Peter's University. Saint Peter's has a combined degree program with Rutgers University (New Brunswick, NJ) that leads to a Bachelors of Science in Biology from Saint Peter's and a Master of Science in PA from the partner school. Students who are admitted to this program spend three years at Saint Peter's followed by three years at Rutgers. Students with a strong high school record (verbal + math SAT > 1170) and strong college record may be considered for this Pre-PA track; admission is conditional at all stages. Students in the Pre-PA track must maintain a minimum GPA of 3.0, conduct volunteer work with a PA, and pass an interview at the partner school. While at Saint Peter's, students pursuing the Pre-PA track must complete all core and major requirements and take certain other required courses which include (but are not limited to) two semesters of General Biology with laboratory, two semesters of General Chemistry with lab, two semesters of Organic Chemistry with lab, and at least one semester of Anatomy & Physiology with lab (BI-215, BI-215L). The Health Careers Advisor will assist students in planning their academic program.

### Pre-Physical Therapy with Rutgers University

The Pre-Physical Therapy program is designed to assist students who are interested in attending a Physical Therapy (PT) program after Saint Peter's University. Saint Peter's has a combined degree program with Rutgers University that leads to a Bachelors of Science from Saint Peter's and a Doctorate in PT from Rutgers University. Students who are admitted to this Pre-PT program spend three years at Saint Peter's followed by three years at Rutgers. Students with a strong high school record (verbal + math SAT > 1170) and strong college record may be considered for the Pre-PT track; admission is conditional at all stages. Students in the Pre-PT track must maintain a minimum GPA of 3.0, conduct volunteer/service work with a PT, pass an interview at the partner school, and achieve a good GRE score. While at Saint Peter's, students pursuing the Pre-PT track must complete the core and major requirements and take certain other required courses which include (but are not limited to) two semesters of General Biology with laboratory, two semesters of General Chemistry with lab, two semesters of Physics with lab, two semesters of Anatomy & Physiology with lab, one semester of Psychology, one semester of Calculus (MA-133), and one semester of Statistics (MA-132). The Health Careers Advisor will assist students in planning their academic program.

## Pre-Pharmacy with Rutgers University

The Pre-Pharmacy Program is designed to assist students who are interested in attending a Pharmacy program after Saint Peter's University. Saint Peter's has a combined degree program with Rutgers University (New Brunswick, NJ) that leads to a Bachelors of Science from Saint Peter's and a Doctor of Pharmacy (PharmD) from Rutgers. Students who are admitted to this Pre-Pharmacy program spend three years at Saint Peter's followed by four years at Rutgers. Students with a strong high school record (Top 20% high school class, verbal + math SAT > 1350) and strong University record may be considered for the Pre-Pharmacy track; admission is conditional at all stages. While at Saint Peter's, students in the Pre-Pharmacy track must maintain a strong GPA, complete the core and major requirements, and take other required courses which include (but are not limited to) two semesters of General Biology with laboratory, two semesters of General Chemistry with lab, two semesters of Organic Chemistry with lab, two semesters of Physics with lab, one semester of Psychology or Sociology, one semester of Calculus (MA-133), and one semester of Statistics (MA-132). The Health Careers Advisor will assist students in planning their academic program.

## Department of Psychology

Dr. Maryellen Hamilton, *Chairperson*

The Psychology Department offers a major in Psychology with optional concentrations in Clinical Psychology, Forensic Psychology or Industrial-Organizational Psychology. Students may only declare one concentration. A minor in Psychology is also offered.

### Requirements for Psychology Major

#### Degree of Bachelor of Science

Required Courses		12
PS-151	Introduction to Psychology	
PS-200	Statistics and Research Methods	
PS-205	Experimental Psychology	
PS-210	Advanced Statistics and Computer Applications

PS-481	Capstone: Seminar and Lab in Special Topics in Psychology	
PS-499	Capstone: Seminar and Lab in General Psychology	
Total Credits		39

<sup>1</sup> May take only 1 capstone laboratory per semester.

## Special Notes on Core Curriculum Requirements

- <sup>1</sup> Psychology majors may not take courses designed for non science majors (including BI-122, BI-124, BI-123, BI-126, BI-140, , BI-130, PC-110) as part of the Natural Science Core Requirement. They must take 2 sequenced sciences e.g., BI-183/BI-184 (no lab required), CH-131/CH-132 ,or PC-185/PC-186.
- <sup>2</sup> For the mathematics core requirement majors should take MA-105 Elementary Applied Math and MA-106 Introduction to Probability and Statistics.

## Optional Psychology Degree Concentrations

Students majoring in Psychology may choose (but are not required) to pursue a concentration in clinical psychology or forensic psychology. Concentrations entail 15 credits of coursework that allow students to focus on an area that they might be considering for graduate study and/or a future career. Pursuing a concentration does not affect the core or the total number of credits required for the psychology BS degree.

### Concentration in Clinical Psychology

PS-250	Personality	3
PS-260	Abnormal Psychology	3

# Radiography Collaborative Program

## A.A.S. Degree in Health Sciences

Dr. Christina Mortellaro, *Advisor*

Through this collaborative program between Saint Peter's University and the Hudson County Community College School of Radiography or Englewood Hospital School of Radiography, students earn a Degree of Associate of Applied Science in Health Sciences (AAS) from Saint Peter's University. This degree begins with one year (32 credits or at least 18 credits for transfer students) of study at Saint Peter's University followed by two years of study, including summers, at CarePoint Health School of Radiography or Englewood Hospital School of Radiography. Students are awarded the AAS degree from Saint Peter's University upon documented evidence of successfully completing the CarePoint Health School of Radiography program or the Englewood Hospital School of Radiography program, but prior to taking the American Registry of Radiologic Technologists (ARRT) exam. The successful completion of this program does not confer eligibility for advanced certification or licensure.

Students in this program are admitted to Saint Peter's University into the Health Sciences, Radiography Track. Students apply for Conditional Admit Status to the Hudson County Community College School of Radiography or Englewood Hospital School of Radiography during their second semester at Saint Peter's, and the granting of Conditional Admit Status is at the sole discretion of School of Radiography at either Hudson County Community College or Englewood Hospital. Students must meet the admission requirements of the particular School of Radiography to which they are applying, be recommended by Saint Peter's Health Professions Advisory Committee, successfully complete an interview at Hudson County Community College School of Radiography or Englewood Hospital School of Radiography, and receive a passing grade of C or higher in any of the following courses taken during the fall semester at Saint Peter's University: BI-171 and BI-172, PS-151, MA-115, either PL-130 or TH-110, CS-150, an approved EL course, SO-121, and a Composition sequence based on placement: CM-104 or CM-120.

Once students with Conditional Admit Status successfully complete the required spring semester courses with a grade of C or higher in any of the remaining courses listed above, they may apply for Admit Status through the Admissions Office of Hudson County Community College or Englewood Hospital. Students must satisfy all of the admission requirements of the particular School of Radiography to which they are applying, including volunteer service and the required level of performance on an entrance examination. The granting of admission is at the sole discretion of each individual School of Radiography.

For more detailed information about the admission requirements, students should consult the Program Advisor. Students entering Saint Peter's University in the Health Sciences, Radiography Track should consult the Program Advisor early and often to make sure they take the required courses in the correct sequence, meet all of Saint Peter's requirements, and understand the requirements of Hudson County Community College or Englewood Hospital School of Radiography.

Students who are not granted Conditional Admit Status by Hudson County Community College or Englewood Hospital School of Radiography cannot complete the A.A.S. Degree in Health Sciences. These students may, however, switch to one of the Associate's degree options offered by the School of Professional and Continuing Studies or to one of the Bachelor's degree options offered by one of the traditional day programs. Depending on the option chosen, it may take longer than two years to complete an Associate's degree or longer than four years to complete a Bachelor's degree.

# Social Justice Program

Dr. Anna J. Brown, *Director*

The Social Justice Program offers a multi-disciplinary minor that emphasizes the thought and work of social justice, the thought and practice of nonviolence and peacemaking, and the peace and justice teachings of the world's faith traditions. The aim of the social justice project, within the Jesuit tradition, is to appreciate the dignity of each person, to understand the systemic causes of social oppression, to dismantle unjust social structures, and to imagine and create social structures that uplift the human family as well as the earth.

Social justice students are encouraged to engage in our numerous social justice workshops and lectures, local, national, and international works of service and justice, and seminars on nonviolence and peacemaking.

Each year during the Michaelmas ceremony, the Social Justice Program awards the Philip Berrigan Social Justice Award to that social justice student who excels both in academic and social justice work.

#### Special Notes on Core Curriculum Requirements

- <sup>1</sup> MA-123 Elementary Calculus I-MA-124 Elementary Calculus II are suggested for the Mathematics Core Requirement; however, MA-105 Elementary Applied Mathematics-MA-106 Introduction to Probability and Statistics are accepted. Neither sequence of math courses may be taken on a Pass/Fail basis. Students desiring to take MA-123-MA-124, but not sufficiently prepared, must take MA-101 Precalculus.
- <sup>2</sup> All Accounting majors must satisfy the Values requirement with the following course: LW-155 Legal and Contemporary Issues.
- <sup>3</sup> All Accounting majors must satisfy the Writing Intensive requirement with the following course: BA-315 Business and Professional Communication.

#### Special Notes on Major Requirements

- <sup>1</sup> Students desiring to major in Accounting must take the entire program prescribed. Students will be approved for the major in Accounting provided they have a 2.5 average in AC-151 and AC-152. Students should consult with their professor in AC-152, or with an Accounting faculty advisor, concerning their qualifications for this concentration.

- <sup>2</sup> In order to satisfy some of the requirements needed to sit for the CPA Examination in the State of New Jersey, a total of 24 Accounting credits and 24 business elective credits must be completed. The student should verify these requirements each year with the CPA Coordinator as they are subject to change. Business electives may be selected from courses in accounting, business law, economics, information science, and business administration. Students who expect to sit for the CPA Examination in NJ or in any another state should verify the specific academic requirements of that state, as they are subject to change.
- <sup>3</sup> All Accounting majors are required to maintain a 2.5 average in major courses.

### Requirements for a Minor in Accounting

<sup>1</sup> A student must maintain a 2.0 average in the CS-231 and CS-332 sequence to continue as a computer science major.

<sup>2</sup> CS/CIS majors may be eligible for a minor in mathematics.

<sup>3</sup> CS/CIS majors are encouraged to study a commercially popular programming language such as Python and/or Java.

## Requirements for Computer Science Major/Cyber Security

### Degree of Bachelor of Science

This option is designed for those who wish to learn the technology and security architecture that is necessary to help protect and defend information systems from cyber-attacks.

MA-123	Elementary Calculus I <sup>1</sup>	3
MA-124	Elementary Calculus II <sup>1</sup>	3
MA-212	Elementary Statistics	3
CS-177	Introduction to Computer Science and Cybersecurity	3
CS-190	Secure Software Development	3
CS-231	Software Engineering	3
CS-332	Advanced Computing	3
CS-260	Information Technology Ethics	3
CS-339	Computer Architecture and Operating Systems	3
IS-380	Database and Data Administration	3
IS-381	Cyber Security Planning and Risk Management	3
IS-425	Disaster Recovery and Business Continuity	3
CS-489	Network Technology Protocols and Defense	3
CS-495	Cryptology	3
CS-496	Cybersecurity and Digital Forensics Lab	3
CS-499	Capstone for Computer Science	3
Total Credits		48

### Special Notes on Core Curriculum Requirements for Computer Science Major/Cyber Security Option

- <sup>1</sup> May count towards the Core Mathematics Requirement.
- <sup>2</sup> Majors in CS/Cyber Security may not use CS or IS courses for the Core Natural Science Requirement.

### Special Note on Major Requirements for Computer Science Major/Cyber Security Option

- <sup>1</sup> A student must maintain a 2.0 average in the CS-231 and CS-332 sequence to continue as a computer science major.

## Requirements for Computer Science Major/Artificial Intelligence and Machine Learning

### Degree of Bachelor of Science

This option is designed for those who wish to learn the technology and architecture that is necessary to use Artificial Intelligence and Machine Learning methods in the computing disciplines.

MA-123	Elementary Calculus I <sup>1</sup>	3
MA-124	Elementary Calculus II <sup>1</sup>	3
MA-212	Elementary Statistics	3
CS-177	Introduction to Computer Science and Cybersecurity	3

CS-370	Data Structures	3

CS/MA-337	Statistical Computing With R	3
CS-415	Robotics Fundamentals and Programming	3
CS-446	Machine Learning II	3
CS-470	Introduction to Artificial Intelligence	3
CS or IS Elective		3
CS-499	Capstone for Computer Science	3
Total Credits		48

### Special Notes on Core Curriculum Requirements for Computer Science Major/Artificial Intelligence and Machine Learning Option

- <sup>1</sup> May count towards the Core Mathematics Requirement.
- <sup>2</sup> Majors in CS/Artificial Intelligence and Machine Learning may not use CS or IS courses for the Core Natural Science Requirement.

### Special Note of Major Requirements for Computer Science Major/Artificial Intelligence and Machine Learning Option

- <sup>1</sup> A student must maintain a 2.0 average in the CS-231 and CS-332 sequence to continue as a computer science major.

## Requirements for Computer Science Major/Computer Science Option Degree of Bachelor of Science

This option is designed for those who wish to study the theory of programming. Any student who wishes to go to graduate school in Computer Science should consider taking this option.

Six or eight of the required credits for the major count towards the Core Curriculum Requirements.

MA-143	Differential Calculus <sup>1</sup>	4
MA-144	Integral Calculus <sup>1</sup>	4
CS-177	Introduction to Computer Science and Cybersecurity	3
CS/IS-180	Introduction to Programming	3
CS-231	Software Engineering	3

## Department of Economics and Finance

Dr. Edwin T. Dickens, *Chairperson*

The Department of Economics and Finance offers majors in Economics, Finance and Mathematical Economics and minors in Economics and Finance.

### Requirements for Economics Major

#### Degree of Bachelor of Arts

Three of the required credits for the major count towards the Core Curriculum Requirements.

EC-101	Macroeconomic Principles <sup>1</sup>	3
EC-102	Microeconomic Principles	3
EC-251	Intermediate Microeconomics	3
EC-252	Intermediate Macroeconomics	3
EC-300	Statistics for Business Finance and Economics	3
EC-496	Capstone Seminar (WI)	3
FN-416	Ethics in Financial Professions	3
EC/FN	Economics/Finance Electives	15
Total Credits		36

<sup>1</sup> May count towards the Core Social Science Requirement

### Requirements for Economics Major

#### Degree of Bachelor of Science

Three of the required credits for the major count towards the Core Curriculum Requirements.

EC-101	Macroeconomic Principles <sup>1</sup>	3
EC-102	Microeconomic Principles	3
EC-251	Intermediate Microeconomics	3
EC-252	Intermediate Macroeconomics	3
EC-300	Statistics for Business Finance and Economics	3

AC-152	Principles of Accounting II	3
BL-161	Introduction to Law and Contracts	3
BA-151	Principles of Management	3
BA-155	Principles of Marketing	3
Total Credits		51

<sup>1</sup> May count towards the Core Social Science Requirement.

### Requirements for Finance Major

#### Degree of Bachelor of Science

Three of the required credits for the major count towards the Core Curriculum Requirements.

EC-101	Macroeconomic Principles <sup>1</sup>	3
EC-102	Microeconomic Principles	3
EC-251	Intermediate Microeconomics	3

EC-252	Intermediate Macroeconomics	3
EC-300	Statistics for Business Finance and Economics	3
EC-496	Capstone Seminar (WI)	3
FN-401	Introduction to Corporate Finance <sup>2</sup>	3
or FN-410	Business Finance	
FN-416	Ethics in Financial Professions	3
FN	FN Electives	15
AC-151	Principles of Accounting I	3
AC-152	Principles of Accounting II	3
BL-161	Introduction to Law and Contracts	3
BA-151	Principles of Management	3
BA-155	Principles of Marketing	3
Total Credits		54

<sup>1</sup> May count towards the Core Social Science Requirement.

<sup>2</sup> May choose either FN-401 or FN-410 but not both. Students cannot take both FN-401 and FN-410. Either of these courses can serve as a prerequisite for FN-411.

## Requirements for Mathematical Economics Major

### Degree of Bachelor of Arts

Nine of the required credits for the major count towards the Core Curriculum Requirements.

EC-101	Macroeconomic Principles <sup>1</sup>	3
EC-102	Microeconomic Principles	3
EC-251	Intermediate Microeconomics	3
EC-252	Intermediate Macroeconomics	3
EC-300	Statistics for Business Finance and Economics	3
EC-301	Mathematical Economics	3
EC-302	Elements of Econometrics	3
EC-303	Linear Programming for Economics	3
EC-496	Capstone Seminar (WI)	3
FN-416	Ethics in Financial Professions	3
EC/FN	Economics/Finance Electives <sup>3</sup>	15
MA-123	Elementary Calculus I <sup>2</sup>	3
MA-124	Elementary Calculus II <sup>2</sup>	3
MA-218	Quantitative Methods for Business	3
Total Credits		54

<sup>1</sup> May count towards the Core Social Science Requirement.

<sup>2</sup> May count towards the Core Mathematics Requirement.

<sup>3</sup> May choose either FN-401 or FN-410 but not both. Students cannot take both FN-401 and FN-410. Either of these courses can serve as a prerequisite for FN-411.

## Special Notes on Core Curriculum Requirements for Economics, Finance and Mathematical Economics Majors

<sup>1</sup> It is recommended that Finance majors take CS-150 Introduction to Computers and Information Processing as part of their Core Natural Science Requirement.

- <sup>2</sup> It is recommended that Finance majors take MA-123 and MA-124 Elementary Calculus, I and II, to satisfy the Core Mathematics Requirement (although MA-105 and MA-106 Finite Mathematics, 1 and II, or MA-143 and MA-144 Differential and Integral Calculus, is an acceptable alternative).

### Special Notes on Major Requirements for Economics, Finance and Mathematical Economics Majors

- <sup>1</sup> The upper level required theory courses, EC-251 and EC-252, must be taken at Saint Peter's University.
- <sup>2</sup> No more than three credits of EC-295 can be applied toward the satisfaction of major requirements.
- <sup>3</sup> Finance majors are permitted to also major in Economics. However, no courses counted as upper-level electives in the Finance major can also count as upper-level electives in the Economics major.

### Requirements for a Minor in Economics

EC-101	Macroeconomic Principles	3
EC-102	Microeconomic Principles	3
EC-	Economics Electives: EC/FN- 300-level or above)	12
Total Credits		18

### Requirements for a Minor in Finance

Students may earn a minor in Finance by completing a minimum of 18 credits including EC-101 Macroeconomic Principles, EC-102 Microeconomic Principles and any four FN electives for the major in finance. Economics majors and Economics minors are permitted to minor in Finance. However, with the exception of EC-101 and EC-102, none of the courses taken for the minor in Finance will count towards the completion of the major or minor in Economics.

EC-101	Macroeconomic Principles	3
EC-102	Microeconomic Principles	3
FN	Finance Electives	12
Total Credits		18

# Sports Management Program

Dr. Joseph Gilkey, *Director*

The Sports Management Program offers both a major and a minor in Sports Management and a specialization in Esports.

## Requirements for the Sports Management Major

### Degree of Bachelor of Science

AC-151	Principles of Accounting I	3
BA-151	Principles of Management	3
BA-155	Principles of Marketing	3
BA-249	Sports and Entertainment Marketing	3
BA-315	Business and Professional Communication (WI)	3

EC-102	Microeconomic Principles	3
SM-228	Introduction to Sports Management	3
SM-350	Sport Facility Operation and Event Management	3
SM-410	Legal and Ethical Issues in Sports	3
SM-251	Finance in the Sports Industry	3
SM-250	Sport Communication	3
SM-450	The Global Sports Industry	3
SM-499	Internship	3
Choose 3 from the following courses:		9
PS-445	Sport Psychology	
SO-256	Sociology of Sports	
CU-340	Sportswriting	
PE-103	Principles and Foundations of Physical Education	
PE-202	Fundamentals of Coaching	
Total Credits		51

### Special Notes on Core Curriculum Requirements

- <sup>1</sup> MA-105 Elementary Applied Mathematics and MA-106 Introduction to Probability and Statistics are recommended for the Mathematics Core Requirement.
- <sup>2</sup> SO-121 is recommended as one of the two options for the Social Science Core Requirement, as it is a prerequisite for SO-256.
- <sup>3</sup> PS-151 is recommended as one of the two options for the Natural Science Core Requirement, as it is a prerequisite for PS-445.

## Requirements for a Minor in Sports Management

BA-249	Sports and Entertainment Marketing	3
SM-228	Introduction to Sports Management	3
SM-350	Sport Facility Operation and Event Management	3
SM-410	Legal and Ethical Issues in Sports	3
SM Electives		6

# School of Education

Joseph V. Doria, Jr., Ed.D., *Dean*

Anna Ciciirelli, Ed.D., *Associate Dean*

The Caulfield School of Education offers a major in Elementary Education and a minor in Secondary Education. It also offers various options to become certified in many academic areas. The undergraduate program in Education provides pre-professional training for teaching on the pre-school, elementary, middle school, and secondary school levels.

## General Entry and Exit Requirements

Students seeking admission to the undergraduate programs apply for admission to the Teacher Education Program normally second semester of sophomore year.

Admission criteria include:

- 3.0 minimum grade point average
- successful completion of ED-490: Sophomore Clinical Experience and Seminar
- successful completion of either ED-160 or ED-170/ED-203
- entrance interview and recommendation of School of Education Faculty
- taking and passing the Praxis I Core Exam

Exit requirements include:

- 3.0 minimum overall grade point average
- exit interview conducted in Student Teacher Seminar
- Praxis Exam in the specialized area that the student wishes to be certified in

## New Jersey Certification Requirements

**Elementary School Teacher certification requires students to complete:**

- core curriculum requirements (minimum of 60 credits in liberal arts)
- coherent sequence and major in Elementary Education<sup>2</sup>
- required passing of Praxis I and Praxis II exams<sup>1</sup>

**Middle School Teacher certification requires students to complete:**

- core curriculum requirements (minimum of 60 credits in liberal arts)
- coherent sequence and major in Elementary Education
- 15 credits in approved program in each subject endorsed on the middle school level; the credits may be included in the academic major, core curriculum or electives
- required passing of Praxis I and Praxis II exams<sup>1</sup>

**Secondary School certification requires students to complete:**

- core curriculum requirements
- academic major (minimum of 30 credits in subject area to be taught) and minor in Secondary Education
- required passing of Praxis I and Praxis II exams<sup>1</sup>

<sup>1</sup> Note: All students will be required to take and pass the Praxis exam before being permitted to student teach.

<sup>2</sup> Elementary Education majors can also take required courses for Pre-School-3 Certification.

## Areas Of Certification

### Elementary Education Program

- Elementary Classroom Teacher (K-6)
- Pre-School-3 Certification

**Elementary Education Program with Middle School Certification** (15 credits are required in subject area for middle school certification. Core courses can be included in the 15 credits.)

- Teacher of Middle School Science
- Teacher of Middle School English
- Teacher of Middle School Social Studies
- Teacher of Middle School Mathematics

**Secondary Education Program with Subject Area Endorsements**

- Teacher of Art
- Teacher of Comprehensive Business
- Teacher of Biological Science
- Teacher of Mathematics
- Teacher of General Business
- Teacher of Physical Science
- Teacher of English
- Teacher of French
- Teacher of Italian
- Teacher of Spanish
- Teacher of Social Studies
- Teacher of History
- Teacher of Chemistry
- Teacher of Physics
- Teacher of Physical Education
- Teacher of Health
- Teacher of Physical Education and Health

## Elementary and Secondary Programs

Dr. Jennifer Ayala, *Director*

### MAJOR AND MINOR REQUIREMENTS

#### Requirements for Elementary Education Major (Grades K - 6 and Pre-School-3)

##### Degree of Bachelor of Arts

All Elementary Education students who wish to receive a State of New Jersey Teaching Certificate (K-6) will also take the courses necessary to be certified as Pre-School-3 teachers. Elementary Education students must complete the following courses. Students who wish to take a course out of sequence should check with their departmental advisor.

##### Sophomore Year (7 credits)

ED-160	Education and Schooling in a Multicultural Society	3
ED-170	Child and Adolescent Psychology	3
ED-490	Clinical Experience I	1
or EP-490	Clinical Experience I: Early Childhood and Elementary Settings	

##### Junior Year (16 credits)

EE-202	Elementary Curriculum	3
EE-204	Using Technology in Elementary Language Arts	3
EE-206	Teaching Reading in the Elementary School	3
EE-212	Methods of Teaching Mathematics in the Elementary School	3
EE-214	Teaching Science in the Elementary School Using Technology	3
ED-491	Clinical Experience II	2
or EP-491	Clinical Experience II: Early Childhood and Elementary Settings	

##### Senior Year (14 credits)

ED-301	Assessment	3
ED-493	Practicum in Reading	3
EE-495	Student Teaching: Elementary	8

Total Credits		38
---------------	--	----

#### Courses required for P-3 Certification

##### Courses Required P-3 Certification

ED-201	Fundamentals of Speech	3
EP-201	Child Development in the Early Years	3
EP-202	Developing Home, School and Family Partnerships	3
EP-301	Introduction to Special Education	3
EP-302	Fundamentals of Methodology, Curriculum and Assessment in the Elementary/ Early Childhood Classroom	3

#### Requirements for Elementary Education Major (Grades Kindergarten to 6) with Middle School Certification (Grades 6 to 8)

##### Degree of Bachelor of Arts

All Elementary Education students who wish to receive a middle school teaching certificate are required to follow the educational sequence outlined above for Elementary Education majors. In order to receive Middle School Certification, the student must take a sequence of courses (15 credits minimum) in the area in which they wish to teach. Students also need to successfully pass the Praxis II exam in the subject area in which they wish to teach.

## Special Notes on Core Curriculum Requirements for Elementary Education Majors

- <sup>1</sup> The recommended Mathematics Core Requirement is MA-108/MA-109 Math for Educators, I and II or MA-105/MA-106 or MA-102/MA-103.
- <sup>2</sup> CS-150 Introduction to Computers and Information Processing is recommended as part of the Core Natural Science Requirement.

## Requirements for a Minor in Secondary Education

Since for Secondary Education students the academic major is also specific preparation for the subject teaching certificate, the student must choose an academic major that is taught at the high school level. In addition to an advisor from the department of the academic major, all Secondary Education minors must confer with an advisor in the School of Education and declare Secondary Education as a minor. Secondary Education minors must complete the following 25 credits:

ED-160	Education and Schooling in a Multicultural Society	3
ED-203	Educational Psychology (or with permission ED-170)	3
ED-490	Clinical Experience I	1
ED-491	Clinical Experience II	2
ED-492	Clinical Practice I and Seminar in an Elementary, Middle or Secondary Setting	3
EP-301	Introduction to Special Education	3
SE-370	Improvement of Reading in the Secondary Schools Using Technology	3
SE-400	Principles and Techniques of Instruction in the Middle and Secondary School	3
SE-408	Principles of High School Curriculum	3
SE-495	Student Teaching: Secondary	8
Total Credits		32

## Elementary Education and Pre-School-3 Program

Elementary Education Majors with a concentration in Pre-School-3 is a program designed to prepare individuals seeking to become teachers in grades preschool through six. Individuals completing this program sequence will be able to apply for both a K-6 certification and a P-3 certification. The program's course sequence provides individuals with the ability to provide expertise in creating developmentally appropriate learning environments, designing curriculum, learn how children develop and learn, and develop the skills and knowledge to inspire lifelong learning.

### Sophomore Year (7 credits)

ED-160	Education and Schooling in a Multicultural Society	3
ED-170	Child and Adolescent Psychology	3
ED-490	Clinical Experience I	1

### Junior Year (26 credits)

EP-201	Child Development in the Early Years	3
EP-202	Developing Home, School and Family Partnerships	3
EP-302	Fundamentals of Methodology, Curriculum and Assessment in the Elementary/ Early Childhood Classroom	3
ED-201	Fundamentals of Speech	3
EE-204	Using Technology in Elementary Language Arts	3
EE-206	Teaching Reading in the Elementary School	3
EE-212	Methods of Teaching Mathematics in the Elementary School	3
EE-214	Teaching Science in the Elementary School Using Technology	3
EP-491	Clinical Experience II: Early Childhood and Elementary Settings	2

### Senior Year (17 credits)

ED-301	Assessment	3
EP-301	Introduction to Special Education	3
EP-492	Clinical Practice I and Seminar Experience in Elementary, Middle and Secondary Settings	3
EP-495	Clinical Practice II and Seminar Experience in Early Childhood	8

Total Credits		50

## Health and Physical Education Program

Dr. Jay Garrels, *Director*

These majors are offered through the School of Education.

The Health and Physical Education Program offers a major in Fitness and Wellness, Exercise Science and Teaching to prepare students for employment in a number of venues including commercial fitness, corporate health and fitness, and community recreation and health promotion. Students desiring a teaching certificate in Health and Physical Education will include a series of courses offered through the School of Education in order to teach in the K-12 school environment. These courses would be part of the Minor in Secondary Education.

### **Eligibility for Physical Education and Health Teaching Certification in the State of New Jersey**

A student in this program can be certified to teach in one of three areas: Physical Education and Health, Physical Education, and Health. Applicants must complete a minimum of 30 credits in an area-specific coherent sequence with at least 12 of these credits completed at the advanced level of study.

## School of Nursing

Dr. Lisa Garsman, *Generic B.S.N., Program Director*, Prof. Patricia Ahearn, *R.N. to B.S.N., Program Director*

The School of Nursing offers three distinct programs which lead towards the Bachelor of Science in Nursing (BSN) degree: the Accelerated BSN Program, the Generic BSN Program and a RN to BSN Program.

**Accelerated BSN Program** - offered at the Jersey City Campus. This program is for students who have already earned a bachelor's degree in another discipline but who wish to earn a Bachelor of Science, Nursing degree. The curriculum is designed to prepare nurses with the breadth of knowledge and skills needed for competent, ethical, and empathetic practice. Students are admitted to the Accelerated BSN Program based on criteria found in the Admissions section of this catalog.

**BSN Program** - offered at the Jersey City Campus. Students are not admitted directly into the BSN Program. Students enter the BSN Program at the end of their freshman year, only after successfully completing all requirements for the Pre-Nursing Program. Students apply to the Pre-Nursing Program when they apply for admission to the University. Transfer students should contact Undergraduate Admissions for specific information regarding admission criteria for the nursing major. This program is designed to prepare students who are high school graduates or transfer students from other institutions of higher learning for professional nursing practice. The program of study is based in the liberal arts, sciences and humanities. Students are admitted to the BSN Program at the end of their freshman year after they have successfully completed the Pre-Nursing Program and have met the requirements for admission to the nursing major.

**RN to BSN Program** - offered at the Bergen County Campus. This program is open to any eligible student who already possesses a diploma or associate degree as a registered nurse. This program equips graduates with a breadth of knowledge, skills, and values from both general and professional education. Graduates are prepared for generalist professional practice in a variety of settings and provided with a foundation for graduate education in nursing.

## Accreditation

All BSN Programs at Saint Peter's University are accredited by the New Jersey Board of Nursing and the Commission on Collegiate Nursing Education (CCNE) 655 K Street NW, Suite 750 Washington, DC 20001 [www.aacn.nche.edu/ccne-accreditation](http://www.aacn.nche.edu/ccne-accreditation)

## Accelerated BSN Program

This program is for students who have already attained a bachelor's degree. Offered through the School of Nursing, the curriculum is designed to prepare nurses with the breadth of knowledge and skills needed for competent, ethical, and empathetic practice.

Coursework in the accelerated nursing program is taught by practicing professionals who provide the active knowledge and skills needed to take on the ever changing world of nursing. In tandem with clinical experiences and simulations, students are prepared to meet the needs of their future patients in only 15 months.

## Generic or Basic BSN Program (Jersey City Campus)

### Licensure

The State Board of Nursing determines who is eligible to take the registered nurse licensure examination (NCLEX-RN). Graduation from the Nursing Program satisfies one of the eligibility requirements. Since eligibility criteria vary, applicants should check with the Board of Nursing in the state in which they plan to take the test to determine the eligibility criteria that need to be met.

### Admission to Pre-Nursing Program

Students applying to the University desiring to be nursing majors must meet the admission criteria for the University as well as for the Pre-Nursing Program. Transfer students should contact Undergraduate Admissions for specific information regarding admission criteria for the nursing major.

### Successful Completion of the Pre-Nursing Program

Successful completion of the Pre-Nursing Program is required for entry into the nursing major at the end of the freshman year. Successful completion of the Pre-Nursing Program includes all of the following.

1. The Pre-Nursing Advisor must register students for courses, and students must take the core and prerequisite course sequence as determined by the School of Nursing.
2. During the second semester of the freshman year, students must register for the TEAS examination. Students should consult their program advisor for information about how to register for the TEAS examination.
3. Students may only take the TEAS examination twice, and it is strongly recommended that students remediate/review between attempts.
4. Students must score at least 78% or higher, overall on the TEAS examination. Should the candidate take the examination twice, the higher of the two scores will be considered.
5. A student's grades in both Anatomy and Physiology I and Anatomy and Physiology II must be a B or higher.
6. A student may repeat Anatomy and Physiology I once and Anatomy and Physiology II once. If a student withdraws from one of these courses, it will be considered as the first attempt at taking the particular course.
7. A student's overall GPA for the freshman year must be 3.0 or higher.

Total Credits		68

**Special Note on Core Requirements**

- 1 The Core Curriculum Requirements are the same as those for traditional undergraduate day students.

**Special Notes on Major Requirements**

- 1 To successfully complete the program, all courses required for the nursing major and for the core, must be taken in the sequence given by the School of Nursing.
- 2 To enroll in the first nursing course - , NU-202 Theoretical Bases of Professional Nursing - students MUST be admitted to the School of Nursing as a nursing major. Students must have satisfactorily completed all prerequisites courses and have a minimum of a 3.0 cumulative GPA and a grade of B or higher in BI-171 Anatomy & Physiology I, BI-172 Anatomy and Physiology II. These science courses may be repeated only one time.
- 3 A grade of 78% or higher must be earned in all nursing courses and specified support courses. Any grade below a 78% is considered a failure in nursing courses. Advancement in the nursing curriculum is dependent upon successful completion of prerequisite and co-requisite nursing courses.
- 4 No more than one nursing course may be repeated. If the course is repeated and the grade is below 78%, this is considered a failure for the course and the student will be dismissed from the School of Nursing. The clinical portion of any nursing course is graded on a Pass/Fail basis. If the student fails the clinical component, he or she fails the entire course regardless of the grade average in the didactic component, and a grade of C- will be recorded for the course. Following two nursing course failures, the student will be dismissed from the School of Nursing. The student may remain at Saint Peter's University.
- 5 If a student registers for a nursing course and withdraws from the course at any time, this is considered the student's first attempt at the course and the student will receive a "W" or Withdraw grade. **There is only ONE Withdrawal from a nursing course allowed in the entirety of the program.**
- 6 All nursing courses must be taken in sequence with a satisfactory grade of 78% or higher earned before continuing with the next nursing course.
- 7 Applicants who have taken the courses Anatomy and Physiology I, Anatomy and Physiology II, and Microbiology more than five years prior to the time the nursing course sequence begins must repeat these required science courses.
- 8 All students must take the Summative Examination (ATI Comprehensive or similar comprehensive examination), administered in the last clinical nursing course. This examination will additionally factor as 10% of the final grade for the course. Students who do not meet the program benchmark are required to take a retake of the Comprehensive ATI Exam.

**Program Length**

The BSN (generic) program can be completed in four years (or eight semesters) of full-time study. Students must complete the program within six consecutive calendar years. Required science courses must be repeated once they are five years or older.

**Clinical Requirements**

All clinical requirements must be satisfactorily completed before students will be allowed into any clinical setting. At present, they include the following but are subject to change depending on regulations mandated by the clinical agencies and/or their accrediting bodies.

**Immunizations/Vaccinations and Titers**

1. All incoming nursing students need to have completed a series of immunizations/vaccinations. Students will be required to have titers drawn to validate the vaccines received and show proof of immunity in numerical values.

Should any student's titer show lack of immunity, the student is required to receive the specific vaccination for the corresponding low or negative titer result and re-test titer value's/immunity four weeks or more post vaccine administration.

## Required Titers

- Hepatitis B series of 3 shots for low or negative titers 1 month apart between the first & second, and five months apart between the second and the third.
- Varicella (chicken pox): 2 shots for low or negative titers 1 month apart.
- MMR (Measles, Mumps & Rubella): 2 shots for low or negative titers 1 month apart.
- Polio titers are required if there is no proof of vaccination.
- Tdap vaccine is required within the past five years. There is no titer requirement for this vaccine.
- 2-Step TB Mantoux skin test within the past six months; if TB test is positive a Chest X-Ray is required indicating tuberculosis clearance. Note: the 2-Step Mantoux test for TB should be done first prior to initiating an MMR vaccination.

2. Health Examination - All nursing students must submit a completed copy of the BSN Health Profile. Applicants to the nursing major must be aware that health clearance will be required prior to the start of every clinical nursing course. Health Profiles are valid for one year. The Health Profile form is available in the School of Nursing Office.

3. Liability Insurance - All students enrolled in clinical nursing courses must also provide evidence of liability insurance. Application forms and information can be obtained from the School of Nursing. Students are responsible for the cost.

4. CPR Certification - All students enrolled in clinical nursing courses must provide evidence of American Heart Association CPR Certification for infant, child and adult, and BLS for Health Care Providers. Students are responsible for the cost.

5. Criminal Background Checks & Drug Screening through verified Credentials Scholar - Clinical agencies mandate criminal history background checks and drug testing for all individuals engaged in patient care and all students must undergo these checks. These checks are conducted by a consumer reporting agency and the information is sent to the University and to clinical agencies. Agency personnel will evaluate the information they receive and, in their sole discretion, make the final determination as to each student's ability to continue to engage in patient care in their agency. If a student is denied clinical placement by any clinical agency due to criminal history information or a positive result on the drug testing that student will be dismissed from the program.

6. Clinical Experiences - Clinical experiences may be scheduled during days, evening, and weekends. Students need to be prepared to travel out of the Jersey City area for clinical experiences. Students are required to attend as assigned. Clinical experiences also occur in a variety of settings that require students to travel within and beyond the campus area. Students are expected to adjust personal, family and work schedules to meet clinical assignments.

## Clinical Attire and Transportation

All students must adhere to the uniform and equipment policies for all nursing clinical agencies. Students must purchase and wear the official Saint Peter's University Nursing Students' Uniform from the approved vendor. Information can be obtained from the Director of the BSN Program. Students are responsible for providing their own transportation to and from clinical sites.

## Special Notes on Major Requirements

- <sup>1</sup> Applicants wanting to major in nursing will have up to 30 credits in basic nursing transferred in to satisfy the lower division nursing requirement. These credits will be transferred in from diploma and associate degree nursing programs accredited by the National League for Nursing Accrediting Commission or CCNE upon successful matriculation into the Bachelor of Science in Nursing Program.
- <sup>2</sup> Applicants who have earned their nursing diploma and/or degree from institutions outside the United States must submit official course by course Degree Evaluations (with an English translation). **The BSN program will only accept evaluations prepared by the World Education Service, Inc. (WES).** The 30 credits in basic nursing will be transferred in upon successful matriculation into the BSN Program
- <sup>3</sup> The required science courses, regardless of date taken, may be transferred as long as they were taken for college credit and grades of at least a C earned for these courses.
- <sup>4</sup> A grade of 78 is required in all nursing courses. Any nursing course in which the grade is below 78 must be repeated. If the course is repeated and the grade is below 78, this will be considered a failure for the course and the student will be dismissed from the program. Failure of a second nursing course will result in dismissal from the program. The clinical practica of nursing courses are graded on a Pass/Fail basis. If the student fails the clinical component, he or she fails the entire course regardless of the grade average in the didactic component and a grade of C- will be recorded on the student's transcript.
- <sup>5</sup> If a student enrolls in a nursing course and withdraws, this will count as the first attempt in the nursing course and the student must achieve a grade of 78 or higher the next time the student enrolls for that same course.
- <sup>6</sup> The theoretical application for upper division nursing courses have assignments that are incorporated into the grading for the course. Assignments may include but are not limited to: change projects for the specific unit following an assessment of that environment; observation of family dynamics with resulting diagnoses and plan for appropriate interventions with evaluation; and windshield survey with community education project and followup to name just a few examples.

## Clinical Requirements

All clinical requirements must be satisfactorily completed before students will be allowed into any application / observation setting. At present, they include the following but are subject to change depending on regulations mandated by the agencies and/or their accrediting bodies. All documents must be uploaded into the student's TAbb, Inc account.

- <sup>1</sup> **Current NJ Nursing License or license in state of residence for online students**
- <sup>2</sup> **Actual titer reports** for rubella, rubeola, varicella, mumps showing immunity.
- <sup>3</sup> Proof of Hepatitis B immunity, vaccine (strongly recommended), or signed waiver.
- <sup>4</sup> Negative 2 step negative tuberculosis test within the past 6 months or if positive Mantoux history, chest x-ray negative for tuberculosis within one (1) year.
- <sup>5</sup> **Health Examination** - All nursing students must submit a completed copy of the BSN Health Profile. Applicants to the nursing major must be aware that health clearance will be required prior to the start of every clinical nursing course. Health Profiles are valid for one year. The Health Profile form is available in the School of Nursing Office.

- 6     **Liability Insurance** - All students enrolled in clinical nursing courses must also provide evidence of liability insurance. Application forms and information can be obtained from the School of Nursing. Coverage in the amount of \$1,000,000.00/\$6,000,000.00 required.
- 7     **CPR Certification** - All students enrolled in clinical nursing courses must provide evidence of American Heart Association CPR Certification for infant, child and adult, BLS for Health Care Providers.
- 8     **Criminal Background Checks** - Clinical agencies mandate criminal history background checks for all individuals engaged in patient care and all students must undergo these checks. (Nursing students with a valid NJ Nursing License are not required to undergo additional drug testing.) These checks are conducted by a consumer reporting agency and the information is sent to the University and to clinical agencies. Agency personnel will evaluate the information they receive and, in their sole discretion, make the final determination as to each student's ability to continue to engage in patient care in their agency. If a student is denied clinical placement by any clinical agency due to criminal history that student will be dismissed from the program.
- 9     **Annual flu shot.**
- 10    **Clinical Experiences** - The time, place, and nature of theoretical application varies depending on the learning outcomes of the specific class and student interest. Students are expected to arrange their own transportation for these learning experiences. Some may be scheduled as a result of external determinants and students may need to be flexible with their own time commitments.

# School of Professional & Continuing Studies

## Welcome

Welcome to the School of Professional and Continuing Studies (SPCS). We serve students who are seeking:

- **Degree Completion.** Get a valuable University degree which capitalizes on qualified prior earned credits.
- **Knowledge.** Advance your career and improve your understanding of the world.
- **Values.** Gain new understanding of the Jesuit tradition of integrity and service.

The mission of SPCS is to provide a quality education based on Jesuit values and ideals to new and returning adult students. The curriculum and the calendar reflect contemporary theory and research on best practices for fostering adult learning.

The School of Professional and Continuing Studies offers the following degrees: Bachelor of Science in Business Administration (BSBA) with concentrations in Accounting, Business Management, Digital Marketing and Social Media, Healthcare Management, Human Resources Management and Sport, Event and Hospitality Management, Bachelor of Professional Studies (BPS) with Humanities, General Studies, Social Science, Organizational Leadership and Cyber Security concentrations, Bachelor of Arts in Criminal Justice or Education, and Bachelor of Science in Urban Studies. In conjunction with the School of Nursing we also offer an RN-BSN degree for nurses, in either an express track or online format. Minors are available for students seeking Bachelor of Science, Bachelor of Professional Studies, and Bachelor of Arts degrees. We offer associate degree options as well and a variety of 12 credit certificate programs.

SPCS courses are delivered in adult-friendly eight-week sessions, using a hybrid or blended learning format which combines face-to-face instruction with a distance learning component. We also offer a variety of totally online courses.

## Convenient Locations

Saint Peter's University offers undergraduate adult programs at: Jersey City (Kennedy Boulevard) and selected corporate facilities.

## Admissions Information

Applicants seeking admission to the School of Professional and Continuing Studies should send an inquiry from our website, including an email address and telephone number, or you may click here to access our online application. (<http://www.saintpeters.edu/adult-undergraduate-admission/admission-application/>) An official transcript from each college or university attended should be sent to the school, although admissions decisions may be based on unofficial transcripts. Saint Peter's University will evaluate transfer credit based on official transcripts, and may waive or award credit for prior higher education, up to 66 credits from a two-year college and 90 credits from a four-year regionally accredited college. A minimum of one-half of the credits to be applied to any major or minor and the last 30 credits must be taken at Saint Peter's.

## Alternative Approaches to Earning College Credit

Adult students enrolled in the School of Professional and Continuing Studies may also qualify for up to 15 credits through each of the following programs:

- College Level Examination Program (CLEP)
- Prior Learning Experience

## Alpha Sigma Lambda, The National Honor Society for Adult Students

The School of Professional and Continuing Studies sponsors a chapter of Alpha Sigma Lambda, the national honor society for adult students. Membership in the Psi Sigma Psi chapter is open to any student who has completed at least twenty-four credits in residency at Saint Peter's, maintained at least a 3.2 overall GPA, and is in the top 20% of all SPCS students. Inductions into Alpha Sigma Lambda occur annually during the fall semester at the SPCS Michaelmas ceremony. Students who attended SPCS in the prior academic year are considered and invited to apply.

# Business Administration (BSBA)

## Bachelor's Degree Programs

### Bachelor of Science in Business Administration

The BSBA was developed to afford busy adults a degree option that would recognize the full range of their abilities in a convenient and flexible format. In addition to completing the general curriculum core, all BSBA candidates must complete a business core and a concentration in either accountancy, management or healthcare management.

In addition to the core curriculum requirements, BSBA students must complete the business core courses and concentration courses as detailed on the following pages. All students are required to take 120 credits to meet graduation requirements.

### Business Core Requirements

All BSBA majors will take a core of business courses. These courses are the common subjects that differentiate a business degree from other degree programs. The following is a list of these courses.

BA-155	Principles of Marketing	3
BA-151	Principles of Management	3
AC-151	Principles of Accounting I	3
AC-152	Principles of Accounting II	3
BL-161	Introduction to Law and Contracts	3
EC-101	Macroeconomic Principles	3
EC-102	Microeconomic Principles	3
EC-300	Statistics for Business Finance and Economics	3
FN-410	Business Finance (required for accounting majors)	3
or FN-401	Introduction to Corporate Finance	
BA-465	Executive Seminar	3
Total Credits		30

### Special Note on Core Curriculum

Students in the BSBA programs are encouraged to take CS-150 as part of their natural science requirement.

### Requirements for Bachelor of Science in Business Administration Concentration in Accounting

Business Core		30
AC-331	Intermediate Accounting Theory I	3
AC-332	Intermediate Accounting Theory II	3
AC-341	Advanced Accounting Theory	3
AC-443	Cost Accounting	3
AC-444	Auditing Principles	3
AC-455	Taxation	3
BA-325	Ethics: Business and Economic Community	3
BA-458	Business Strategy	3
BL-162	Agency and Business Organization	3
FN-411	Financial Management	3
Business Elective		3
Total Credits		63

### Special Note on Core Curriculum Requirements

The Department of Accountancy strongly recommends MA-123 Elementary Calculus I as the core mathematics requirement for accountancy majors, but will accept MA-106 Introduction to Probability and Statistics. Neither math course may be taken on a Pass/Fail basis.

### Special Note on Major Requirements

In order to satisfy some of the requirements needed to sit for the CPA Examination in the State of New Jersey, nine business elective credits must be completed. Business electives may be selected from courses in accountancy, business law, data processing, and management/marketing. In addition, New York State requires statistics (3 credits). Students who expect to sit for the CPA Examination in another state should verify the specific academic requirements of that state.

## General Information

This section contains information related to recognition of student achievement, admission requirements and procedures, student financial aid, and tuition and fees.

# Recognition of Student Achievement

## Graduation Honors

To be eligible for Bachelor's degrees with distinction, students must be in attendance at the University for three years and must have attempted a minimum of 69 credits at Saint Peter's University, exclusive of Pass/Fail, Prior Learning credits, and CLEP credits; that is, those credits not formally taken at the University for grades. Transfer students must be in attendance for at least two years and earn at least 42 credits at Saint Peter's University. Such distinctions are based on the student's cumulative GPA for the entire academic record. These honors are noted on the student's diploma and transcript. The following minimum GPAs are required for the honors indicated:

3.8 *summa cum laude*

3.7 *magna cum laude*

3.6 *cum laude*

Candidates for the degree of Bachelor of Science in Nursing (RN to BSN Program) may graduate with honors if they have been in attendance at the University for two years and if they have earned a minimum of 39 credits in Saint Peter's University courses with grades other than Pass/Fail. Of these 39 credits, a minimum of 18 must be in nursing courses, exclusive of Pass/Fail.

Candidates for the Bachelor's degree who have transferred to Saint Peter's University with an Associate's degree may graduate with honors if they have been in attendance at the University for at least two years and if they have earned a minimum of 42 credits in Saint Peter's University other than Pass/Fail.

Candidates for the Associate's degree may graduate with honors (*cum laude*) if they have earned a minimum of 30 credits at Saint Peter's University, exclusive of Pass/Fail, Prior Learning credits, CLEP credits, that is, those credits not formally taken at the University for credit, and if they have a cumulative GPA of 3.6 for the entire academic record.

## Honors for Scholarship Achievement

### Deans' List

In recognition of academic excellence, selected students are named to the Dean's List. The Dean's List is named at the end of each fall and spring term. Fully-admitted degree-seeking students are eligible for consideration if they have earned a GPA of at least 3.5 for the term. To qualify, traditional day students must complete 12 semester credits and SPCS students must complete six credits in at least one eight-week term within the semester (exclusive of Pass/Fail and developmental courses). Students who receive a grade less than C or a grade of FA will not be eligible for that term. Students with any incomplete or in-progress grades are not eligible until all courses are completed. A notation will be made on the student's academic transcript each time the Dean's List honor is achieved.

### Michaelmas Awards

Each year Saint Peter's University recognizes the academic achievements of students at the Michaelmas Convocation. The honorees at Michaelmas include students who have been named to the Dean's List, those who have been awarded Excellence Medals, and seniors whose academic rank in class qualifies them for admission to the Most Noble Order of the Peacock (MNOP). In identifying award recipients for the annual Michaelmas Convocation (Deans' List, Excellence Medals, MNOP Award), credits earned and grade point averages will be based only on data received in the Registrar's Office by the July 1 immediately preceding the Convocation. The Academic Year refers to the fall and spring Semesters in the traditional day student program and the fall and spring eight-week term within a semester in SPCS. Credits must be earned at Saint Peter's University or in Saint Peter's University sponsored programs. Pass/Fail and developmental courses may not be included in calculating eligibility for the Dean's List.

### Excellence Medals

Gold Medals for first honors and Silver Medals for second honors are awarded to the students who have the highest and the second highest academic average for the past academic year. In determining these awards, students are divided according to year, i.e., Senior, Junior, Sophomore, Freshman. They are also divided according to school (College of Arts and Sciences, School of Business Administration, School of Education, School of Nursing, and School of Professional & Continuing Studies). Eligibility requirements for these medals include earning a minimum of 24 credits during the previous academic year for a traditional day student, or 18 credits for a SPCS student. To be eligible to receive a Senior,

Junior, Sophomore or Freshman award, a student, full-time or part-time, must have earned by the end of that year the following total number of credits:

<b>Award</b>	<b>Credits</b>
Senior award	120 credits
Junior award	90 credits
Sophomore award	60 credits
Freshman award	30 credits

## Most Noble Order of the Peacock

The 10 seniors, excluding those from SPCS, who have the highest academic averages are admitted to the Most Noble Order of the Peacock, the University's oldest scholarship organization. To qualify as an eligible senior, a student must have earned a total of 90 credits towards graduation by the preceding July 1. At least 80 of these credits must have been completed at Saint Peter's University, or in Saint Peter's University sponsored programs, exclusive of Pass/Fail courses.

## Commencement Awards

Awards are presented each year to graduating seniors who have distinguished themselves in various disciplines. These awards are presented at the Commencement exercises and are noted in the Commencement program.

In addition to discipline-specific awards, awards are given to students based on the division in which their discipline resides and according to the school from which the student is graduating. The University also recognizes a Valedictorian each year as the undergraduate CAS, SBA, SON or SOE student with the highest GPA for courses taken at the University exclusive of Pass/Fail, Prior Learning credits, CLEP credits, or other courses not formally taken at the University for grades. When deciding among students of roughly comparable academic performance, preference may be given to the student who has taken the most credits at the University.

## Honor Societies

### Alpha Sigma Nu

The national honor society of Jesuit colleges and universities is open to juniors and seniors selected on the basis of academic excellence, service to the University and the community, and loyalty to the Jesuit ideal of education. Membership is limited to 4% of a given class. Students must have a minimum cumulative average of 3.5.

Saint Peter's University has chapters of national honor societies which recognize academic achievements in specific fields or disciplines. Students may obtain more information about eligibility requirements from the appropriate department chairperson. The societies and sponsoring departments or programs are as follows:

**Beta Beta Beta** Biology

**Sigma Beta Delta** Business Administration

**Gamma Sigma Epsilon** Chemistry

**Eta Sigma Phi** Classics

**Upsilon Pi Epsilon** Computer and Information Sciences

**Alpha Phi Sigma** Criminal Justice

**Omicron Delta Epsilon** Economics

**Kappa Delta Pi** Education

**Phi Sigma Tau** Philosophy

**Sigma Pi Sigma** Physics

**Pi Sigma Alpha** Political Science

**Psi Chi** Psychology

**Alpha Kappa Delta** Sociology/Urban Studies/Public Policy

**Theta Alpha Kappa** Theology

**Chi Alpha Epsilon** EOF

## **Honors for Activity Achievement**

### **Order of the Cross Keys**

The Order of the Cross Keys is an honor association of outstanding well-rounded students in the traditional day program. The selection committee chooses new members on the basis of academic achievement, superior service to the University community, and character. The committee also selects each year, one faculty member, one staff member, and one administrator for honorary membership in this association. These new members are inducted on the basis of their superior service to the student body and the University community.

## Admissions

In compliance with relevant federal and state civil-rights legislation, Saint Peter's university does not discriminate on the basis of race, creed, religion, color, national origin, nationality, ancestry, sex/gender (including pregnancy), age (except where gender or age is a bona fide occupational qualification), affectional or sexual orientation, marital status, civil union status, familial status, domestic partnership status, gender identity or expression, atypical hereditary cellular or blood trait, genetic information, liability for service in the Armed Forces of the United States, or disability in the operation of its educational programs and activities (admission, scholarships and loan awards, access to programs and course offerings, competitive and intramural athletics, counseling, student and other employment, use of facilities, and campus sponsored extracurricular activities).

### Admission of Freshmen or First-time University Students

**Caulfield School of Education, College of Arts and Sciences, Frank J. Guarini School of Business, and School of Nursing**

Admission to Saint Peter's University is based upon the student's demonstrated academic performance, academic preparation, and potential for success in college-level study. Each application is reviewed on an individual basis. Students are expected to be academically prepared for University study.

Completed applications are reviewed, in general, on a rolling basis beginning in September for the spring semester and in November for the fall semester. In some cases, applicants will be held for further evaluation with a faculty review committee. If students have not sent a complete application, the incomplete application will be held until all the necessary documents are received. Finally, some applicants may be required to submit additional information to help with a holistic evaluation; additional materials may include: updated SAT/ACT test scores, senior year grades, or an additional recommendation or personal statement.

Saint Peter's University recognizes and considers students' academic rigor as an important aspect of the admission review process. Students enrolled in Accelerated Honors, Advanced Placement or International Baccalaureate courses, or completing college-level courses through Dual Enrolled programs will be given the appropriate weight for admission consideration. The Admission Office will only consider college-prep course work in the academic areas listed below. Non-dogmatic religion courses, art and music courses will be considered as part of a dynamic Liberal Arts college preparatory curriculum.

#### **Application Type:**

##### **Applicants are considered as a Freshman applicant if:**

- student is graduating high school in the same year they intend to enroll at the University AND have less than 12 transferable college credits
- or if student is transferring from a post-secondary institution with less than 12 transferable college credits
- or if student has completed high school, in a year other than year of entry, but did not previously enroll and/or attempt post-secondary education.

Saint Peter's University requires freshmen candidates to have the following college preparatory academic units:

- four years of English
- three years of college prep math (Algebra, Geometry, Trigonometry required; pre-nursing students are required to have four years of college prep math,
- two years of history; three total social studies
- two years of a foreign language
- three years of science (two of which should be lab sciences.)\*
- Pre-nursing students must have the following science courses: laboratory based biology, laboratory based chemistry, physical science (i.e. Earth Science), any advance level science (physics, anatomy and physiology, Honors/AP level of previously taken science), and
- three (minimally) additional units in any combination of the subject areas listed above.

In exceptional cases, the Committee of Admissions may waive certain unit requirements when the quality of the applicant's overall record shows promise of success in college-level study.

NOTE: High school elective coursework, and non-college prep coursework, will be considered in the overall admission decision but may not be calculated in the cumulative GPA considered for admission.

To satisfy general admissions requirements, the complete freshman application file must include:

- a completed application (online or paper based form)
- an official high school transcript, recommend including senior year grades (official college transcript for any college-level course work attempted and/or completed). Applicants who have completed General Education Diploma must have official test results sent along with documentation of any high school attempted/completed
- official SAT or ACT test scores (see information about test optional policy below)\*; test of English proficiency may be required for some students who have been studying in the U.S. for less than two years and for whom English is not the first language or spoken at home
- two letters of recommendation (school counselor form and a teacher recommendation)
- personal statement (written statement)

The above may be waived at the discretion, or direction, of the Vice President of Enrollment Management and Marketing or Executive Director of Admissions (or equivalent leadership title.) However, omission of any of the above information may have an impact on admission.

Freshmen applicants interested in the **Bachelor of Science in Nursing** must apply to the one-year pre-nursing track. Candidates will be evaluated based on the above and the following additional criteria:

- minimum of two college-prep lab based sciences (Biology and Chemistry) and a total of three years of college preparatory science; four years of college preparatory science strongly recommended
- minimum of three years of college preparatory math (Algebra I and II, Geometry) and a fourth year of college preparatory math strongly recommended
- selective consideration is based on overall cumulative grade point average, but student performance in the math and sciences is reviewed independently; a cumulative GPA of 3.0 strongly preferred
- SAT or ACT test scores (required; students not eligible to apply as "Test Optional"\*)

\*Students applying for fall 2021 may be granted alternate options for SAT/ACT test due to the absence of national standardized tests.

Students not meeting these criteria will be evaluated but not meeting these criteria may have an impact on student preparedness, thus admission to the Pre-nursing program. Applicants not meeting the criteria for Pre-nursing may be offered admission into alternative choice major, or offered admission to an Alternative Admission Program; students offered admission to another program will not be eligible to enroll in the Nursing program as an internal transfer. Transferring to the second year of the Nursing program (first year of the BSN) is not possible if enrolled in another program of study at Saint Peter's University.

Students admitted upon review of application to the Pre-nursing program will be required to meet first-year progression criteria in order to continue to the second year Nursing program. Advancement to the sophomore year, and the BSN degree program is not a guarantee. (See School of Nursing section of the catalog for progression requirements.)

### Test Optional Policy

For admission to Saint Peter's University, an undergraduate freshman applicant is not required to take a standardized test. Our test-optional admission policy enables undergraduate, first-year applicants to choose to not submit SAT or ACT scores with their application. Students who elect to apply to the University without submitting either a SAT or ACT score report will be evaluated on other factors including: academic achievement, academic rigor, motivation, and potential for success at the collegiate level.

A specific cohort of programs and scholarship applications will still require students to submit SAT/ACT scores for consideration. The programs and scholarships include:

- Pre-nursing

- Honors Program
- Candidates for high merit scholarships
- Educational Opportunity Fund (EOF) applicants (scores required for EOF review not admission to University)
- Division I athletes (please submit scores to NCAA Clearinghouse)
- Home-schooled students

Saint Peter's does not require submission of standardized test scores as part of the admission decision process but may request students' scores for other enrollment needs. If a student chooses to enroll at Saint Peter's and took the SAT/ACT, the University will ask for the test scores to be submitted. The scores will only be used for placement testing and to study the success of the test-optional policy. If a student did not take the SAT/ACT tests, he/she will be required to take all placement exams issued by the University when preparing to enroll.

### **Accelerated BSN Program**

The Accelerated BSN program is offered to candidates holding a Bachelor degree (degree must be conferred prior to enrolling) in another discipline but who wish to earn a Bachelor of Science, Nursing degree. This program is designed as a cohort based program, 15 months continuous enrollment (fall-spring-summer-fall) to completion. Fall term admission only.

### **Application Requirements**

    - Sociology – Principles of Sociology
- Admissions deposit and enrollment commitment.

\*Provisional admission decision can be may be processed using unofficial copies of transcripts, but official versions must be received in order to be fully admitted to the program

## **Alternative Admission Programs and Transition to College Opportunities**

### **Early Admissions**

In exceptional cases, students who have met the requirements for earning their high school diploma upon completion of the junior year of high school may apply for admission. Students must submit a letter of support from their parental guardian and from either their high school principal or guidance counselor. Students interested in Early Admission may be required to meet for an interview prior to the final admission decision.

### **Academic Success Program (ASP)**

ASP is designed to give students who do not meet the general admissions criteria previously outlined, but show great promise for success with college-level work. Students are admitted to the University and specifically to the Academic Success Program. Students are invited to a pre-college Summer Academy, in an effort to introduce students to college success skills. This program is not credit-bearing. In addition to the benefits of Summer Academy, students are enrolled in ASP sections of core Liberal Arts classes and participate in supplementary mentoring and study skills sessions. Upon successful completion of the first year, students will complete the Academic Success Program and receive advising for transition into an academic degree program. Students are not eligible to transition into the BSN program.

### **Educational Opportunity Fund Program (EOF)**

The program offers access to higher education to students who meet the academic and financial guidelines established by the State of New Jersey and Saint Peter's University. Eligible students will receive financial and academic support services. Students are required to attend a summer program prior to their first semester as full-time freshmen. Students will have the opportunity to earn three (3) college credits during this time. Interested applicants must be New Jersey residents and should apply first for admission to Saint Peter's University through the Office of Admissions. Students admitted to Saint Peter's will then apply to EOF. Admission to the University does not guarantee admission to EOF.

### **TRIO (SSS) E.D.G.E. at Saint Peter's University**

The Student Support Services (SSS) at Saint Peter's helps low-income and first-generation students to stay in college until they earn their Bachelor degrees. The program also serves students who are disabled. All students receive tutoring; counseling and if needed remedial instruction. TRIO (SSS) offers participants a comprehensive four-year program, entitled the E.D.G.E. (Engage, Discover, Gain Experience, Excel), that features results-oriented services and activities to help increase retention and graduation rates.

### **Accelerated College Experience (ACE)**

ACE is designed to enrich the educational development of academically talented high school juniors and seniors by offering these students the unique opportunity to earn up to 12 college credits for advanced course work completed at their high schools. Saint Peter's University has evaluated select courses in certain high schools and has approved the faculty, syllabi, and textbooks for college credit. All high school teachers participating in ACE have earned advanced degrees and have received special adjunct faculty status from the University for this program. To inquire whether your school participates or to recommend your school join the ACE program connect with your Guidance Office.

## **Admission of Transfer Students**

Students who have attended regionally-accredited two-year or four-year colleges or universities may apply to the University as transfer students. In order to qualify for advanced standing, applicants must have a cumulative GPA of 2.0 or better. However, admission is selective and the quality of previous college-level work attempted and completed will be taken into consideration for the final admission decision.

In some cases, transfer candidates may be invited to an Alternative Admission Program, like Academic Success Program in order to meet the academic standards and expectations for success in their intended program of study. In these cases, students will be required to complete the Summer Academy and meet all satisfactory academic progress requirements.

Transfer credit is granted for all previous college-level courses corresponding to courses offered at Saint Peter's University for which a minimum grade of C was earned. Additionally, other types of advanced credit like Advanced Placement and CLEP will be reviewed for possible credit equivalency. All final decisions regarding course equivalencies and credit transfer are made by the appropriate dean of the school or college the student is applying to within the University.

The maximum number of credits a student may transfer from a two-year college is 66 credits. Upper-division courses (numbered 300 and above) may not be taken at a two-year college. The maximum number of credits that may transfer from a four-year institution is 90. The last 30 credits of the degree must be completed at Saint Peter's University. In addition, at least one-half of the major and minor credits must be completed at Saint Peter's. Credit

courses from institutions with other than regional accreditation are evaluated on a case-by-case basis. Credit may be awarded according to recommendation of the American Council on Education.

### **Application Type:**

Applicants are considered transfer students if:

- students previously and/or currently enrolled, part-time or full-time, in community college, college, or university with 12 or more transferable credits
- or students who have previously completed an Associate's degree at a regionally accredited college or university
- or students who have previously completed a Bachelor's degree and are applying to the Bachelor of Science in Nursing program

Candidates applying for admission to the University with advanced standing must submit:

- an official application
- official transcripts of all previous college work from each institution attended
- course descriptions may be required for course evaluation
- students with fewer than 12 transferable credits are required to submit an official high school transcript and SAT or ACT test scores. (students who have not previously taken standardized test scores or test scores five years or older will not be required but may be required to submit a personal statement.)

### **Transfer Admission to the BSN Nursing Students**

Transfer applicants wishing to be considered for the generic BSN Nursing Program are selected based on a combination of criteria including, but not limited to, pre-requisite course work, academic performance in general, and academic excellence in required courses. Space in upper-level Nursing is limited, and ability to receive new students is evaluated annually.

Students should present a minimum GPA of a 3.0 or higher. Pre-requisite courses must be completed prior to matriculating into the program; students in progress of course work may present mid-term grade reports during the admission process, but will be required to show final grades for enrollment. Additionally, transfer students must complete the TEAS V test with a score of at least 78%. Students in progress of completing the TEAS V but have met all other admission selection may be conditionally admitted however, final TEAS V results must be received prior to matriculation. Transfer applicants will be evaluated holistically using all admission material submitted.

NOTE: Students transferring from other Baccalaureate Nursing programs are required to have a B- (2.7) or higher cumulative grade point average. Students may not transfer into the BSN program from another Saint Peter's University program.

Pre-requisite coursework for the Generic Nursing Program (year one or year two) include:

- Biology with B or better
- Chemistry with lab with a B or better
- Anatomy and Physiology I and II with lab and C+ or better. B- or better strongly recommended.

NOTE: Science coursework must not be more than five years old from time of enrollment

- Liberal Arts curriculum requirements include, but may not be limited to:
  - English I and II (Composition and Literature)
  - College level Mathematics (College Algebra and Statistics)
  - History, Psychology (Developmental) and Sociology
  - Philosophy and Ethics
- Students are required to take the TEAS V skills assessment test with a score of 78% or higher (no more than two attempts)
- Students applying from other nursing programs may not have any failing grades, nor have been expelled from the Nursing program

Students applying to the University's upper-division RN-BSN Nursing Program leading to the degree of Bachelor of Science in Nursing must submit additional materials; please contact the Office of Admission for information about additional criteria.

### **Transfer Admission to Caulfield School of Education**

Transfer applicants wishing to be considered for the Caulfield School of Education will be evaluated based on previous college-level coursework and achievement. The following criteria is based on the New Jersey state certification board and are required in order for the student to receive licensure and certification. Students may be admitted to the Caulfield School of Education but must maintain, and complete, these requirements to meet state standards for certification.

Enrollment criteria include:

- Cumulative grade point average of 3.0 or higher: students must maintain a 3.0 or better once enrolled.
- Successful completion of either ED-160 (Education and School in Multicultural Society) or ED-170/ED-203 (Child and Adolescent Psychology or Educational Psychology.)
- Students must also complete an entrance interview with, and receive a recommendation from, a School of Education faculty member.
- Complete and pass Praxis I Core Exam.

Students will have until the end of the first semester of enrollment to meet these standards. Inability to meet the requirements will result in the student being advised into another program of study within the University.

### **Transferring to Saint Peter's University Honors Program**

Students who wish to be invited to the Honors Program must have a cumulative grade point average of 3.5 or higher. Students will be invited upon acceptance to the University and after consultation via interview with the Honors Program Director.

### **Transferring to Saint Peter's University EOF Program**

Transfer students who wish be considered for EOF at Saint Peter's University must have participated in the EOF Program at the previous institution. Applicants must first proceed through the application proceed through the application for admission. If admitted to the University, students can then submit an application for EOF.

### **NJ Community College Partnerships and Transferring to Saint Peter's University**

Saint Peter's University holds several New Jersey Community College partnerships to assist students enrolled in Associates degree and who wish to transition to a Bachelor degree program. The University continues to add partnerships for admission with benefits like generous scholarship incentives, internships and career preparation opportunities. To find out more about partnerships and agreements please contact the Office of Admission at 201-761-7100 or visit our transfer admission page of the website at [www.saintpeters.edu/transfer/](http://www.saintpeters.edu/transfer/). Saint Peter's is a member of NJTransfer.org.

## **Admission of International Students (Freshmen and Transfer)**

### **Application Process**

The Admission Committee will review completed applications thoroughly, and will consider academic achievement, difficulty of curriculum, standardized test scores, personal statement/essay, letters of recommendation, and extracurricular involvements. Undergraduate applicants must show evidence of achieving the equivalent of a high school diploma in the United States. Transfer applicants must show the equivalency of university-level study appropriate for pursuing a Bachelor's degree in the United States.

### **Application Type:**

- International applicants are any student applicant who does not hold U.S. Citizenship nor permanent resident student status.

International Applicants (freshmen and transfer) must submit material in addition to what is required above:

- Official transcripts in original language with English language translation/evaluation (if applicable). Transfer students are required to submit a course-by-course evaluation of courses taken at the post-secondary level outside of the United States from a NACES approved evaluation service; transfer students applying to Nursing must use the World Education Service (WES) evaluation services.
- Official copy of TOEFL, or IELTS if English is not the student's native language; students may also provide evidence of English proficiency with a minimum of 450 or higher on the SAT Critical reading (or equivalent on the ACT).
- All applicants seeking an F-1 student visa are required to submit an affidavit of financial support with proof of funding. Contact the Office of Admission for more information.
- Copy of main passport page.

### **Additional Information about evaluating International Applications**

#### **Evidence of Educational Experience**

To evaluate educational background fairly and accurately, the University needs specific information about a prospective student's schooling and examination/test results. All official documents must be submitted directly from the appropriate issuing institution(s) to Saint Peter's. These documents must list courses taken with credits, points, or hours per course and grades awarded, and must specify any educational degrees, certificates, or titles awarded. These documents must bear the original seal or stamp and the signature of an official of the issuing institution followed by a certified English translation (if applicable). Applicants can utilize their local EducationUSA office for assistance in verifying documents. Any documents received from an EducationUSA officer or directly from the issuing educational institution office are deemed as original documents.

Examination results and score reports must be sent directly from the testing/examination authority to Saint Peter's. Examples of such examinations are the TOEFL, IELTS, SAT, ACT, or completion of an approved language level at one of the University's ESL partner institutions. Please visit [www.saintpeters.edu/international](http://www.saintpeters.edu/international) for minimum testing requirements. Certified copies may be accepted while we wait for originals.

The University asks that applicants provide explanation(s) on a separate sheet of paper if they have had additional years of schooling or if education differs from the requirements for admission to the major institutions of higher learning in the applicant's home country.

Saint Peter's University reserves the right to verify all submitted documents with the issuing institution. Applicants may be asked to provide further proof of your educational history.

#### **Personal Statement/Essay**

Applicants are asked to write a personal statement, as part of the application process, of at least one page (500 words). The questions can be found within the international student application.

#### **Letters of Recommendation**

Letters of recommendation should be sent by the applicant's school guidance counselor, headmaster, English teacher, teacher of choice, and/or community volunteer supervisor. Forms for the recommendation are included with this application but may be substituted with a written letter on school or company letterhead.

#### **Notification of Admission Status**

Applications are reviewed after receipt of a completed application packet and supporting documentation. If any portion of an application packet needs further action the University will notify the applicant via e-mail. As soon as the application is complete, an admission decision will be made, and applicants will be notified by the Admission Office. The Admission Office is the only office authorized to notify international students of their acceptance to Saint Peter's. Depending on where an applicant lives, they can expect an admission decision on a completed application within three weeks after receipt of ALL application materials.

#### **International Student Application Deadlines**

It is recommended that applicants submit a completed application packet at least three months before the semester in which they wish to enroll. In order to process an application for admission in a timely manner, the following deadlines have been established:

Fall Semester.....August 1; one month prior to the starting term

Spring Semester.....December 1; one month prior to the starting term

The University may consider completed applications received after the specified deadline as time permits.

### **F-1 Status (Student Visa)**

International students are permitted to study in the United States if they meet U.S. Immigration and Naturalization Service requirements. An F-1 visa to enter the U.S. is issued only to students who: a.) present evidence of regular admission to a full-time course of study in the U.S.; b.) have financial support for the entire period of study in the U.S.; and c.) intend to return to their home country once studies are completed.

The U.S. embassy or consulate in a student's area will be able to provide the specific requirements for applying for an F-1 visa from the home country. To be eligible for an F-1 visa, students must present a Certificate of Eligibility (Form I-20 A-B) issued by the U.S. institution at which they plan to study. Saint Peter's can issue Form I-20 only to those students who meet all admission requirements as specified in this application packet. Students currently on F-1 visas can be issued an Intent to Transfer form.

### **Documentation for Travel from *Outside* the U.S.**

Students will be mailed the Form I-20 with their acceptance letter. Students will present this form, along with supporting documentation, to the U.S. embassy or consulate in their area. Students must have a valid passport issued by their home country for the visa application process and pay any necessary processing fees. Collecting documentation and scheduling appointments to complete the visa application process may cause unexpected delays. Therefore, it is recommended that students complete and submit the application packet to Saint Peter's at least three months prior to the semester in which they plan to begin studies. Early submission should allow ample time to receive the Form I-20, meet with U.S. consular officers, and make travel arrangements.

### **Documentation for Travel from *Inside* the U.S.**

Upon a student's acceptance, they will be mailed a Transfer Authorization Form (to be completed by the designated official at the student's current institution) to verify the F-1 status. Students who will come to Saint Peter's from within the United States will be issued a Form I-20 after the transfer process has been completed. If students plan to return to their home country, or travel outside the U.S. before coming to Saint Peter's, the student must notify the Saint Peter's University international student advisor of their intentions at least three weeks prior to departure from the U.S. so appropriate arrangements can be made and documentation can be prepared for the student to reenter the U.S. Applicants in any status other than F-1 will be sent further instructions for status change if necessary.

## **Admission of Veterans**

All veterans who were students in good standing at Saint Peter's University before entering the service will be readmitted if they apply in due time before registration. Veterans who have not previously attended any institution of collegiate rank should follow the admission procedures for new students. Veterans who have attended another institution and wish to transfer to the University should follow the admission procedures for transfer students.

Credit for formal service courses and schools, when granted, is based on the recommendations described in *A Guide to the Evaluation of Educational Experience Gained in the Armed Services*, published by the American Council on Education. Credit also is granted for college courses sponsored by the University of Maryland and made available to service members.

Veterans who are eligible to receive tuition benefits from the Veterans Administration should file the necessary forms.

Saint Peter's University participates in the Yellow Ribbon program. After the Post 9/11 G.I. Bill benefits are applied, the University will match the 50% Yellow Ribbon contribution towards the tuition balance.

In accordance with Title 38 US Code 3679 subsection (e), this Saint Peter's University adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational

Rehabilitation and Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. Saint Peter's will not:

- Prevent the students enrollment;
- Assess a late penalty fee to;
- Require student secure alternative or additional funding;
- Deny their access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students may be required to:

- Provide Chapter 33 Certificate of Eligibility (or its equivalent) or for Chapter 31, VA VR&E's contract with the school on VA Form 28-1905 by the first day of class. Note: Chapter 33 students can register at the VA Regional Office to use E-Benefits to get the equivalent of a Chapter 33 Certificate of Eligibility. Chapter 31 student cannot get a completed VA Form 28-1905 (or any equivalent) before the VA VR&E case-manager issues it to the school.
- Provide written request to be certified;
- Provide additional information needed to properly certify the enrollment as described in other institutional policies.

## Students with Disabilities

Students with learning disabilities may be admitted to Saint Peter's University provided they meet the University's standard requirements for admission. **Saint Peter's University does not offer a comprehensive program for students with learning disabilities.** However, accommodations will be made whenever possible. For more information, please refer to the section on Academic Policies and Regulations.

*All admission criteria, policies and procedures are held with respect to success for student enrollment and transition. However, any policy and criteria may be adapted given force majeure factors. In addition, the Vice President for Enrollment Management and Marketing or the Executive Director for Admissions (or equivalent leading title role) may waive criteria with discretion.*

# Student Financial Aid

## Basic Information About Student Financial Aid

The Student Financial Aid Office at Saint Peter's University is committed to helping students and their families afford a quality, Jesuit education. The University assists students in obtaining the financial resources for education, which include scholarships, grants, loans, and work-study programs.

To receive the fullest consideration for all forms of financial assistance - federal, state, and institutional aid - students must file the Free Application for Federal Student Aid (FAFSA).

In order to allow time for processing applications and to receive the fullest consideration for all available financial aid, students should submit applications prior to April 15.

## Estimated College Expenses

The amount of money needed to attend college, including tuition, fees, books, transportation, housing, meals, and personal expenses, is the college budget. If the college budget is greater than a student's family contribution, the difference is that student's financial need.

Current cost of attendance information can be obtained from the Office of Student Financial Aid and the University website.

## Application Procedure

To apply for financial aid, students must file the Free Application for Federal Student Aid (FAFSA) in order to be considered for federal, state, and Saint Peter's financial aid. Students should write in "Title IV Code 002638 Saint Peter's University, 2641 Kennedy Blvd., Jersey City, NJ" in the appropriate section of the FAFSA. The FAFSA should be completed online at [www.fafsa.ed.gov](http://www.fafsa.ed.gov). For renewal Tuition Aid Grant students, the FAFSA needs to be processed by April 15 prior to the beginning of the fall term.

Application forms are available from the Enrollment Services Center as well as high school guidance counselors' offices and public libraries. Students are encouraged to apply by March 15th for the fullest consideration of all forms of aid. The application process may change from year to year; therefore, students should contact the Student Financial Aid Office for the most current filing procedures.

## Continuation of College-Awarded Scholarships and Incentive Awards

Students who have been awarded academically based scholarships are expected to maintain superior academic standing. Students who do not achieve scholarship-level performance may forfeit their awards. All awards require the maintenance of Satisfactory Academic Progress; some require a minimum cumulative GPA of 3.0.

## Additional Information

In addition to the information contained in this catalog, several other brochures available at the Saint Peter's University Financial Aid Office contain pertinent financial aid information, including federal, state, and institutional assistance. Students have the right to obtain such information. Students also have the right to appeal financial aid awards by writing to the Scholarship Appeals Committee through the Director of Student Financial Aid. Students receiving financial assistance must be in good standing and must maintain satisfactory progress in their course of study.

Students should contact the Student Financial Aid Office for additional information regarding the University's refund and repayment policy, award packaging policy, satisfactory academic progress, rights and responsibilities of student aid recipients, or any terms and conditions regarding financial aid awards. Such policies and statements may vary from year to year and are very lengthy and technical in nature. As such, the full version of this information is available to students in the Enrollment Services Center upon request.

## Satisfactory Academic Progress

In order to retain eligibility for federal, state, and most institutional financial aid, students must maintain satisfactory progress (referring to the completion rate and GPA) in their academic program. The definition of satisfactory progress

was formulated to meet the minimum standards mandated by both the Federal Government and the State of New Jersey.

## Financial Aid Probation

Students who are placed on Academic Probation (see "Academic Standing" ) will also be placed on Financial Aid Probation. Students will be informed in writing that their eligibility for federal, state, and most institutional aid is in jeopardy. This probationary status will remain in effect until either the student meets the requirements for good academic standing or the student's cumulative GPA or percentage of credits completed places the student into Financial Aid Suspension (see below).

## Financial Aid Suspension

Students will be ineligible for federal, state, and most institutional aid when their academic progress fails to meet either the Attempted Credits and GPA Assessment or the Attempted Credits and Completion Rate Assessment.

### Attempted Credits and GPA Assessment

Attempted Credits	Minimum Cumulative GPA Needed
24-47	1.5
48-71	1.8
72-95	1.9
96+	2.0

### Attempted Credits and Completion Rate Assessment

Attempted Credits	Completion Rate
24-47	50%
48-71	54%
72-95	58%
96-119	62%
120-180	67%

The completion rate is calculated as the number of passed credits (remedial and college-level credits for which a student earned a passing grade) divided by the number of attempted credits (the total of earned credits, remedial credits, and credits for which a student has received a grade of WD, F, FA, IC, IT, or IP). Courses dropped during the published 100% refund period and audited courses are not treated as attempted or earned credits. For courses that have been repeated, attempted and earned credits for all occurrences are included. For transferred courses, credits accepted will be included in attempted credits only for the purpose of determining placement in the chart above.

Regardless of cumulative GPA and completion rate attained at any time, students will be ineligible for federal, state, and most institutional financial aid when their total credits attempted exceed 150% of the credits required for their program.

Progress will be monitored at the end of the spring term by the appropriate academic dean. Students not meeting satisfactory academic progress may regain their satisfactory status during subsequent academic terms without the benefit of student financial aid. Prior to reinstatement of financial aid, the academic dean will determine if the completion rate and GPA are sufficient to consider the student as once again making satisfactory progress. Students who have been judged not to be making satisfactory progress may appeal that judgment to the Director of Financial Aid and the dean. Appeals may be granted due to serious illness, severe injury, or the death of a relative and must be submitted in writing no later than one month after notification of the deficiency. Appeals may be granted one time under these circumstances only if it is possible for a student to mathematically meet the qualitative and quantitative program requirements within 150% of the published length of the program.

A degree audit is performed for any student who changes programs or pursues an additional major. If a student has exceeded the maximum time frame based on total attempted credits, including transfer credits, additional time to attempt the remaining credits required for completion may be granted if courses already taken are not applicable to the new programs or if additional courses are needed to earn an additional major.

## **Saint Peter's University Scholarships and Grants**

### **Academic Awards**

During the admission process based on GPA and SAT scores students will be considered for academic scholarships which range from \$9000 to full tuition.

### **Saint Peter's University Grants**

These awards, which vary in amount, are awarded on the basis of financial need. Students must file the Free Application for Federal Student Aid (FAFSA) for consideration.

### **Athletic Scholarships**

These scholarships are awarded for men's and women's varsity sports through the Athletic Department on the basis of athletic ability and academic qualifications in accordance with the NCAA regulations.

### **University Work-Study Program**

Part-time employment opportunities which provide financial assistance to enable students to meet educational expenses.

## **Federal and State Financial Programs**

Award values may be altered as a result to changes in legislation of appropriations.

### **Federal Pell Grants**

Grants of up to an estimated \$6,345 per year. These grants provide a foundation for many financial aid packages. Eligibility for those grants is extended to half-time students.

### **Federal Supplemental Educational Opportunity Grants (SEOG)**

These grants are for undergraduates with exceptional financial need; priority is given to Pell Grant recipients.

### **Federal Work-Study Program**

Part-time employment opportunities which provide financial assistance based on need and can be combined, as far as feasible, with loans or grants to the extent necessary to enable students to meet educational expenses.

### **Governors Urban Scholarship Program (State)**

The Governor's Urban Scholarship Program provides a Merit Award to High-Achieving students who reside in New Jersey's 14 designated high-need communities encouraging these students to pursue their higher education in N.J. Students eligible for the award will receive \$1,000 per academic year.

### **New Jersey Tuition Aid Grants (State)**

Grants of up to \$12,938 per year to eligible students; based on the extent of financial need.

### **Educational Opportunity Fund Grants (State)**

Grants of up to \$2,650 per year to students with exceptional financial need from educationally disadvantaged backgrounds.

### **New Jersey Student Tuition Assistance Reward Scholarship II (State)**

Grants of up to \$2,500 per year to students that enables successful NJ STARS scholars to transfer to a New Jersey four-year public or non-public college or university and earn a bachelor's degree.

### **Federal Stafford Loans (Subsidized and Unsubsidized)**

Long-term delayed repayment loans for qualified students. These need-based loans, when added to the financial aid/resources and the expected family contribution, may not exceed the total cost of education for that academic year. A needs analysis test is required and applicable loans are multiply disbursed according to enrollment.

## **Federal PLUS Loans**

PLUS loans may be applied for by parents of dependent students for up to the cost of attendance and are not based on financial need.

## Tuitions and Fees

University tuition and fees are reviewed annually by the Board of Trustees in relation to projected operating costs. The Board of Trustees reserves the right to increase tuition and fees prior to the expiration of this General Catalog.

Current tuition and fees can be found on the University webpage at <http://www.saintpeters.edu/enrollment-services/student-accounts/tuition-and-fees/>

### Guidelines For Flat-Rate Tuition - Traditional Day Students

Overload Tuition (per credit in excess of 18 semester hours, Fall & Spring Semesters) \$595

The full-time undergraduate tuition for the fall semester includes a minimum of 12 credits and a maximum of 18 credits, in total, taken during the fall semester (day) and Fall trimester (evening). Credits in excess of 18 will be charged the Overload Tuition Rate, whether taken in day, evening or trimester. The full-time undergraduate tuition for the spring semester includes a minimum of 12 credits and a maximum of 18 credits, in total, taken during the spring semester (day) and the spring trimester (evening). Credits in excess of 18 will be charged the Overload Tuition Rate, whether taken in day or evening.

The section on Academic Policies and Regulations describes the regulations governing the number of credits a student may register for in any given semester. The regulations are based on a student's academic record and performance, such as the number of credits the student has already taken, the student's GPA, and whether the student is on probation or suspension.

Any courses dropped after the 100% refund withdrawal date will be considered part of the overall Flat Tuition Rate.

Part-time traditional day students pay the traditional day student rate for all credits, whether taken in the day or evening. Traditional day students taking summer classes will be charged the Summer Session Tuition Rate.

### Dropping or Withdrawing From Courses

Any student wishing to withdraw from the University or obtain a leave of absence must secure and complete the Leave of Absence/Separation Form ([https://docs.google.com/forms/d/e/1FAIpQLSf1TP9Cd1Yv0ZrjipKxqMCobndahmWMzfo-xFtJ\\_yZ\\_hp3G9w/viewform?gxids=7757](https://docs.google.com/forms/d/e/1FAIpQLSf1TP9Cd1Yv0ZrjipKxqMCobndahmWMzfo-xFtJ_yZ_hp3G9w/viewform?gxids=7757)). Students withdrawing from the University for any reason after the start of any term will receive refunds according to the University's refund schedule. Overload credits dropped after the end of the add/drop period for the semester are subject to Overload Tuition, less refunds, in accord with the University's refund schedule.

Students who have registered as full-time students and who subsequently drop courses and thus become part-time students will be responsible for paying the higher of: a) full-time tuition less the refund they would receive if they had withdrawn completely from the University or b) the per-credit part-time tuition for the courses in which they remain enrolled.

For scholarship students, any courses dropped after the add/drop period are counted toward their credit limit as stated in the letter of award.

### Payment of University Costs

Upon the decision to enroll at the University, freshmen will be required to make a non-refundable deposit which will be applied as a credit toward the first term's bill for tuition and fees. If the student fails to register and attend classes, the entire deposit shall be forfeited.

All University costs are payable in full before the date stated in the Academic Calendar for each term. It is recommended that payment be made by credit card, check, or money order payable to SAINT PETER'S UNIVERSITY.

In addition to paying University costs by credit card, check, or money order, the following optional methods may be available. Please contact the Enrollment Services Center for a detailed description of the optional methods.

1. Students may use their own credit cards (VISA, MasterCard, Discover or American Express) for payment of University costs by opting for the Saint Peter's monthly installment plan. For semester students, a five-month

plan is available and for trimester students, a three-month plan is available. In the summer, a two-month plan is available.

2. If students wish to pay University costs with a parent's or relative's card, the owner of such card must be present.

The Trustees of the University do not permit any office to send any letter of recommendation, or the Registrar's Office to issue a degree, diploma, academic transcript, or scholastic record until all financial obligations have been satisfied.

## **Institutional Refund Policy - Tuition and General Fees Related to Schedule Changes During Add/Drop Period**

Students wishing to adjust their schedules may do so without penalty during the first week of classes. They may add or drop classes only with the approval of their advisors. Any charges made for tuition and lab fees for courses officially dropped during this period will be refunded at 100%. A reduction in the number of courses carried may result in a reduction in the level of financial aid. Please consult with the Student Financial Aid Office, if you have questions. No financial adjustment is made for courses dropped after the fourth week of the term. Exception to this is the intersession and summer sessions. See charts below. This policy does not apply to withdrawals or leaves of absence (Students are not permitted to drop all courses without withdrawing or taking a leave of absence).

## **Institutional Refund Policies - Tuition and General Fee Refund Policy Related to Withdrawal/Leave of Absence**

The University's refund policies for students withdrawing or taking a leave of absence are described in the paragraphs below. This policy is applicable to an individual student and is determined by the particular circumstances of the student, including the timing of the withdrawal/leave of absence, and whether or not the student is a participant in a federal or state financial assistance program. No refund is paid to any student who is suspended or required to withdraw, or who leaves voluntarily without first securing the written consent form (Withdrawal or Leave of Absence) from Enrollment Services, getting the required signatures, and submitting the completed form to Enrollment Services.

### **Students Not Receiving Federal or State Aid**

Students who take a leave of absence or withdraw for any reason during the first four weeks of the semester or trimester, are entitled to a prorated refund of certain institutional charges (see list of refundable institutional charges below). Prorated charges are based upon the date of actual withdrawal (as determined by the University in accordance with the withdrawal/leave of absence procedure) according to the following schedules.

### **Fall and Spring Semesters: Withdrawal Date Percentage Refund**

<b>Withdrawal Date</b>	<b>Percentage Refund</b>
First Week of Semester including last day of add period	100%
Second Week of Semester	75%
Third Week of Semester	50%
Fourth Week of Semester	25%
After the fourth week of class	0%

### **Fall Spring Quad Semesters: Withdrawal Date Percentage Refund**

<b>Withdrawal Date</b>	<b>Percentage Refund</b>
First Week of Quad Semester including last day of add period	100%
Second Week of Quad Semester	50%
After the second week of class	0%

### **Intersession: Withdrawal Date Percentage Refund**

<b>Withdrawal Date</b>	<b>Percentage Refund</b>
Up to & including the 2nd day of the term	100%
Up to & including the 4th day of the term	50%
Beyond the 4th day of the term	0%

### Five-week and Six-week Summer Sessions: Withdrawal Date Percentage Refund

Withdrawal Date	Percentage Refund
Up to & including the 3rd day of the term	100%
Up to & including the 6th day of the term	50%
Beyond the 6th day of the term	0%

### Ten-week Summer Sessions: Withdrawal Date Percentage Refund

Withdrawal Date	Percentage Refund
Up to and including the last day of add period	100%
During the second week of term	75%
During the third week of term	50%
During the fourth week of term	25%
After the fourth week of the term	0%

## Refunds of Federal and State Aid

When a student takes a leave of absence or withdraws from the University, federal and state regulations may require the University and/or the student to return a portion of the aid received as described below.

### Federal Title IV Refund Policy

When a student takes a leave of absence or withdraws before completing 60% of the enrollment period, federal regulations require the University and/or the student to return that portion of federal aid funds which has not been earned. This is calculated as follows:

1. The percentage of federal aid earned is calculated by dividing the number of days of the enrollment period completed by the total number of days in the enrollment period.
2. The amount of federal aid earned is calculated by multiplying the percentage of federal aid earned by the amount of federal aid that was disbursed plus the amount of federal aid that could have been disbursed. (Please note that funds that have not met the requirements for disbursement will not be disbursed to the student).
3. The student is entitled to keep all earned federal aid which has been disbursed and is entitled to receive a post-withdrawal disbursement of all earned federal aid could have been disbursed.
4. All other federal aid will be returned or canceled.

### Refunds of State Aid

When a student withdraws and receives a refund of Institutional Charges, state regulations require the return of a percentage of state aid received. This is calculated as follows:

1. Determine the percentage of total aid that is state aid by dividing the amount of state aid (excluding work earnings) awarded by the total amount of financial aid (excluding work earnings) awarded.
2. Calculate the amount of state aid to be returned by multiplying the percentage of total aid that is state aid by the amount of institutional charges refunded.
3. If a student utilizes any part of an award, it will be treated the same as a full semester payment in calculating the number of semesters of eligibility. Therefore the student may decline the state award and repay the award for the payment period.

## Institutional Refund Policies - Appeal Process

A student may appeal a refund to the appropriate dean. The appeal must be in writing, signed, and should include a detailed description of the extenuating circumstances upon which the appeal is based, including copies of any supporting documentation. University administration will review the appeal and notify the student of the decision in writing.

It is a practice-oriented course will focus on applying data analytic tools to help companies answer critical business questions. Prerequisites: BA-287.

**BA-421. Doing Business Overseas. 3 Credits.**

This course is designed to expose students to the global business environment through short-term study visits to selected overseas countries. The aim is to help participants develop a better and more practical understanding of the political, economic, legal and cultural environments of the countries visited. Additional travel course fee of \$50. Course Type(s): International (Travel), Pluralism.

**BA-458. Business Strategy. 3 Credits.**

In this class students learn and practice how to craft, implement and evaluate cross-functional decisions in an integrated fashion. They develop their strategic management skills through a series of business strategy simulation games. As part of a management team, they "own" a business and play the role of managers who develop policies and plans to achieve organizational objectives. Prerequisites: AC-152 BL-161 EC-102 AND EC-300; Course Type(s): Capstone.

**BA-465. Executive Seminar. 3 Credits.**

An examination of contemporary management issues conducted by senior decision makers from both private and public sectors. Open by invitation only to Honors students and other qualified advanced undergraduates. Additional course fee of \$45.

**BA-496. Seminar in Business Administration. 3 Credits.**

This professional consultancy capstone course helps students to integrate and apply concepts, skills and techniques acquired in previous courses. The course requires deep student engagement, team collaboration and problem solving. This will be achieved by engaging with actual small/mid-size businesses. Participants will plan, execute and report findings of a consulting engagement with an assigned local business. Additional course fee of \$45. Prerequisites: BA-458, AND EITHER FN-401 OR FN-415; Course Type(s): Capstone.

**BA-499. Business Internship Experience. 3 Credits.**

This course is for upper level students, and involves an experiential learning component. Students must have an approved internship during the semester of enrollment and must work at least 10 hours per week in order to be eligible to register. Course content focuses on development of crucial soft skills, like interpersonal communication, teamwork, leadership, negotiation in the context of a job or internship as well as application of business knowledge to situations, experiences, problem-solving and adapting to the work environment. Prerequisites: BA-151, BA-155, AND JUNIOR STATUS.

**BC Courses****BC-390. Special Topics: Biological Chemistry. 3 Credits.**

Conferences and literature research directed to the study of a particular area of biological chemistry. Area selected must coincide with faculty expertise. Prerequisites: BI-240 CH-366; Course Type(s): Capstone, Writing Intensive, Senior Seminar.

**BC-399. Independent Study. 1 Credit.****BC-420. Instructional Methods: Biochemical Analysis I. 2 Credits.**

Modern instrumental techniques in qualitative and quantitative studies of biochemical systems exposure to a broad range of instrumental methods. Additional course fee of \$50. Prerequisites: BI-240.

**BC-421. Instrumental Analysis for Biochemistry. 2 Credits.**

Modern instrumental techniques in qualitative and quantitative studies of biochemical systems exposure to a broad range of instrumental methods. Additional course fee of \$50. Prerequisites: BC-420.

**BC-442. Biochemistry I. 3 Credits.**

Protein structure and function, enzymes, enzyme kinetics and mechanism, metabolism, techniques in protein chemistry. Prerequisites: CH-251.

**BC-442L. Biochemistry I Lab. 1 Credit.**

Protein purification, enzyme kinetics, enzyme inhibition and western blotting. Prerequisites: CH-251; Course Type(s): Lab Courses.

**BC-443. Biochemistry II. 3 Credits.**

Biosynthesis, hormone regulation, RNA and DNA metabolism, Regulation of gene expression, Techniques in nucleic acid chemistry. Prerequisites: BC-442.

**BC-443L. Biochemistry II Lab. 1 Credit.**

Biosynthesis, hormone regulation, RNA and DNA metabolism, regulation of gene expression, techniques in nucleic acid chemistry. Lab Prerequisites: BC-442; Course Type(s): Lab Courses.

**BC-492. Biological Chemistry. 3 Credits.**

The chemistry and metabolism of biological compounds, including proteins, carbohydrates, lipids and nucleic acids. Enzyme kinetics, bioenergetics and cellular organization. Expression and processing of biological information including replication of DNA, transcription, translation, regulation and recombinant DNA technology.

## BI Courses

**BI-122. Nutrition in Health and Disease. 3 Credits.**

Introduction to basic concepts and controversies of nutrition as related to health and disease. An analysis of nutrients, food choices, and human health. Course Type(s): Core curriculum course.

**BI-123. Concepts of Biology. 3 Credits.**

The major concepts which unify the attempt of scientist to achieve an ever increasing understanding of life. The comprehension of these concepts enables a solid foundation in the scientific method, chemistry of life, metabolism, genetics, evolution and diversity of life. Course Type(s): Core curriculum course.

**BI-124. Human Structure and Function. 3 Credits.**

The morphology and physiology of the human body. The structure and role of all systems. Interaction of systems with each other and with the environment. Course Type(s): Core curriculum course.

**BI-125. Heredity. 3 Credits.**

Principles of genetics applied to humans. Human traits, genetic basis of human disorders, genetic counseling, and genetic engineering. Course Type(s): Core curriculum course.

**BI-126. The Human Environment. 3 Credits.**

Relationships between humans and their environment. Sources of energy and food. Pollution, conservation of natural resources, and population problems. Course Type(s): Core curriculum course.

**BI-130. Natural History of New Jersey. 3 Credits.**

An overview of the animals and plants of New Jersey as well as physical features such as geology and climate. Emphasis on the diversity of NJ wildlife and habitats, with discussion of issues such as conservation of natural resources, forest and wildlife management, and pollution. Will be taught through field trips. Additional course fee of \$235. Course Type(s): Core curriculum course.

**BI-140. Introductory Astrobiology. 3 Credits.**

An introduction to astronomy and the search for life beyond Earth. Topics include the definition and origin of life, the search for habitable planets, and human exploration of our solar system and beyond.

**BI-161. Basic Microbiology. 4 Credits.**

The biology of bacteria and viruses: their morphology, physiology, and ecology. The role of microorganisms in disease and the principles of immunology. Includes laboratory.

**BI-161L. Basic Microbiology Lab. 0 Credits.**

Laboratory for BI-161 Basic Microbiology Prerequisites: BI-161 Course Type(s): Lab Courses.

**BI-171. Anatomy and Physiology I. 4 Credits.**

Emphasis on the structure and function of the major systems of the human body and its variations from the normal. The cellular, embryological, and genetic basis of structure and function are also considered. Includes laboratory. Not open to majors in biology and natural sciences.

**BI-171L. Anatomy and Physiology I Lab. 0 Credits.**

Laboratory for BI-171 Anatomy and Physiology, I Prerequisites: BI-171 Course Type(s): Lab Courses.

**BI-172. Anatomy and Physiology II. 4 Credits.**

Emphasis on the structure and function of the major systems of the human body and its variations from the normal. The cellular, embryological, and genetic basis of structure and function are also considered. Includes laboratory. Not open to majors in biology or natural sciences. Prerequisites: BI-171.

**BI-172L. Anatomy and Physiology II Lab. 0 Credits.**

Laboratory for BI-172 Anatomy and Physiology, II Prerequisites: BI-172 Course Type(s): Lab Courses.

**BI-183. General Biology I. 3 Credits.**

Biological principles including scientific method, biological chemistry concepts, characteristics of life, cells and reactions, Mendelian and Molecular Genetics. Course Type(s): Core curriculum course.

**BI-184. General Biology II. 3 Credits.**

Biological principles including origin of life, evolution, population genetics, diversity of life, comparative plant and animal biology, ecology. Prerequisites: C OR BETTER IN BI-183 FOR BIOLOGY MAJOR OR MINOR.

**BI-185. General Biology I Lab. 1 Credit.**

Laboratory course to accompany BI-183. Additional course fee of \$100. Course Type(s): Lab Courses.

**BI-186. General Biology II Lab. 1 Credit.**

Laboratory course to accompany Bi-184. Additional course fee of \$100. Prerequisites: C OR BETTER IN BI-185 FOR BIOLOGY MAJOR OR MINOR. Course Type(s): Lab Courses.

**BI-215. Principles of Anatomy and Physiology. 4 Credits.**

Studies of the structure and function of organ systems with emphasis on homeostatic regulatory mechanisms. Include laboratory. Additional course fee of \$100. Prerequisites: C OR BETTER IN BI-184.

**BI-215L. Principles of Anatomy and Physiology Lab. 0 Credits.**

Laboratory for Anatomy and Physiology (BI-215) Prerequisites: BI-215; Course Type(s): Lab Courses.

**BI-237. Forensic Science. 3 Credits.**

The basic concepts and practices of biology and chemistry as applied to criminal investigation, examining and preserving forensic evidence, conducting crime-scene investigations, and science in the courts. Laboratory experience. Not open to Biology majors. Additional course fee of \$75.

**BI-240. Cell and Molecular Biology. 4 Credits.**

Living systems at the cellular, subcellular, and molecular levels, Emphasis on molecular control of cellular activity, intermediate metabolism, and energy transformation. Additional course fee of \$100. Prerequisites: C OR BETTER IN BI-184 FOR BIOLOGY MAJOR OR MINOR.

**BI-240L. Cell and Molecular Biology Lab. 0 Credits.**

Laboratory for Cell and Molecular Biology (Bi 240) Prerequisites: BI-240; Course Type(s): Lab Courses.

**BI-254. Contemporary Issues in Bioethics. 3 Credits.**

An examination of contemporary issues in biomedical ethics, including abortion, euthanasia, the doctor-patient relationship, confidentiality, truth-telling, genetics, cloning, reproductive technologies, the just allocation of scarce medical resources. Values course. Prerequisites: 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120 Course Type(s): Values, Core curriculum course.

**BI-271. Concepts of Public Health. 3 Credits.**

Introduction to Public Health Issues - public health laws, policy cycle, demographics, and epidemiological concepts and applications.

**BI-295. Credited Internships. 3 Credits.****BI-303. Medical Terminology. 3 Credits.**

This course is designed to provide the student with a basic understanding of the unique language needed to communicate effectively as a health care professional. A major focus is to develop skill sin word analysis. The basic structure of medical terms and the rules for word building and word deconstruction will be discussed in the context of how the body works in health and disease. Prerequisites: BI-215 OR BI-172.

**BI-310. Ecology. 4 Credits.**

The usual definition of ecology - the relationship between organisms and their environment - is expanded to include the biological as well as the physical conditions under which an organism, population, or species lives to show that relationships involve the interactions between the biotic world and the physical world as well as between members of the same species and between different species. Additional course fee of \$100. Prerequisites: MA-132, C OR BETTER IN BI-240; Course Type(s): Writing Intensive.

**BI-310L. Ecology Lab. 0 Credits.**

Laboratory for BI-310 Ecology Prerequisites: BI-184 OR BI-186; Course Type(s): Lab Courses.

**BI-311. Field Studies in Biology. 3 Credits.**

Methodology used in field biology will be emphasized as will data collection methods and tools used in the analysis and interpretation of data and results. During the Spring break week, students will visit various natural areas in New Jersey to collect both biotic and abiotic samples for analysis. Prerequisites: BI-310 BI-310L.

**BI-312. Biology of Global Change. 3 Credits.**

This course will investigate natural and anthropogenic global change and its impact on marine, fresh water, terrestrial and human dominated ecosystems. Prerequisites: C OR BETTER IN BI-184 FOR BIOLOGY MAJOR OR MINOR. Course Type(s): Pluralism,Core curriculum course.

**BI-313. Human Evolution, Ecology and Adaptation. 3 Credits.**

This interdisciplinary course focuses on evolutionary adaptations of the human species to nature and ways it has adapted nature to serve its needs. These adaptations and their consequences for changes in human ways of life are central to this course. Prerequisites: BI-184 OR SO-121.

**BI-325. Advanced Topics in Anatomy and Physiology. 3 Credits.**

Continuation of Bi-215, Principles of Anatomy and Physiology. Selected topics in anatomy and physiology with special reference to current clinical issues. Prerequisites: BI-215.

**BI-326. Advanced Topics in Anatomy and Physiology Lab. 1 Credit.**

Laboratory course to accompany BI-325, Adv.Topics in Anatomy and Physiology. Additional course fee of \$100. Prerequisites: BI-215; Course Type(s): Lab Courses.

**BI-340. Pathophysiology. 3 Credits.**

Biological processes which affect the human body's dynamic equilibrium, or homeostasis, associated with potential or actual disease conditions. Prerequisites: C OR BETTER IN BI-215.

**BI-350. Genetics. 4 Credits.**

Theories of heredity and variation. Pre- Mendelian, Mendelian, cytogenetics, and population genetics. Application of theories in laboratory. Additional course fee of \$100. Prerequisites: C OR BETTER IN BI-240.

**BI-350L. Genetics Lab. 0 Credits.**

Laboratory for BI-350 Genetics Prerequisites: BI-350; Course Type(s): Lab Courses.

**BI-361. Criminalistics and Forensic Science. 3 Credits.**

The theory and application of the principles of forensic science. Lab includes an analysis of the techniques and procedures in forensic science. Prerequisites: C OR BETTER IN BI-240.

**BI-370. General Virology. 3 Credits.**

Study of the physical, chemical and biological properties of viruses. Prerequisites: C OR BETTER IN BI-240.

**BI-385. Ornithology: the Science of Birds. 3 Credits.**

The scientific study of birds, with a focus on behavior (e.g. intelligence, songs), diversity, evolution, migration patterns, and habitat needs. This course will involve fieldwork and bioacoustic analysis. Prerequisites: C OR BETTER IN BI 184.

**BI-389. Introduction to Forensic Pathology. 3 Credits.**

This course introduces students to the theory and practice of forensic pathology, and underscores the importance of thorough death investigations in the criminal justice system. Topics covered includes the role of the forensic pathologist, postmortem changes, autopsies, causes of death, classification and documentation of injuries, toxicology, and other related forensic disciplines.

**BI-393. Civilization and Disease. 3 Credits.**

A survey of the impact of disease on the course of human history. Prerequisites: BI-184.

**BI-394. Epidemiology. 3 Credits.**

Applications of epidemiologic methods and procedures to the study of the distribution and determinants of health and diseases in populations. Infections versus chronic diseases, data sources, study design and measures of morbidity and mortality will be studied. Prerequisites: MA-132 BI-184.

**BI-415. Hematology. 3 Credits.**

The study diagnosis and treatment of diseases of the blood. The course will cover areas such as anemia, thrombocytopenia, enlarged lymph nodes or spleen, bleeding and clotting disorders. Prerequisites: C OR BETTER IN BI-240.

**BI-416. Fundamentals of Neuroscience. 4 Credits.**

The study of cell structure and organization of the vertebrate central nervous system, mechanisms of neural signaling, the physiological and anatomical bases of behavior emphasizing mammalian sensory, motor, regulatory, and motivational mechanisms involved in the control of behavior and higher mental processes. Prerequisites: C OR BETTER IN BI-240.

**BI-416L. Fundamentals of Neuroscience Lab. 0 Credits.**

Includes anatomical, physiological, and biochemical methods for investigating the biology of nerve cells. The anatomical and physiological bases of behavior will also be addressed. Prerequisites: BI-416; Course Type(s): Lab Courses.

**BI-435. Development. 3 Credits.**

Developmental phenomena are approached first by analysis of the molecular and cellular basis of these processes, which are common to the eukaryotes, and secondly by descriptions of selected examples of development, including fungi, protozoa, algae, higher plants, and invertebrates. Includes laboratory. Additional course fee of \$100. Prerequisites: C OR BETTER IN BI-240; Course Type(s): Lab Courses.

**BI-450. Microbiology. 4 Credits.**

Microorganisms, with emphasis on the morphology, physiology, and ecological roles of bacteria and viruses. Principles of immunology. Includes laboratory. Additional course fee of \$75. Prerequisites: C OR BETTER IN BI-240.

**BI-450L. Microbiology Lab. 0 Credits.**

Lab to accompany Microbiology - BI-450. Prerequisites: C OR BETTER IN BI-240; Course Type(s): Lab Courses.

**BI-452. Evolution. 3 Credits.**

Consideration of organic evolution including the origin of cells, adaptive radiation, natural selection, population genetics, and human evolution. Prerequisites: BI-215.

**BI-454. Endocrinology. 3 Credits.**

Hormones as agents of homeostasis and growth. Hormonal regulation of reproduction. Investigative methods in endocrinology. Prerequisites: C OR BETTER IN BI-240.

**BI-458. Parasitology. 3 Credits.**

Biology, epidemiology, pathology, and diagnosis of animal and human parasites. Physiology of host-parasite interplay. Includes laboratory. Additional course fee of \$75. Prerequisites: C OR BETTER IN BI-240; Course Type(s): Lab Courses.

**BI-460. Histology. 3 Credits.**

Cell types and tissues of vertebrates on the microscopic and submicroscopic levels disposition of tissues in the various organs. Includes laboratory. Additional course fee of \$75. Prerequisites: C OR BETTER IN BI-240.

**BI-462. Botany. 3 Credits.**

Structure, functions, development, and ecological relationships of higher plants. Evolutionary and phylogenetic survey of the plant kingdom (including fungi). Includes laboratory. Additional course fee of \$50. Prerequisites: C OR BETTER IN BI-240.

**BI-464. Immunology. 3 Credits.**

The study of the basic concepts of cellular and humoral products of the immune system. Genetics of immunoglobulin production, antigen - antibody reactions, immunopathological mechanisms of hypersensitivity, auto immunity, transplantation and immunodeficiency. Prerequisites: C OR BETTER IN BI-240.

**BI-469. Human Nutrition. 3 Credits.**

The study of nutritional principles and the application of these principles to daily health maintenance as well as conditions which require special diet management. Prerequisites: C OR BETTER IN BI-215.

**BI-473. Vertebrate Zoology. 3 Credits.**

A survey of the vertebrates with an emphasis on classification, structure, function, and evolution. Laboratory included. Prerequisites: BI-215.

**BI-475. Medical Botany. 3 Credits.**

Medicinal uses of plants in historic and modern times. Investigation of mode of action of selective plant-derived conventional medicine and what is known about the scientific basis of some popular folk remedies. Prerequisites: BI-215.

**BI-485. Current Issues in Biology. 3 Credits.**

Current topics in the biological sciences. Lectures, discussions and critical analysis of journal articles and other readings related to the course. Capstone for Biology majors. Prerequisites: C OR BETTER IN BI-240; Course Type(s): Capstone.

**BI-488. Astrobiology. 3 Credits.**

The biological perspective on the origin of life, its evolution, the search for habitable planets, exploration of our solar system and beyond, and the future of life on Earth and elsewhere. Prerequisites: BI-184.

**BI-489. Globalization and Fieldwork Seminar. 3 Credits.**

Short term study/travel course in which students conduct first hand investigations on the effects of globalization in relevant settings. Specific area and topics determined at the beginning of the Academic Year. Locations change every term. Additional course fee of \$50. Prerequisites: BI-184; Course Type(s): International (Travel), Pluralism.

**BI-497. Research I. 2 Credits.**

Introduction to biological research. Topics will include: experimental research techniques, bibliographic searching, the review and publishing process, presentation of papers at scientific meetings and writing grants. Additional course fee of \$50. Prerequisites: C OR BETTER IN BI-240 AND PERMISSION OF INSTRUCTOR. Course Type(s): Senior Seminar.

**BI-498. Research II. 2 Credits.**

An original independent lab research project for upper-level students, under the supervision of a faculty member. Additional course fee of \$50. Prerequisites: C OR BETTER IN BI-240 AND PERMISSION OF INSTRUCTOR.

**BI-499. Natural Ecosystems of New Jersey. 3 Credits.**

Work in various fields of biology not covered by regular courses. Offered when sufficient student interest is demonstrated in an area coinciding with faculty specialization. Additional course fee of \$235. Prerequisites: C OR BETTER IN BI-184.

**BL Courses****BL-161. Introduction to Law and Contracts. 3 Credits.**

Introduction to the legal system; the nature of contracts; the statute of frauds; assignment of contracts; methods of discharging obligations in contract; remedies upon breach of contract.

**BL-162. Agency and Business Organization. 3 Credits.**

The nature and creation of an agency relationship, a partnership, a corporation the rights and duties of the various parties the law of trade regulation and unfair competition. Prerequisites: BL-161.

**BL-165. International Law and Property Rights. 3 Credits.**

The key to international business success is minimizing risk. The course emphasizes the management of risk when doing business over great distances. Examines legal aspects of trade, intellectual property and foreign direct investment.

**BL-241. Real and Personal Property. 3 Credits.**

The nature of real and personal property methods of transferring title bailment duties and liabilities of common carriers rights of society trusts insurance security interest. Prerequisites: BL-161.

**BL-250. Law and Ethics. 3 Credits.****BL-251. Uniform Commercial Code. 3 Credits.**

Study of Articles 1, 2, 3, 4 and 9 of the Uniform Commercial Code. Form and content of commercial paper bank deposits and collections security interest in personal property product liability. Prerequisites: BL-161.

**BL-295. Credited Internships. 3 Credits.****BL-310. Sports Law. 3 Credits.**

This course will provide students an overview of law as it relates to sports topics including but not limited to sports representation and management, constitutional law, intellectual property law, Title IX and sports crimes. Prerequisites: BL-161 AND BL-162.

**BL-330. Negotiation and Conflict Resolution. 3 Credits.**

This course focuses on the nature, cause, progression and resolution of conflicts and disputes. Particular emphasis will be placed on disputes involving commercial issues and businesses. Students will gain knowledge and apply techniques to facilitate, mediate and successfully resolve disputes over a range of situations. Methods of conflict de-escalation and pursuit of settlement through negotiation will be learned and applied. Prerequisites: BA-240 OR BL-161.

**BL-333. Environmental Law. 3 Credits.**

This course is designed to expose students to several environmental statutes including the Clean Air Act and the Pollution Control Law, as well as environmental sustainability. Prerequisites: BL-161.

**BL-399. Independent Study. 1 Credit.****BL-421. Doing Business Overseas. 3 Credits.**

This course is designed to expose students to the global business and legal environment through short-term study visits to selected overseas countries. The aim is to help participants develop a better and more practical understanding of the political, economic, legal and cultural environments of the countries visited. Possible additional course fee of \$50. Course Type(s): International (Travel), Pluralism.

**BL-495. Exploring Legal Concepts Overseas. 3 Credits.**

In this course we will discuss different legal concepts as they pertain to foreign countries and as compared/contrasted to the American Legal System. Such topics may include, but are not limited to, the structure of the legal system, the origin and philosophy of law, the social and economic effects of the law in the foreign country, contemporary and controversial legal issues in the foreign country, and the impact all of these concepts may have had and/or continue to have on American Law. Possible additional course fee of \$50. Course Type(s): International (Travel), Pluralism.

**BT Courses****BT-110. Science Goes to the Movies. 3 Credits.**

This course considers the evolution of the science behind the movies - the technical advances that have made modern movie making possible and how the treatment of science, scientific discovery and inventions have evolved particular movie genres. Lectures and movie clips will be used to illustrate the above. Course Type(s): Core curriculum course.

**BT-130. Technology in the 21st Century. 3 Credits.**

This course will discuss the history, development and scientific breakthroughs that have led to the amazing devices and technologies available to humans today. Particular attention to the people, time and places involved in the development of inventions like TV, radio, computers, phones, transmission of electric power, movies, and some of the many advances in genetics and medicine. Course Type(s): Core curriculum course.

**BT-140. How Stuff Works. 3 Credits.**

This course will illustrate how the many devices we use in everyday life were invented and how they work. Devices like the radio, TV, microwave, smart phones, computers, etc. will be used as examples.

**BT-150. The Gene - Mystery of Inheritance. 3 Credits.**

A Historical and Scientific Journey into the Mystery of Inheritance: In the past 150 years, the concept of the Gene - the molecular particle that contains the information of inheritance - has enriched human understanding of genetics. We now have the tools to control some aspects of genetics and even alter our own evolution. This course will explore this scientific journey - using the contributions of the many scientists who have written a story that is changing living history itself.

**BT-301. Medical Immunology. 3 Credits.**

An examination of the basics of immunology from the molecular to the cellular and organism level. A discussion of interactions in the healthy and disease states and the use of immunotherapy in medicine and the future of diagnostic immunology in health care. Prerequisites: BI-240.

**BT-420. Biomedical Applications of DNA Technologies. 3 Credits.**

This course will focus on the use of current DNA technologies for biomedical applications. Specific emphasis will be placed on the use of these technologies in gene transfer, gene identification, genomics and gene therapy. Prerequisites: BI-240 BI-350 CH-252.

**BT-429. Special Topics in Biotechnology. 3 Credits.**

This course will explore current and new technologies developments in biotechnology. It will include the use of computer image analysis, nuclear transplanted, confocal microscopy, and protein separation technology and micro-array hybridization. Ethical parties will be considered. Prerequisites: BI-240 BI-350 CH-252.

**BT-440. Research in Biotechnology I. 2 Credits.**

This laboratory course will include experience in clinical cytogenesis, molecular and biochemical genetic testing, bioinformatics, micro array chip technology, PCR and various other applications of biotechnology techniques for clinical and research work. Prerequisites: BI-240 BI-350 CH-252; Course Type(s): Senior Seminar.

**BT-441. Research in Biotechnology II. 2 Credits.**

This laboratory course builds on the previous course (Research in Biotechnology I) and expands the student's knowledge and skills in clinical cytogenesis, molecular and biochemical genetic testing, DNA microscopy, chip technology, PCR and various other applications of biotechnology techniques for clinical and research work. Prerequisites: BT-440 BI-240 BI-350 CH-252.

**CASE Courses****CASE-105. Strategic Learning for College Success. 1 Credit.**

This course is designed to help students understand which behaviors lead to academic success in college. Students will be provided with resources, strategies and opportunities to improve their academic skills.

**CC Courses****CC-256. Greek and Roman Mythology. 3 Credits.**

A study of Greek and Roman mythology; the theories of myth and their application to the specific cycles of myths; the use of myth in literature and art. Course Type(s): Core curriculum course.

**CC-287. The City of Rome. 3 Credits.**

An in-depth study of the history of the City of Rome with emphasis on art and architecture. An artistic history of Rome from prehistoric times through the eighteenth century.

**CC-330. Greek Mythology: When Women Were Gods. 3 Credits.**

A study of Greek Mythology: the theories of myth and their specific influence in literature, media, and art. Prerequisites: MUST COMPLETE TWO COURSES FROM EL-121, EL-122, EL-134, EL-201, EL-202, EL-203, EL-204.

**CH Courses****CH-108. Science for Educators. 3 Credits.**

A study of the concepts that underlie the natural science content in the elementary school curriculum in the United States. Topics include matter and energy, simple machines, sound, light, weather and climate, structure of the earth and the universe, electricity, and living things. The course is intended for individuals who expect to teach in primary & elementary school.

**CH-110. Chemical Principles. 3 Credits.**

Structure of matter, chemical reactions, stoichiometry; preparatory course for CH-131.

**CH-129. Science Fact Or Science Fiction?. 3 Credits.**

Students will review a selection of science fiction short stories, novels and films--in class discussion and research writing--to understand the science behind these works, in an attempt to separate fact from fiction. Partially fulfills the core requirement in natural science.

**CH-130. Chemistry and Cooking: Perfect Together. 3 Credits.**

A look at the science behind cooking, including choice of cooking method, purpose of ingredients in a recipe, ethnic cuisines, and techniques. Course will include hands-on experience.

**CH-131. General Chemistry and Qualitative Analysis I. 3 Credits.**

Introduction to the laws and theories of chemistry, emphasizing fundamental mathematical and laboratory skills required for expertise in the field. Three class periods, one four-hour laboratory period weekly. Course Type(s): Core curriculum course.

**CH-131L. General Chemistry and Qualitative Analysis I Lab. 1 Credit.**

Laboratory for General Chemistry and Qualitative Analysis I (CH-131); Additional lab fee of \$100. Course Type(s): Lab Courses.

**CH-132. General Chemistry and Qualitative Analysis II. 3 Credits.**

Introduction to the laws and theories of chemistry, emphasizing fundamental mathematical and laboratory skills required for expertise in the field. Three class periods, one four-hour laboratory period weekly. Prerequisites: CH-131 Course Type(s): Core curriculum course.

**CH-132L. General Chemistry and Qualitative Analysis II Lab. 1 Credit.**

Laboratory for General Chemistry and Qualitative Analysis II (CH-132) Additional lab fee of \$100. Prerequisites: CH-131; Course Type(s): Lab Courses.

**CH-237. Forensic Science. 3 Credits.**

The basic concepts and practices of biology and chemistry as applied to criminal investigation, examining and preserving forensic evidence, conducting crime-scene investigations, science in the courts, laboratory experience. Three class periods weekly. Additional course fee of \$75. Prerequisites: BI-122 OR BI-184.

**CH-238. The Science of Art. 3 Credits.**

Materials of art and artifacts, scientific and technical principles underlying the creation of art works, authentication and forgery, deterioration due to time and environment, restoration techniques. Three class periods weekly. Additional course fee of \$75. Course Type(s): Core curriculum course.

**CH-251. Organic Chemistry I. 3 Credits.**

Nomenclature, structure, reactions and spectroscopy of organic compounds with emphasis on reaction mechanisms selected laboratory experiments and preparations. Three class periods, one four-hour laboratory period weekly. Prerequisites: CH-132.

**CH-251L. Organic Chemistry I Lab. 1 Credit.**

Laboratory for Organic Chemistry I Lab (CH-251). Additional lab fee of \$100. Prerequisites: CH-251 Course Type(s): Lab Courses.

**CH-252. Organic Chemistry II. 3 Credits.**

Nomenclature, structure, reactions and spectroscopy of organic compounds with emphasis on reaction mechanisms selected laboratory experiments and preparations. Three class periods, one four-hour laboratory period weekly. Prerequisites: CH-251.

**CH-252L. Organic Chemistry II Lab. 1 Credit.**

Laboratory for Organic Chemistry II (CH-252) Additional lab fee of \$100. Prerequisites: CH-251; Course Type(s): Lab Courses.

**CH-295. Credited Internships. 3 Credits.****CH-329. Analytical Chemistry. 3 Credits.**

Statistical methods principles and procedures of quantitative analysis titrimetric, potentiometric and colorimetric methods. Three class periods, one four-hour laboratory period weekly. Prerequisites: CH-132.

**CH-329L. Analytical Chemistry Lab. 1 Credit.**

Laboratory for Analytical Chemistry (CH-329). Additional lab fee of \$100. Course Type(s): Lab Courses.

**CH-347. Principles of Physical Chemistry. 3 Credits.**

Foundations of thermodynamics, chemical kinetics and electrochemistry. Prerequisites: CH-132.

**CH-353. Medicinal Chemistry. 3 Credits.**

An overview of modern day drug discovery, enzymes, receptors, pharmacokinetics and pharmaceutical synthesis. Prerequisites: CH-251.

**CH-355. Polymer Functionality. 3 Credits.**

This course covers recent developments at the interface of polymer chemistry and pharmaceutical sciences, focusing on areas where polymers have made a particularly strong contribution, including pharmaceuticals, as well as the biomedical sciences. Detailed description involving the synthesis and chemical properties of biopolymers, biomaterials, nanotechnology, smart polymers, functional applications in biotechnology, tissue and cell engineering, biosensors, and drug delivery, is also integrated into the course. Prerequisites: CH-252.

**CH-361. Criminalistics and Forensic Science. 3 Credits.**

The theory and application of the principles of forensic science. Lab includes an analysis of the techniques and procedures in forensic science. Prerequisites: CH-132.

**CH-365. Physical Chemistry I. 3 Credits.**

Physico-chemical properties of gases, liquids and solids thermodynamics solutions and colloids electro-chemistry chemical kinetics nuclear, atomic and molecular structure. Three class periods one four-hour laboratory weekly. Prerequisites: CH-132 PC-186 MA-273.

**CH-365L. Physical Chemistry I Lab. 1 Credit.**

Laboratory for Physical Chemistry I (CH-365). Additional lab fee of \$100. Course Type(s): Lab Courses.

**CH-366. Physical Chemistry II. 3 Credits.**

Physico-chemical properties of gases, liquids and solids thermodynamics solutions and colloids electro-chemistry chemical kinetics nuclear, atomic and molecular structure. Three class periods one four-hour laboratory weekly. Prerequisites: CH-365.

**CH-366L. Physical Chemistry II Lab. 1 Credit.**

Laboratory for Physical Chemistry II (CH-366). Additional lab fee of \$100. Course Type(s): Lab Courses.

**CH-372. Synthetic Organic Chemistry. 3 Credits.**

This course covers modern techniques of organic synthesis, focusing on complex biologically active organic molecules and natural products, with emphasis on reaction mechanism, stereochemistry, structure, and retrosynthetic analysis. Prerequisites: CH-252.

**CH-399. Independent Study. 1 Credit.****CH-421. Instrumental Analysis for Biochemistry. 2 Credits.**

Theory and application of modern instrumentation including: IR, NMR, MS, UV-VIS, LC, GC. Prerequisites: CH-329; Course Type(s): Lab Courses.

**CH-442. Biochemistry I. 3 Credits.**

Protein structure and function, enzymes, enzyme kinetics and mechanism, metabolism, techniques in protein chemistry. Prerequisites: CH-251.

**CH-442L. Biochemistry I Lab. 1 Credit.**

Protein purification, enzyme kinetics, enzyme inhibition and western blotting. Additional lab fee of \$100. Prerequisites: CH-251; Course Type(s): Lab Courses.

**CH-443. Biochemistry II. 3 Credits.**

Biosynthesis, hormone regulation, RNA and DNA metabolism, Regulation of gene expression, Techniques in nucleic acid chemistry. Prerequisites: CH-442.

**CH-443L. Biochemistry II Lab. 1 Credit.**

Biosynthesis, hormone regulation, RNA and DNA metabolism, regulation of gene expression, techniques in biotechnology. Lab Additional lab fee of \$100. Prerequisites: CH-442; Course Type(s): Lab Courses.

**CH-449. Inorganic Chemistry. 3 Credits.**

The electronic structure of matter nature of the chemical bond ionic solids symmetry transition metal and organometallic chemistry. Three class periods, one four-hour laboratory period weekly. Prerequisites: CH-365 OR CH-347.

**CH-449L. Inorganic Chemistry Lab. 1 Credit.**

Lab for Inorganic Chemistry. Additional lab fee of \$100. Course Type(s): Lab Courses.

**CH-460. Instrumental Analysis. 3 Credits.**

Theory and applications of current techniques includes spectroscopic (IR, AA, UV-Visible, NMR, mass), electro chemical, and chromatographic methods of analysis along with wet chemical methods. Three class periods, one four-hour laboratory period weekly. Prerequisites: CH-329.

**CH-460L. Instrumental Analysis Lab. 1 Credit.**

Laboratory for Instrumental Analysis. (CH-460). Additional lab fee of \$100. Course Type(s): Lab Courses.

**CH-499. Research in Chemistry. 3 Credits.**

Independent research on an assigned problem; seminar extends through the entire year. Hours arranged with the individual mentor but the group meets weekly for one hour. Additional course fee of \$75. Course Type(s): Capstone, Writing Intensive, Senior Seminar.

**CJ Courses****CJ-165. Introduction to Criminology. 3 Credits.**

Theories and research findings on lawbreaking: the role of criminal law; types of criminal careers; crime prevention and the criminal justice system.

**CJ-170. Introduction to Criminal Justice. 3 Credits.**

The criminal justice process from arrest through conviction: the law of arrest, the role of the prosecutor, plea bargaining, sentencing practices, jury trials, diversion and alternatives to imprisonment. Careers in criminal justice.

**CJ-175. Introduction to Law Enforcement. 3 Credits.**

The police in modern urban society: policewomen, the training of police, police corruption, social science research on the police.

**CJ-177. Police Culture. 3 Credits.**

The total way of life of police: formal and informal on the job and off the job. Police norms, values, beliefs and behavior. Police brutality, corruption, community relations, misunderstandings, and scapegoating are considered. Prerequisites: CJ-175 OR CJ-170.

**CJ-210. Multiculturalism in Justice. 3 Credits.**

Understanding community groups of various ethnic, racial and cultural backgrounds, elevating the awareness in Law Enforcement Agencies. Course Type(s): Pluralism, Core curriculum course.

**CJ-222. Family Law. 3 Credits.**

A study of laws and court decisions regarding marriage, cohabitation, divorce, child custody and support, reproductive rights, adoption, parental rights and child abuse and neglect. Prerequisites: CJ-165.

**CJ-230. Homeland Security and Terrorism. 3 Credits.**

Introduction to and understanding the importance of Homeland Security with dealing with contemporary terrorism. Prerequisites: CJ-170.

**CJ-237. Forensic Science. 3 Credits.**

The basic concepts and practices of biology and chemistry as applied to criminal investigation, examining and preserving forensic evidence, conducting crime-scene investigations, science in the courts, laboratory experience. Three class periods weekly.

**CJ-238. Origins of Organized Crime. 3 Credits.**

This course examines organized crime in the U.S. from the early 1800's through the 1920's, beginning with the robber barons. Familiar names such as Rockefeller, Astor, Stanford, and Vanderbilt still hold sway in the U.S. today because of their efforts to "improve" the country while amassing great fortunes. Their methods often included usury, bribery, unethical labor practices, forcing people to live in slum conditions, unscrupulous deals with foreign countries, and the slaughter of Native Americans. This course will also illuminate why the Irish were considered the first organized criminals in this country, and explore the changes in organized crime that took place during the Prohibition era. Prerequisites: CJ-170.

**CJ-240. Gangs and Organized Crime. 3 Credits.**

Examines the street gang from Colonial era America to present day. Explores ethnic organized crime groups, the connections between groups, drug trafficking, extortion, prostitution, money laundering, and violent criminal activity.

**CJ-250. Victimology. 3 Credits.**

Contemporary developments in Victimology conceptual boundaries, basic concepts and literature subfields and role as a field of study within criminal justice. The historical and emerging roles of Victimology and various aspects of victimization the social, psychological, financial and other impacts of crime. Prerequisites: CJ-165 CJ-170.

**CJ-253. Social Deviance. 3 Credits.**

Explores the concepts of social norms, egocentricity, and ethnocentricity. Examines the relativity of deviance including criminal behavior, human sexuality, drug use, suicide, and other alternative forms of behavior.

**CJ-258. Criminal Justice Ethics. 3 Credits.**

The course examines the justice system from the ethical point of view: the human treatment of human beings. It is concerned with such matters as police procedures, the conduct of trials, operations of correctional institutions, and how they might justly achieve their ends. Prerequisites: 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120 Course Type(s): Values,Core curriculum course.

**CJ-260. Traffic Management. 3 Credits.**

The sources of traffic problems: traffic engineering and travel patterns. Traffic jams and rush hour collisions and disabled vehicles. Managing volume detours and advance warnings. Coordinating street traffic and highway operations. Zero tolerance programs for moving violations and equipment violations. Crime detection: stolen vehicles, fugitives, smuggling. Prerequisites: SO-175.

**CJ-265. History of Crime and Punishment. 3 Credits.**

This course is designed to provide students with a comprehensive interdisciplinary approach to crime and delinquency, both as a philosophical and historical exercise in corrections and contemporary criminal justice systems. Provides an understanding of how crime plays a role in the historic development of the criminal justice system.

**CJ-275. Violence. 3 Credits.**

This course provides an in-depth analysis of the relationship between violence and criminal behavior, and assesses the theoretical bases of violence by exploring its anthropological, biological, and sociological explanations. It also examines violence within the contexts of individual, group, and societal behavior. Prerequisites: SO-121.

**CJ-280. Juvenile Delinquency. 3 Credits.**

Theories of delinquency causation; the family and delinquency; problems of adolescence; the juvenile justice system; delinquency prevention programs: methods of treatment; alcohol and drug abuse; child abuse and neglect.

**CJ-285. Criminal Corrections Systems. 3 Credits.**

Objectives of punishment, jails and their contemporary problems types of prisons corrections officers and their training prison work, education and treatment programs inmate social structure parole and reintegration programs. Prerequisites: CJ-165.

**CJ-290. Comparative Justice Systems. 3 Credits.**

Post conviction differences between the United States and several other nations: sentencing, probation, fines, prison systems and alternative punishments, highlighting Japan, Canada, India/Egypt. Stress on values and political influences. Prerequisites: 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120.

**CJ-295. Credited Internships. 3 Credits.**

Cooperative work experience. Course Type(s): Independent Study.

**CJ-298. Special Topics. 3 Credits.**

This course is designed to provide students with a comprehensive interdisciplinary understanding of international justice systems and institutions with the primary emphasis on the history and development of legal systems. The study of the police organizations, the courts, the criminal sentencing process and rehabilitative institutions and their respective jurisdictions. Additional travel course fee of \$50. Course Type(s): International (Travel),Pluralism.

**CJ-299. Leadership for Criminal Justice. 3 Credits.**

Provides students with a solid foundation in leadership principles and effectively leading change in criminal justice agencies.

**CJ-306. Cops, Crime and Cinema: Criminal Justice in Film. 3 Credits.**

An examination of the images the popular film media portrays of law enforcement, corrections, and the courts, and how these views differ from the reality of the criminal justice system.

**CJ-315. Criminal Procedure. 3 Credits.**

An analysis of the fourth, fifth, sixth, and eighth amendments to the Constitution as they apply to criminal suspects and defendants.

**CJ-316. Criminal Evidence. 3 Credits.**

The nature of evidence, its classification, admissibility, weight and relevance the trial record and rules of evidence hearsay and its exceptions the constitutional issues in the gathering and introduction of evidence expert and scientific evidence. Prerequisites: CJ-170.

**CJ-333. Gender Crime and Justice. 3 Credits.**

An in-depth survey of changing social values about gender, changing criminal codes about sex crimes, changing law enforcement policies and procedures in prosecuting sex offenders, and emerging legal doctrines about privacy and sexual rights. Prerequisites: CJ-170 OR CJ-390 OR SO-121 OR WS-140.

**CJ-350. Research Techniques and Data Analysis. 3 Credits.**

Methods of scientific inquiry in the field of criminal justice: theory and research; causation and validity; research design, conceptualization, operationalization and measurement, sampling; survey research, field research, agency records, content analysis, secondary data, program evaluation and analysis of data. Prerequisites: CJ-165; Course Type(s): Writing Intensive, Core curriculum course, Senior Seminar.

**CJ-357. Infamous Crimes and Criminals. 3 Credits.**

A survey of anti-social behavior manifested by infamous criminals including serial murderers, mass murderers, and organized crime members. The impact of these crimes on victims and society the role of law enforcement agencies and profiling. Prerequisites: CJ-165.

**CJ-358. White Collar Crime. 3 Credits.**

Types of crime by the privileged: crimes of the professions: employee pilferage, embezzlement and fraud corporate crime and the crimes of managers political corruption and crimes of public officials. Techniques of investigation and prosecution for upper class defendants. Prerequisites: CJ-165.

**CJ-359. Corruption. 3 Credits.**

Analysis of deviance and criminal activities of corporations and government agencies. sociological and psychological implications are discussed. Organizational processes of communication, power, socialization, group processes and ethics are analyzed. Prerequisites: CJ-165.

**CJ-375. Sex Crimes. 3 Credits.**

The course examines sexual crimes across different contexts, including sexual crimes against minors, sex crimes in cults and/or extremist groups, sexual assaults in intimate and sexual assaults by strangers. Risk factors for sex crimes will also be discussed, as will the history of prevention and treatment efforts of both victims and offenders. The course will also cover offenders' motives for sexual assault. The last portion of the class will be dedicated to sexual assault on college campuses and efforts to combat this specific type of violence.

**CJ-389. Introduction to Forensic Pathology. 3 Credits.**

This course introduces students to the theory and practice of forensic pathology, and underscores the importance of thorough death investigations in the criminal justice system. Topics covered includes the role of the forensic pathologist, postmortem changes, autopsies, causes of death, classification and documentation of injuries, toxicology, and other related forensic disciplines.

**CJ-390. Criminal Law. 3 Credits.**

Origins of the criminal law from the Napoleonic Code and the English common law; substantive and procedural criminal law. The new state penal codes.

**CJ-395. Probation and Parole. 3 Credits.**

Techniques, procedures and regulations of supervision of criminal offenders. Training and preparation of parole and probation officers. Prerequisites: CJ-165.

**CJ-396. Community Policing. 3 Credits.**

Police involvement in the community: regular and meaningful contact, quality of life conditions, problem solving and coordination with community service organizations. Crime information, investigation and prevention through community relations. Prerequisites: CJ-170 OR CJ-175.

**CJ-400. Police Administration. 3 Credits.**

The management of law enforcement agencies recruitment and testing training and supervision, evaluation and promotion, research and planning, budget management and coordination with other municipal agencies. Prerequisites: CJ-170 OR CJ-175.

**CJ-405. Crime Investigation. 3 Credits.**

Primary crime investigation, preservation of the crime scene and identification of witnesses. Secondary investigation; use of computerized data bases, development of witnesses, role of informants, criminalistics and the role of the evidence laboratory.

**CJ-406. Homicide: Investigation and Prosecution. 3 Credits.**

Crime scenes: physical evidence and witnesses, constructing the scenario. Prosecution: case evaluation, pretrial and grand jury. Plea bargaining and trial strategies.

**CJ-418. Introduction to Forensics Techniques. 3 Credits.**

The basic concepts of forensic science emphasizing recognition, evaluation, and utilization of physical evidence. The significance of forensics; types, classification, collection and preservation of evidence; rules governing scientific and physical evidence and expert testimony.

**CJ-419. Terrorism and Threat Assessment. 3 Credits.**

Provides students interested in intelligence research with a fundamental knowledge of terrorism theory, statutes and groups. Emphasizes entities with access to radiological, biological, and chemical weapons and their delivery systems. Prerequisites: CJ-170 OR CJ-240.

**CJ-420. Drugs, Society and Human Behavior. 3 Credits.**

Processes of interaction through which substance abusing careers are developed and maintained substance abusers and crime impact upon families and communities organized public response. Prerequisites: CJ-165.

**CJ-435. Police Patrol. 3 Credits.**

The police mission in a democratic multicultural society: staffing, management and rewards for routine patrol. Traffic, calls for help, crimes in progress calls. Tactics and strategies. Prerequisites: CJ-170 OR CJ-175.

**CJ-440. Criminal Minds. 3 Credits.**

The criminal mind is determined by a number of bio-psycho-social factors and variables. This course examines the behavioral, emotional and cognitive aspects of crime and criminals, along with the biological, psychological, social, and environmental causes and correlates of violent and criminal behavior. Students will explore violence and criminal behavior as a developmental process that may begin in childhood and endure through adolescence and into adulthood. Prerequisites: PS-151, CJ-165.

**CJ-441. Careers in Criminal Justice. 3 Credits.**

Career opportunities in the highly glamorized but often misunderstood field of criminal justice at the municipal, state, county and Federal levels. Students will explore their own goals and the connection of their goals to the many careers in the criminal justice system. Prerequisites: CJ-170.

**CJ-485. Child Protection Agencies and the Law. 3 Credits.**

Emphasizes state-level child protection agencies federal and state statutes affecting child welfare and theories of abuse and maltreatment. Prerequisites: CJ-170.

**CJ-486. Internship I. 3 Credits.**

Provides students interested in pursuing careers in criminal justice with field placements in law enforcement, courts, corrections or investigative agencies. Course Type(s): Senior Seminar.

**CJ-487. Internship II. 3 Credits.**

Provides students interested in pursuing careers in criminal justice with field placements in law enforcement, courts, corrections or investigative agencies. Normally runs in the spring semester.

**CJ-489. Senior Seminar in Criminal Justice. 3 Credits.**

The capstone course for the Criminal Justice major. This course allows students the opportunity to explore career options prior to graduation, or to pursue a special topic within the Criminal Justice arena. Prerequisites: CJ-165 CJ-170 CJ-350; Course Type(s): Capstone, Senior Seminar.

**CM Courses****CM-003. Essential Writing II. 3 Credits.**

Further emphasis on preparation for essay writing. Attention to idiom, sentence patterns, and organization. Prerequisites: CM-001; Course Type(s): Remedial.

**CM-104. Introduction to English Composition I. 3 Credits.**

Featuring instruction and practice in writing and reading English prose, CM 104 places special emphasis upon individual development. The course progresses from drawing on personal experience for narrative writing to working with the diversity of standard rhetorical models. Instructional approaches include lecture, group work, and individual focus, which can be supplemented by recommended laboratory work (in CASE) in English grammar, spelling, and sentence structure. Regular use is made of peer group discussion and other non-traditional teaching techniques. Course Type(s): Core curriculum course.

**CM-104L. Introduction to English Composition I Lab. 0 Credits.**

In the ESL classroom and ESL Lab, students will receive individualized and small group instruction while participating in writers and readers workshops as well as oral language development. Course Type(s): Remedial.

**CM-115. Introduction to English Composition II. 3 Credits.**

A continuation of instruction and practice in writing and reading English prose, CM 115 also features particular emphasis upon individual development. While this course builds upon work with standard rhetorical models begun in Part I, the main focus is on deeper research (i.e., the term paper) and an oral presentation. Laboratory work at CASE is recommended to strengthen existing skills in English grammar, spelling, and sentence structure. Regular use is made of peer group discussion and other non-traditional teaching techniques. Prerequisites: CM-104; Course Type(s): Core curriculum course.

**CM-116. English Composition for Nursing Majors. 3 Credits.**

A one-semester course specifically designed for Nursing majors, CM 116 offers instruction and practice in the art of writing expository prose and the methods of crafting research papers. Students will discuss and analyze readings of short prose pieces and essays by distinguished writers to help achieve greater sophistication in their own writing. All written work, including examinations, tests the students' ability to write clearly and with deeper understanding about what they have read. Emphasis is on objectivity, accuracy, clarity of expression, logical organization, and the elimination of grammatical and mechanical errors. An oral presentation based on student research is also part of the required work. For Nursing majors ONLY and includes a mandatory lab with course instructor. Course Type(s): Core curriculum course.

**CM-120. English Composition. 3 Credits.**

A one-semester course for those who specifically place at this advanced level, CM 120 offers instruction and practice in the art of writing expository prose and the methods of crafting research papers. Students will discuss and analyze readings of short prose pieces and essays by distinguished writers to help achieve greater sophistication in their own writing. All written work, including examinations, tests the students' ability to write clearly and with deeper understanding about what they have read. Emphasis is on objectivity, accuracy, clarity of expression, logical organization, and the elimination of grammatical and mechanical errors. An oral presentation based on student research is also part of the required work. For 120 level or Honors placement ONLY. Course Type(s): Core curriculum course.

**CN Courses****CN-113. Elementary Mandarin Chinese I. 3 Credits.**

An introduction to the tones, pronunciation, characters and basic grammatical principles of Mandarin Chinese. Only for students with no previous Mandarin. Course Type(s): Core curriculum course.

**CN-114. Elementary Mandarin Chinese II. 3 Credits.**

An introduction to the tones, pronunciation, characters and basic grammatical principles of Mandarin Chinese. Only for students with no previous Mandarin. Prerequisites: AN-113 OR CN-113.

**CN-133. Intermediate Mandarin Chinese I. 3 Credits.**

Continued study of tones, pronunciation, vocabulary, and essential grammatical structures aimed at improving competence in the four language skills: listening, speaking, reading and writing. Prerequisites: AN-114 OR CN-114 OR 1 YEAR HIGH SCHOOL MANDARIN.

**CS Courses****CS-150. Introduction to Computers and Information Processing. 3 Credits.**

Study of computer systems including programming, hardware, software, information processing using business and scientific applications, robotics, and security. Emphasis on the theoretical as well as research and development aspects of computers. Students will work on assignments/projects aligned with their major and will develop web pages. Course Type(s): Core curriculum course.

**CS-177. Introduction to Computer Science and Cybersecurity. 3 Credits.**

This course is an introduction to computer science and cybersecurity. The goal of the course is to teach basic principles and at the same time prepare students for a major in computer science/cybersecurity. Topics include: The von Neumann architecture, algorithms, data structures, hardware and software, application systems, programming, cyber security, information technology ethics, and data science. Course Type(s): Core curriculum course, Freshman Seminar.

**CS-180. Introduction to Programming. 3 Credits.**

This course will teach job-market driven programming languages. Students will construct web pages using HTML and JavaScript, then move to C++, and finally Python. By the end of the course students should understand the concepts, methodologies, and techniques used in programming, including compilation, testing, and debugging. Programming constructs include syntax, control statements, arrays, strings, objects, and event handlers. Course Type(s): Core curriculum course.

**CS-190. Secure Software Development. 3 Credits.**

This is a programming course required for Cyber Security students. Students will learn how to write, test, and debug programs using secure programming techniques. They will learn how to identify key characteristics and design patterns for secure coding, and develop programs in a secure environment using the software development life cycle. Students demonstrate their knowledge through hands-on programs, exercises and case study assignments.

**CS-205. Computer Science Workshop. 1 Credit.**

A topic chosen by mutual agreement of the student and instructor will be the basis of the course and final project. Credit may be used in lieu of a natural science lab. Prerequisites: CS-180, CS-190 AND CS-231 AND INSTRUCTOR PERMISSION.

**CS-231. Software Engineering. 3 Credits.**

This course will teach students how to develop a software system from scratch by guiding them through the development process and giving them the fundamental principles of system development with object oriented technology. It will also introduce students to software development methodology, project management, and systems analysis and design as a problem-solving activity. Students will work with C++ and Python using control structures, functions, return statements, reference, arrays, and pointers. Data will be read from text files and databases. Prerequisites: CS/IS-180 OR CS-190 MA-105, MA-123 OR MA-143.

**CS-237. Java Programming. 3 Credits.**

This course is an introduction to Java, object-oriented techniques, and Java applets for the World Wide Web. Java applications are introduced prior to applets so a student has a more thorough understanding of the programming process. Java applications are built from the beginning rather than having the user manipulate pre-written objects. Pre-requisite: CS/IS-180 Prerequisites: CS/IS-180 OR CS-190.

**CS-241. Python Programming for Computer Scientists. 3 Credits.**

Python programming and coding practice. Object-oriented concepts. Python use in Artificial Intelligence applications. Prerequisites: CS/IS-180 OR CS-190.

**CS-260. Information Technology Ethics. 3 Credits.**

This course addresses the assessment of ethical principles within the application of information technologies to produce and store data and disseminate and use information. It will define and discuss computer ethics within a historical, current and future perspective by dealing with ethical issues in the workplace, privacy and anonymity, property rights, professional responsibility and globalization from the viewpoint of the individual, business and government. Prerequisites: CS-150 OR CS-177 OR CS/IS-180 OR CS-190; 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120 Course Type(s): Values,Core curriculum course.

**CS-271. Decision Support Systems. 3 Credits.**

Concepts of Decision Support Systems: Decision Support System technologies, operations research, systems analysis, decision analysis, DBMS, artificial intelligence. Decision Support System tools: data mining, data management, EXCEL. In-depth analysis of business applications, including ERP Systems, data warehouse systems and electronic commerce. Students will be required to complete a final project on designing a computer based decision support system. Prerequisites: CS-177 OR CS-180(12188) OR CS-190 OR BA-151 OR BA-155.

**CS-295. Credited Internships. 3 Credits.****CS-298. Cyber Security Virtual Internship. 3 Credits.**

In this course, students will become "cyber interns" and work in teams with course faculty, graduate assistants, and industry experts as mentors using the iQ4 online/cloud communication platform. The goal of the course is to enable students to analyze realistic case scenarios and identify the depth and breadth of cybersecurity from multiple perspectives. Students will focus on the interrelated dimensions of threats (which may include but are not limited to technical, procedural, legal, behavioral, skills/proficiencies) and the spectrum of constituent cyber domains/functional areas in which to identify solutions. The content for the course covers core competencies e.g., knowledge, skills, and abilities relating to the identification, detection, protection against, response to, and recovery from an insider threat including how to build and maintain communications with executives, peers and regulators. In addition, essential skills (e.g., teamwork and communications skills), which are required in the workforce. The assignments in the course are designed to assess both core competencies and essential (soft/professional) skills. Course Type(s): Core curriculum course.

**CS-317. C# Programming for Web-Based Application. 3 Credits.**

The design and construction of Web-based applications using the C# programming language. Students will learn how to build, manage, and deploy a database driven Web site. Prerequisites: CS-180 OR IS-180.

**CS-332. Advanced Computing. 3 Credits.**

This course will build on the CS180 and CS231 sequence. It will teach advanced concepts in job-market driven programming languages like Python, C++, PHP, Ruby, and Perl, and include the study of Data Center and Cloud Computing technology. Students will learn advanced object-oriented concepts, linked-lists, queues, stacks, maps, string processing and be able to read data from SQL Server databases. Prerequisites: CS-231.

**CS-337. Statistical Computing With R. 3 Credits.**

In this course students explore the fundamental principles of statistical computing in R. Learners will engage in topics such as the fundamentals of R, data types, matrices, data frames, control structures, input/output, libraries (e.g. ggplot2), visualizations, statistical inference, and simulations. Prerequisites: MA-212.

**CS-339. Computer Architecture and Operating Systems. 3 Credits.**

This course covers computer architecture and operating systems. From a computer architecture standpoint, we will study hardware components, gates/buses/memory, and their use in constructing adders, comparators and addressing schemes. We will also cover machine level representation of data, computer architecture and organization, assembly level machine organization, interfacing and communication, memory systems organization and architecture, functional organization, multiprocessing and alternative architectures, performance enhancements, and distributed architectures. From an operating systems standpoint, we will study privileged and non-privileged states, processes and threads (and their management), memory (real, virtual, and management), files systems, access controls (models and mechanisms), access control lists, virtualization/hypervisors, how does an OS protect itself from attack?, security design principles as applied to an OS, domain separation, process isolation, resource encapsulation, and least privilege. Additional course fee of \$75. Prerequisites: CS-231 AND/OR CS-332.

**CS-346. Machine Learning I. 3 Credits.**

Machine learning concepts include neural network and data analysis using deep learning. Classification of images and object detection using industry standard open source machine learning platform. Programs will be written in Python within a cloud computing environment. Prerequisites: CS-231 OR CS-241.

**CS-355. Found of Programming Systems. 3 Credits.**

A comprehensive overview of the design and implementation of modern programming systems. Programming languages and compiling techniques, operating systems, database structures, artificial intelligence, and knowledge based systems are studied. Prerequisites: CS-232.

**CS-370. Data Structures. 3 Credits.**

This course provides students with an understanding of the basic abstract data types, associated operations and applying them to solve problems. Topics include: strings, lists, vectors, arrays, heaps, queues, stacks, buffers, searching and sorting, trees, and data formats. Prerequisites: CS-332 MA-123 OR MA-143.

**CS-399. Cyber Crime: The Dark Side of the Web. 3 Credits.**

In this course, students will become "cyber interns" and work in teams with course faculty and industry experts as mentors using the iQ4 online/cloud communication platform. The goal of the course is to enable students to analyze realistic case scenarios in fraud, cyber terrorism/warfare, extortion, cyber theft, and trafficking and identify the depth and breadth of cybersecurity from multiple perspectives. Students will focus on these types of threats: brute force attacks, ransomware, data breaches, illicit traffic, phishing, and denial of service. The content for the course covers core competencies e.g., knowledge, skills, and abilities relating to the identification, detection, protection against, response to, and recovery from cyber-attacks including how to build and maintain communications with executives, peers and regulators. Course Type(s): Core curriculum course.

**CS-415. Robotics Fundamentals and Programming. 3 Credits.**

Introduction to parallel programming in Ada and Java. Students will write programs for cell phones and intelligent devices such as a robot. Additional course fee of \$75. Prerequisites: CS-231 OR CS-237.

**CS-446. Machine Learning II. 3 Credits.**

Machine learning concepts include neural network and data analysis using deep learning. Classification of images and object detection using industry standard machine learning framework. Programs will be written in C# within an integrated development environment. Prerequisites: CS-346.

**CS-470. Introduction to Artificial Intelligence. 3 Credits.**

Knowledge representation, cognitive simulation, machine learning, natural language processing, network technology. Prerequisites: CS-370.

**CS-489. Network Technology Protocols and Defense. 3 Credits.**

In this course we will provide students with an understanding of the components in a network environment, their roles, and communication methods and the techniques that can be taken to protect network and communication assets from cyber threats. Topics include: network architectures/infrastructure/services/protocols (TCP/IP - v4 and v6, DNS, HTTP, SSL, TLS), network address translation and sub-netting, network analysis/troubleshooting, network evolution (change management, BYOD), remote and distributed management, implementing IDS/IPS, firewalls and VPNs, honeypots and honeynets, network monitoring and traffic analysis, minimizing exposure (attack surface and vectors), network access control (internal and external), DMZs / proxy servers, network hardening, mission assurance, network policy development and enforcement, network operational procedures, and network attacks (e.g., session hijacking, man-in-the-middle). Prerequisites: IS-380.

**CS-490. Independent Study in Computer Science. 3 Credits.**

For the superior student to pursue, under faculty supervision, for research topics not covered in courses offered.

**CS-495. Cryptology. 3 Credits.**

This course gives a historical introduction to Cryptology, the science of secret codes. It begins with the oldest recorded codes, taken from hieroglyphic engravings, and ends with the encryption schemes used to maintain privacy during Internet credit card transactions. Since secret codes are based on mathematical ideas, each new kind of encryption method leads in this course to the study of new mathematical ideas and results. The first part of the course deals with permutation-based codes: substitutional ciphers, transpositional codes, and Vigenere ciphers. In the second part of the course, the subject moves to bit stream encryption methods. These include block cipher schemes such as the Data Encryption Standard (DES). Public key encryption is the subject of the final part of the course. We learn the mathematical underpinnings of Diffie-Hellman key exchange, RSA and Knapsack codes. Software packages and tools will also be studied. Prerequisites: IS-381.

**CS-496. Cybersecurity and Digital Forensics Lab. 3 Credits.**

This course is designed to provide students with hands-on experience with cyber security and digital forensics tools and the skills to apply forensics techniques throughout an investigation life cycle with a focus on complying with legal requirements. The course will accomplish its goals through lecture, classroom discussion, and a number of in-lab exercises and projects. Topics and assignments cover: network attacks, intrusion detection systems, digital forensics tools, legal compliance and applicable laws, affidavits, how to testify, case law, chain of custody procedures, digital investigations, E-discovery, authentication of evidence, metadata, root cause analysis, and using virtual machines for analysis. Additional course fee of \$75. Prerequisites: IS-381 OR CS-495.

**CS-499. Capstone for Computer Science. 3 Credits.**

The Capstone Course offers students the opportunity to integrate the knowledge acquired in preceding computer science and information system courses. Students work on projects specific to their Computer Science concentration. Team projects in software design, programming, and implementation will be assigned. Components that are emphasized include analysis and design, team dynamics, project management, documentation, verification and validation of implementation, and communication skill (oral and written). Final projects are to be evaluated by Department of Computer Science faculty. Students present their final projects. Example of project categories: - Cloud Computing - Commercial/Scientific Programming - Android/iPhone Market Application - GPS Mapping - Robotics - Web Applications - Snap Chat Security - Cybersecurity - Cryptography Course Type(s): Capstone, Writing Intensive.

**CU Courses****CU-101. Communication Basics. 3 Credits.**

An entry level look at communication models and research. Students will think critically about verbal and non-verbal messages interpersonally and through media.

Immigration in history; patterns of movement; immigration and refugees; adjustment and resettlement; immigration law. The needs of immigrants; housing, employment education, medical care. Prerequisites: SO-121 OR UR-151; Course Type(s): Pluralism, Core curriculum course.

**LS-265. Social Justice in Latin American Film. 3 Credits.**

Analysis of film, viewed politically and socially, as a mediator of the dynamics of tradition and change in Latin America. Prerequisites: LS-101 OR INSTRUCTOR APPROVAL; 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120 Course Type(s): Values,Core curriculum course.

**LS-276. Comparative Social Movements. 3 Credits.**

From Hong Kong to Chile, Wall Street to Plaza de Mayo, the last few years have demonstrated that the politics of protest and collective mobilization play an ever more relevant part in the contemporary dynamics of political resistance and social change. Through the comparative study of social movements around the globe, this course provides an overview of theoretical approaches and transdisciplinary insights into the study of collective action. Class discussions will go beyond stigmatized connections between social action and social unrest to explore topics such as performance and everyday resistance strategies, power and identity relations and other factors that allow for a critical perspective on the field.

**LS-292. Translation. 3 Credits.**

Practice in technical, commercial, scientific translation, legal documents and business correspondence, Spanish English, English- Spanish. Taught in Spanish. Prerequisites: SP-134 SP-136 OR SP-199 OR 3-4 YEARS H.S. SPANISH.

**LS-294. Business Writing in Spanish. 3 Credits.**

Review of Spanish grammar and syntax through the study of various forms of business writing, including letters, memos, bills, order forms, receipts, resumes, and other forms of correspondence. Prerequisites: SP-114 OR 1-2 YEARS HIGH SCHOOL SPANISH. Course Type(s): Core curriculum course.

**LS-295. Credited Internships. 3 Credits.****LS-310. Feminist Political Theory. 3 Credits.**

Historical overview of feminist political activity in the United States and an analysis of feminist theory: liberal feminism, Marxist feminism, radical feminism, and post-modern feminism. Course Type(s): Pluralism,Core curriculum course.

**LS-335. Latino Marketing Communication Culture. 3 Credits.**

An in-depth, critical examination of marketing and communication strategies in the Latino community. The course invites students to explore what the terms Latino and Latino culture mean, question their saliency, and to weight the implications that marketing and communication campaigns can have on consumption patterns, entrepreneurship, organizations, and Latino identity. Prerequisites: BA-155 OR LS-101 OR SO-121 OR EC-101; OR PERMISSION OF INSTRUCTOR. Course Type(s): Pluralism,Core curriculum course.

**LS-337. Non-Western Perspective to International Relations. 3 Credits.**

This course will introduce the study of International Relations (IR) from post-colonial and decolonial perspectives. Course readings and discussions will examine biases and limitations of mainstream western-oriented perspectives on the field. While recognizing the varied scope of post-colonial and decolonial literature, course materials will explore "subaltern" frames of reference that cut across North-South divides, debate racialized and genderized assumptions about nationality and culture, and promote "counter-hegemonic" reflection on prevailing concepts, norms and institutions in IR.

**LS-351. Issues in the Latino Community. 3 Credits.**

The Socio-economic and political origins of the various Hispanic peoples, with analysis of Social issue arising from Hispanic involvement in American Societal institutions, i.e. education, politics, family, etc. Prerequisites: SO-121 OR UR-151 OR LS-101; Course Type(s): Pluralism,Core curriculum course.

**LS-354. Minority Group Relations. 3 Credits.**

A study of the history, conditions, and contributions of racial minority groups within the United States. Special emphasis on developments involving African Americans, Hispanics, and Asian Americans.

**LS-359. Seminar: Literature of the Boom II. 3 Credits.**

Continued analysis of the representative texts of the explosion of Hispanic-American literary production onto the world market, in their literary, historical, and cultural contexts. Prerequisites: SP-134 OR SP-136 OR INSTRUCTOR APPROVAL.

**LS-368. Health and Inequalities: Race, Class and Gender. 3 Credits.**

This course critically examines the relationship between health status and social inequalities along the lines of race and ethnicity, social class and gender. We begin with an overview of epidemiology and the idea of studying health from a sociological perspective. We then consider the complex relationship between socio-economic status (class) and health statuses, followed by an examination of specific health issues for major racial/ethnic minorities and gender groups. We will try to understand how low socioeconomic status leads to poor health, how conscious, unconscious, and institutionalized racial/gender bias affects medical care and health outcomes, and address ideas for reducing health disparities among all groups. Prerequisites: SO-121 Course Type(s): Pluralism,Core curriculum course.

**LS-384. Cultural Anthropology. 3 Credits.**

An analysis of the development of anthropology as an offshoot from Sociology; an examination of the differences in the methodology of anthropology and Sociology in the study of a variety of cultures. Prerequisites: SO-121 OR UR-151; 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120 Course Type(s): Values,Writing Intensive,Pluralism,Core curriculum course.

**LS-392. Caribbean Literature. 3 Credits.**

This course will explore aspects of Caribbean literature in Spanish from Puerto Rico, Cuba, and the Dominican Republic. Readings will include essays, short stories, poems, and novels from the Encounter to the present. Taught in Spanish. Prerequisites: SP-134 OR SP-136 OR INSTRUCTOR APPROVAL.

**LS-412. Ethnicity and Race in Urban History. 3 Credits.**

Includes the African and European immigrant experiences in America, the effects of slavery and urbanization, and the formation of class consciousness. Prerequisites: SO-121 OR LS-101, AND SO-280 AND SO-384; 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120 Course Type(s): Values,Capstone,Writing Intensive,Pluralism,Core curriculum course.

**LS-452. Economic Development. 3 Credits.**

Measurement and income distribution - obstacles, constraints, factors, and theories of economic development. Aid, planning, and actual experiences. New consideration to the development process. Prerequisites: EC-101, EC-102.

**LS-481. Immigration: Walls Or Welcome?. 3 Credits.**

This course focuses on past and present immigration policies in the U.S. as well as immigration activism. Course Type(s): Pluralism.

**LS-489. Globalization and Fieldwork Seminar. 3 Credits.**

Short term study/travel course in which students conduct first hand investigations on the effects of globalization in relevant settings. Specific area and topics determined at the beginning of the Academic Year. Locations change every term. Additional travel course fee of \$50. Prerequisites: SO-121 UR-151 PO-150 OR LS-101; Course Type(s): International (Travel),Pluralism.

**LS-490. Seminar Don Quijote. 3 Credits.**

Readings, research, and critical analysis of the Cervantes novel in its socio-historical context. Taught in Spanish. Prerequisites: SP-134 SP-136 OR SP-199.

**LS-493. Hispanic Heritage and Identity. 3 Credits.**

This course will consider the heritage and identity of Hispanics in the U.S. today. By examining texts in English and Spanish, students will develop a sense of how U.S. Hispanics express their identity through literature. Taught in Spanish. Prerequisites: SP-134 SP-136 OR SP-199.

**LS-494. Hispanic Experience in the U.S.. 3 Credits.**

Study of the heritage and identity of Hispanics in the U.S., especially as these are expressed in and through literary texts. Prerequisites: SP-134 OR SP-136 OR INSTRUCTOR APPROVAL.

**LS-495. Internshp in International Settings. 3 Credits.**

Planned and supervised off-campus working experiences overseas or with international organizations integrated with independent academic study under the tutelage of the Director of International and intercultural Studies.

**LS-496. Urban Internship. 3 Credits.**

Advanced levels of field work emphasizing synthesis of social theories with work experience. Seminars held and an evaluation paper required. Prerequisites: SO-121 OR UR-151.

**LS-497. Advanced Urban Internship. 3 Credits.**

Advanced levels of field work emphasizing synthesis of social theories with work experience. Seminars held and an evaluation paper required. Prerequisites: SO-121 OR UR-151.

## LW Courses

### **LW-155. Seminar in Contemporary Legal Issues. 3 Credits.**

A course open to all students examining current legal issues in a seminar setting. This course will acquaint students with the issues that are at the forefront of the legal environment such as physician assisted suicide, legal issues relating to the world-wide web, capital punishment, drug laws and their enforcement, abortion and the law, affirmative action and race-conscious preferences, and sex offender notification laws. Prerequisites: 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120 Course Type(s): Values, Core curriculum course, Senior Seminar.

### **LW-156. Legal Aspects of Health Care. 3 Credits.**

Analysis of the legal aspects of health care, including general contracts, confidentiality of records, insurance liability, and malpractice.

## MA Courses

### **MA-100. Fundamentals of College Algebra. 3 Credits.**

Brief review of real numbers and variable expressions; solving equations and inequalities; linear functions; polynomials; factoring; rational expressions; rational exponents and radicals.

### **MA-101. Precalculus. 3 Credits.**

Brief review of basic algebraic concepts; functions (general concepts, linear, quadratic); polynomial and rational functions; exponential and logarithmic functions; summary of trigonometric functions; application problems. Course Type(s): Core curriculum course.

### **MA-102. Mathematics for the Liberal Arts. 3 Credits.**

Topics to be chosen from the following: problem solving; logic; consumer mathematics; personal finance; voting and apportionment; mathematics and the arts; mathematics of growth; graph theory; number theory. Additional topics may be covered at the discretion of the instructor. This course will contain an integrated review component. Course Type(s): Core curriculum course.

### **MA-103. Probability and Statistics for Liberal Art. 3 Credits.**

Set theory, finite probability, collection of data, graphical displays of data, summary statistics, the normal distribution, linear regression and correlation. Additional topics may be covered at the discretion of the instructor. This course will contain an integrated review component. Course Type(s): Core curriculum course.

### **MA-105. Elementary Applied Mathematics. 3 Credits.**

Introduction to ways in which everyday situations can be modeled and studied mathematically: networks, voting, coding, and finance. Course Type(s): Core curriculum course.

### **MA-106. Introduction to Probability and Statistics. 3 Credits.**

Describing data collections using measures (e.g., center and spread) and graphical representations (e.g., histograms and plots), estimating probabilities for discrete and continuous distributions, and making statistical inferences using selected approaches (e.g., confidence intervals, hypothesis testing, linear regression analysis). Course Type(s): Core curriculum course.

### **MA-108. Mathematics for Educators I. 3 Credits.**

In-depth study of the concepts that underlie the mathematics of the elementary school curriculum in the United States. Topics include set theory, numeration, mathematical thinking, number theory, and the four basic operations of mathematics. This course is intended for individuals who expect to teach in primary school. Course Type(s): Core curriculum course.

### **MA-109. Mathematics for Educators II. 3 Credits.**

Topics include the real number system, proportional reasoning, statistics, probability, and measurement systems. This course is intended for individuals who expect to teach in primary school. Course Type(s): Core curriculum course.

### **MA-115. Medical Dosage Calculations for Nursing. 3 Credits.**

This course is designed for students in nursing so that they can master skills of basic math, emphasis on clinical relevance of math to its application in the clinical setting. Prerequisites: NU-202, NU-210; Course Type(s): Core curriculum course.

### **MA-123. Elementary Calculus I. 3 Credits.**

Differential calculus of polynomial and rational functions; applications of calculus to problems in business and economics. Course Type(s): Core curriculum course.

**MA-124. Elementary Calculus II. 3 Credits.**

Exponential and logarithmic functions, integral calculus, differential equations; applications to problems in business and economics. Prerequisites: MA-123 OR MA-133; Course Type(s): Core curriculum course.

**MA-125. Intermediate Calculus. 2 Credits.**

This course is intended for students (e.g., computer science majors) who have completed 6 credits of calculus and who now wish to take Multivariable Calculus. Prerequisites: MA-124.

**MA-132. Statistics for Life Sciences. 3 Credits.**

Basic methods of data analysis. Topics include displaying data graphically; measures of central tendency and variability; probability concepts; normal, t, chi-square, and F distributions; confidence intervals and estimation; hypothesis testing; regression and correlation analysis; analysis of variance; contingency tables; use of statistical software. Biological applications are emphasized. Course Type(s): Core curriculum course.

**MA-133. Calculus for the Life Sciences. 4 Credits.**

Polynomial, rational, and trigonometric functions; limits, continuity, derivatives; graphs, maximum-minimum problems; exponential and logarithmic functions, growth and decay problems integrals, basic integration techniques, applications of the integral. Biological applications are emphasized. Course Type(s): Core curriculum course.

**MA-143. Differential Calculus. 4 Credits.**

Limits and continuity; the derivative; chain rule and differentiation of algebraic functions; extrema; applications; the Mean Value Theorem. Course Type(s): Core curriculum course.

**MA-144. Integral Calculus. 4 Credits.**

The definite integral and the Fundamental Theorem of the Calculus; applications; transcendental functions; methods of integration. Prerequisites: MA-133 OR MA-143; Course Type(s): Core curriculum course.

**MA-212. Elementary Statistics. 3 Credits.**

Descriptive statistics, laws of probability, some standard probability functions, central limit theorem, confidence intervals, hypothesis testing. Course Type(s): Core curriculum course.

**MA-214. Mathematics of Finance. 3 Credits.**

Interest, partial payment, ordinary annuities, depreciation, amortization, sinking funds bonds, deferred annuities, perpetuities probability, mortality tables, life annuities, life insurance. Prerequisites: MA-106 OR MA-132 OR MA-212 OR MA-124 OR MA-133 OR MA-144 OR MA-273 OR INSTRUCTOR PERMISSION.

**MA-216. Computer Mathematics. 3 Credits.**

Number systems, internal representation, errors logic, Boolean algebra, circuits algorithms, efficiency counting, probability. Prerequisites: MA-106 OR MA-132 OR MA-212 OR MA-124 OR MA-133 OR MA-144 OR MA-273 AND CS-180.

**MA-218. Quantitative Methods for Business. 3 Credits.**

Students will explore methods to perform quantitative analysis and make decisions within a business context and elsewhere. Selected topics may include mathematical modeling and sensitivity analysis, techniques for decision making with uncertainty or risk, regression and forecasting models, linear and integer programming with applications such as transportation and assignment models, network models, project management, waiting line or queuing theory, and probability theory with Markov analysis. Course Type(s): Core curriculum course.

**MA-222. Intermediate Statistics. 3 Credits.**

This course extends the statistical data analysis introduced in MA-212 or MA-132. Students will explore additional topics in parametric and non-parametric methods, including analysis of variance (ANOVA) and multiple regression. Learner will also actively design statistical experiments and interpret data sets. Students will use statistical software and computer programming as tools to assist with data analysis. Prerequisites: MA-212 OR MA-132 OR PERMISSION OF INSTRUCTOR.

**MA-247. Introductory Linear Algebra. 3 Credits.**

Matrix calculus vector spaces linear independence and bases linear transformations on vector spaces eigenvalues and eigenvectors. Prerequisites: MA-124 OR MA-144 OR PERMISSION OF INSTRUCTOR.

**MA-248. Math Tech Lab. 1 Credit.**

Software for numerical and symbolic computations (such as MatLab and Mathematica), and mathematical typesetting (such as TeX) Prerequisites: MA-144 OR MA-125 ; OR INSTRUCTOR PERMISSION Course Type(s): Lab Courses.

**MA-250. Transition to Advanced Mathematics. 3 Credits.**

Students will learn the language and tools necessary for advanced mathematics, including sets, logic, various types of mathematical proof (direct, contradiction, contrapositive, induction, disproof), functions, and relations, with an emphasis on producing concise and rigorous arguments. Prerequisites: MA-101 OR MA-105 OR MA-106 OR MA-108 OR MA-109 OR MA-123 OR MA-124 OR MA-125 OR MA-132 OR MA-133 OR MA-143 OR MA-144 OR MA-212 OR MA-218 OR MA-222 OR MA-273 OR MA-274.

**MA-273. Multivariable Calculus I. 4 Credits.**

Integration techniques, 2-and-3 dimensional vector geometry functions of several variables, limits, directional derivatives, partial differentiation, extrema double and Triple integrals. Prerequisites: MA-144 OR MA-125(12089).

**MA-274. Multivariable Calculus II. 4 Credits.**

Limits and L'Hospital's Rule, improper integrals, infinite sequences and series power series, Taylor series, selected topics in multivariable calculus. Prerequisites: MA-273.

**MA-295. Credited Internships. 3 Credits.**

Co-operative work experience. Course Type(s): Independent Study.

**MA-302. Elementary Math Functions for Middle School. 3 Credits.**

Functions and equations, arithmetic and geometric sequences, mathematical methods, linear functions, difference equations, quadratic and cubic functions, exponential and logarithmic functions, domain and range, fitting a line to data and modeling, and associated mathematical processes. Methods for learning and teaching the topics are addressed concurrently with the content.

**MA-304. Statistics, Probability and Discrete Math for Middle School. 3 Credits.**

Topics include collecting, summarizing, and interpreting data, sampling techniques, fundamental concepts of probability, counting techniques, Euler and Hamiltonian circuits, shortest distance algorithms, and associated mathematical processes. Methods for learning and teaching the topics are addressed concurrently with the content.

**MA-306. Geometry for Middle School. 3 Credits.**

Metric and US standard measurement, inductive and deductive reasoning, Euclidean geometry of two and three-dimensional figures including, but not limited to: area, perimeter, volume, surface area, congruency, similarity, rotation and transformation. Coordinate geometry, iteration and fractals, geometry in the world around us, and associated mathematical processes. Methods for learning and teaching the topics are addressed concurrently with the content.

**MA-316. Intermediate Discrete Mathematics. 3 Credits.**

Students will engage with noncontinuous mathematics, the mathematical language of computer science, information theory, etc. Topics may include but are not limited to graph theory, recurrence relations, generating functions, algorithms, partially ordered sets, lattices, and finite geometries. Prerequisites: MA-250.

**MA-335. Probability Theory. 3 Credits.**

Probability spaces, random variables, expectation, variance, standard deviation, binomial, multinomial, and Poisson distributions approximations by the normal distribution, Chebyshev's Inequality. Prerequisites: MA-273.

**MA-336. Mathematical Statistics. 3 Credits.**

Law of large numbers, Central Limit Theorem, estimation of parameters, confidence intervals, test of hypotheses, sampling, regression, analysis of variance. Prerequisites: MA-124 OR MA-144 OR MA-273 TAKING MA-335 AS A PRE-REQUISITE IS RECOMMENDED, THOUGH NOT REQUIRED.

**MA-337. Statistical Computing With R. 3 Credits.**

In this course students explore the fundamental principles of statistical computing in R. Learners will engage in topics such as the fundamentals of R, data types, matrices, data frames, control structures, input/output, libraries (e.g. ggplot2), visualizations, statistical inference, and simulations. Prerequisites: MA-132 OR MA-212 OR MA-222 OR MA-335 OR MA-336 OR PERMISSION OF INSTRUCTOR.

**MA-350. College Geometry. 3 Credits.**

Study of Euclidean and other geometries from an axiomatic point of view. Prerequisites: MA-247 OR MA-250 OR PERMISSION OF INSTRUCTOR.

**MA-375. Advanced Calculus. 3 Credits.**

Real numbers, sequences, limits of sequences and functions, continuity, differentiation, theory of integration, pointwise and uniform convergence. Prerequisites: MA-274.

**MA-377. Ordinary Differential Equation. 3 Credits.**

Existence and uniqueness of solutions, first and second order equations, systems of linear differential equations, solutions in power series applications. Prerequisites: MA-247 AND MA-274.

**MA-379. Differential Equations for Engineers. 4 Credits.**

This Course is an Expanded Version of MA-377 and includes the following additional topics: The Laplace Transform, Partial Differential Equations and Fourier Series. Prerequisites: MA-274 AND MA-247.

**MA-382. Mathematical Modeling. 3 Credits.**

The nature and philosophy of model building algebraic and analytic models in the social, physical, and life sciences. Prerequisites: MA-273 MA-247 OR MA-250.

**MA-385. Topics in Applied Mathematics. 3 Credits.**

Topics vary by term. Prerequisites: MA-273 MA-247 OR MA-250.

**MA-387. Topics in Mathematics. 3 Credits.**

Topics vary by term. Prerequisites: MA-273 MA-247 OR MA-250.

**MA-389. Topics in Statistic Regression Analysis. 3 Credits.**

Topics vary by term. Examples may include but are not limited to the following: Analysis of Variance and Multivariate Statistical Analysis, Non-Parametric or Distribution-Free Inferential Statistics, Regression Analysis, Design of Experiments and Data Interpretation, Bayesian Statistics, and Statistical Programming. Prerequisites: MA-132 OR MA-212 OR MA-222 OR MA-336 OR EC-300 OR PS-200 OR SO-448 OR PERMISSION OF INSTRUCTOR.

**MA-399. Independent Study. 3 Credits.****MA-400. History of Mathematics. 3 Credits.**

Learners will examine various mathematical concepts and constructs, exploring the diverse cultural contexts and historical perspectives that framed them students will solve representative problems that illuminate and illustrate these mathematical discoveries and developments from across the centuries, from antiquity through the modern era. Prerequisites: MA-124 OR MA-144 OR MA-273 MA-250 OR MA-247 OR PERMISSION OF INSTRUCTOR.

**MA-417. Introduction to Topology. 3 Credits.**

In this survey course of introductory pure mathematical topics in topology, students will explore the nature of abstract geometric spaces. Learners will generalize the concepts of continuity and connectedness to general spaces, construct new spaces from old ones using the product and quotient topologies, and apply algebraic invariants such as the Euler number and fundamental group to show that two spaces cannot be deformed into one another. Prerequisites: MA-250, MA-124 OR MA-133 OR MA-144 OR MA-273.

**MA-441. Modern Algebra. 3 Credits.**

Introduction to modern algebraic concepts theory of groups, rings, and fields. Prerequisites: MA-250 MA-247 OR PERMISSION OF INSTRUCTOR.

**MA-442. Topics in Modern Algebra. 3 Credits.**

Topics may include but are not limited to the following: group theory, symmetry groups, Sylow theorems, algebraic coding theory, finite field theory, field extensions, Galois theory, and constructible numbers. Prerequisites: MA-441 OR PERMISSION OF INSTRUCTOR.

**MA-467. Functions of a Complex Variable. 3 Credits.**

Complex numbers, analytic functions, elementary functions, mapping of elementary functions, integrals. Prerequisites: MA-274.

**MA-481. Numerical Analysis. 3 Credits.**

Use of the computer to solve numerical problems. Error analysis solutions of equations linear systems interpolation approximation integration. Prerequisites: MA-273 MA-247 CS-180.

**MA-490. Senior Seminar in Mathematics. 3 Credits.**

In this capstone course, graduating senior Mathematics majors will explore areas of mathematics that draw on many of the previous courses, emphasizing the connection between different areas of mathematics. This culminating academic experience for the major will include writing, presentations, and contemporary mathematics research. Prerequisites: MA-441 OR MA-400 OR PERMISSION OF INSTRUCTOR; SENIOR MATHEMATICS MAJORS ONLY. Course Type(s): Capstone, Writing Intensive.

## ML Courses

### **ML-110. American Sign Language I. 3 Credits.**

This beginners' course develops expressive and receptive skills, vocabulary knowledge, and sensitivity to deaf culture. The history and social environment of the deaf community will be presented and discussed.

### **ML-111. American Sign Language II. 3 Credits.**

This beginners' course develops expressive and receptive skills, vocabulary knowledge, and sensitivity to deaf culture. The history and social environment of the deaf community will be presented and discussed. Prerequisites: ML-110.

### **ML-125. Intensive American Sign Language. 6 Credits.**

Intensive development of expressive and receptive skills, vocabulary, and sensitivity to deaf culture, and study of the history and social environment of the deaf community.

### **ML-258. The Baroque Aesthetic. 3 Credits.**

Literature from the Age of Versailles, monarchy, and the Counter Reformation. Excerpts from French, Spanish, and Italian literary works of the Baroque.

### **ML-305. Romanticism. 3 Credits.**

Interdisciplinary study of the Romantic Movement based on reading of primary texts and critical evaluations. Taught in English; individual projects in target languages.

## NS Courses

### **NS-320. Ethics and Responsibility in STEM Disciplines. 3 Credits.**

This course is an introduction to the ethical issues faced by researchers in Science, Technology, Engineering, and Mathematics. When faced with monetary, societal, political, environmental, and personal pressures, what choices should a researcher make? In this course we will examine choices made by actual STEM practitioners and consider the ethical issues involved. Ethical issues may include but are not limited to publication standards, intellectual property rights, whistleblowing, conflicts of interest, human and animal subjects, robots, diversity, and societal and environmental impacts. Historical cases may include but are not limited to cold fusion, HIV, the Challenger explosion, the Stanford prison experiment, and the Algebra Project. Prerequisites: 4 GROUPS; # CM-115 CM-117 OR CM-120; # 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120 # BI-183 CH-131 PC-185 OR PS-151; # MA-123 MA-133 MA-143 MA-273 CS-180 IS-180 OR CS-231; OR INSTRUCTOR PERMISSION Course Type(s): Values, Writing Intensive, Core curriculum course.

## NU Courses

### **NU-202. Theoretical Bases of Professional Nursing. 3 Credits.**

The evolution of professional nursing is explored and the development of professional identity is facilitated by the introduction of values inherent to the discipline of nursing including social justice. Nursing theory, as well as other selected theories and concepts, are examined including: health belief model, teaching/learning theory, culture/global health, evidence-based practice and the nursing process. Additional course fees. Prerequisites: BI-171, BI-172, ADMISSION TO NURSING MAJOR.

### **NU-202L. Theoretical Bases of Professional Nursing Lab. 0 Credits.**

Lab paired with lecture on: the evolution of professional nursing is explored and the development of professional identity is facilitated by the introduction of values inherent to the discipline of nursing including social justice. Nursing theory, as well as other selected theories and concepts, are examined including: health belief model, teaching/learning theory, culture/global health, evidence-based practice and the nursing process. Prerequisites: BI-171 BI-172 PS-151; Course Type(s): Lab Courses.

### **NU-204. Nutrition and Health. 3 Credits.**

This course focuses on the role of nutrition in health and healing. The study of essential nutrients and their function is emphasized. Meeting dietary requirements across the life span is explored. The impact of pluralistic and public health factors on dietary practices is discussed.

### **NU-210. Pharmacology for Professional Nursing Practice. 3 Credits.**

The focus of this course is on pharmacological therapy, major drug classifications, including prototypes, are addressed for each of the body systems. Nursing implications of safe drug administration as well as the pluralistic factors affecting medication therapy are stressed. Additional course fees. Course Type(s): Senior Seminar.

**NU-250. Clinical Bases of Professional Nursing. 5 Credits.**

Basic interpersonal and technical nursing skills utilized to provide care for well and ill individuals are introduced. Knowledge and skills required to assess, prioritize, plan, implement and evaluate health care are emphasized. Concepts related to nutrition and medication therapy are applied. Pluralistic as well as legal and ethical issues related to quality care are stressed. College laboratory and clinical experiences in selected health care settings. Additional course fees. Course Type(s): Senior Seminar.

**NU-250L. Clinical Bases of Professional Nursing Lab. 0 Credits.**

Clinical Bases Lab Prerequisites: NU-250 Course Type(s): Lab Courses.

**NU-302. Seminar in Professional Nursing. 2 Credits.**

The course is designed to examine the evolution of professional nursing through a synthesis of the social, cultural, philosophical, historical and theoretical influences. The development of a professional identity is facilitated by encouraging students to derive meaning from the core values central to the nature of nursing. Course Type(s): Senior Seminar.

**NU-303. Seminar in APA Writing for Health Science. 2 Credits.**

A course to help the RN-BSN student learn APA writing style required for nursing and other health sciences. Course Type(s): Senior Seminar.

**NU-304. Pathophysiology. 3 Credits.**

This course uses a systems approach to examine the human response patterns to health and illness. Physiological processes and pathological changes are explored in depth. Additional course fees.

**NU-308. Health Assessment. 3 Credits.**

The major focus of this course is on a holistic approach to health appraisal of the individual client. The nursing process, with an emphasis on assessment and planning is analyzed and applied in dealing with individuals in the college laboratory. Concepts related to health promotion, risk identification and client education are stressed. Additional course fees.

**NU-308L. Health Assessment Lab. 0 Credits.**

Health Assessment Lab Prerequisites: NU-308 Course Type(s): Lab Courses.

**NU-310. Health Assessment. 4 Credits.**

Major focus is on a holistic approach to health appraisal of the individual client across the life span. The nursing process, with an emphasis on assessment and planning is analyzed and applied in dealing with individuals in the college laboratory. Concepts related to health promotion, risk identification and client education are stressed. Additional course fee.

**NU-312. Nursing Care for Adults and Aging I. 5 Credits.**

Application of the nursing process in caring for adults and older clients with chronic health care needs. Normal aging and adaptations in self-care needed as a result of age related changes will be discussed. Pluralistic factors including nutrition and medication therapy are integrated. Legal and ethical issues are applied. College laboratory and clinical experiences in selected health care settings. Additional course fees. Prerequisites: NU-308 AND NU-312L.

**NU-312L. Nursing Care for Adults and Aging Lab. 0 Credits.**

Nursing Care Adults & Aging Lab Prerequisites: NU-312 Course Type(s): Lab Courses.

**NU-315. Nursing Care for Adults and Aging II. 5 Credits.**

A continuation of the Nursing Care of Adults and Aging, I, this course builds and expands the knowledge and skill base related to caring for adults and older clients with acute and chronic health needs. Pathologic conditions associated with aging are discussed. Pluralistic factors including nutrition and medication therapy are integrated. Legal and ethical issues are applied. Clinical experiences in selected health care settings. Additional course fees. Prerequisites: NU-312.

**NU-315L. Nursing Care for Adults and Aging II Lab. 0 Credits.**

Laboratory for Nursing Care for Adults and Aging II, NU-315 Clinical experiences in selected health care settings. Prerequisites: NU-315 Course Type(s): Lab Courses.

**NU-325. Nursing Care of Child-Bearing Families. 5 Credits.**

The use of the nursing process to provide care for child-bearing families is examined. Nursing care of clients during pregnancy, childbirth, the postpartum and newborn periods is stressed. Pluralistic factors as well as nutrition and medication therapy are integrated. Strategies to promote health and care for clients with physiological and psychological alterations are discussed. Normal family functioning and the impact of pregnancy on the family is considered. College laboratory and clinical experiences in selected health care settings. Additional course fees. Prerequisites: NU-308 NU-312.

**NU-325L. Nursing Care of Child-Bearing Families Lab. 0 Credits.**

Laboratory for Nursing Care of Child-Bearing Families, NU-325 Clinical experiences in selected health care settings. Prerequisites: NU-325 Course Type(s): Lab Courses.

**NU-330. Care of Families and Aggregates. 4 Credits.**

Major focus is on primary and tertiary prevention within a social systems framework. Creative application of nursing process to families and groups utilizing family systems theory and group dynamics.

**NU-350. Trends and Issues in Nursing. 2 Credits.**

Current status of professional nursing. Political, economic and social trends affecting nursing and the health care system are analyzed. Issues in professional practice and education are explored. Prerequisites: NU-302.

**NU-360. Computer Application in Nursing and Health Care. 2 Credits.**

The application of computer technology to patient care, nursing practice, research, education and management is explored. Health care information management systems are introduced.

**NU-390. Introduction to Nursing Research. 3 Credits.**

Understanding of the research process and critique of research studies. The relevance of nursing research findings for the provision of patient care is discussed. Students develop a research paper through an interactive process with faculty and peers. Course Type(s): Senior Seminar.

**NU-399. Independent Study. 2 Credits.****NU-404. Psychiatric-Mental Health Nursing. 5 Credits.**

This course focuses on the use of the nursing process to provide care for individuals, families and aggregates with alterations in mental health. Pluralistic factors as well as medication therapy are integrated. Strategies to promote mental-health are discussed. Nursing care of clients with acute and chronic alterations in psychological functioning are stressed. Clinical experiences are provided in psychiatric-mental health agencies in selected health care and community settings. Additional course fees.

**NU-404L. Psychiatric-Mental Health Nursing Lab. 0 Credits.**

Psychiatric-Mental Health Lab Prerequisites: NU-404 Course Type(s): Lab Courses.

**NU-414. Nursing Care of Children and Adolescents. 5 Credits.**

The nursing process is used as a framework to provide care for children and adolescents with physical and psychological alterations in health. Pluralistic factors including nutrition and medication therapy are integrated. Strategies to promote health as well as developmental needs and problems are discussed. Normal family functioning and the impact of illness on the family are explored. College laboratory and clinical experiences in selected health care settings. Additional course fees.

**NU-414L. Nursing Care of Children and Adolescents Lab. 0 Credits.**

Nursing Care Child& Adlsnt Lab Prerequisites: NU-414 Course Type(s): Lab Courses.

**NU-416. Social Justice Ethics and Health Care. 3 Credits.**

Political, economic and social justice issues affecting patient care and the health care system are examined. Accessibility and affordability of health care services including the needs of vulnerable populations are explored. Strategies to promote social justice and ethical behavior within the health care system are stressed. Values course. Prerequisites: NU-390; 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120 Course Type(s): Values,Core curriculum course.

**NU-420. Community Health Nursing. 4 Credits.**

Community health nursing emphasizes community as client. The nursing process is applied in dealing with groups, aggregates and community. Nursing care of individuals in community settings is also examined. Additional course fees. Course Type(s): Capstone,Writing Intensive.

**NU-420L. Community Health Nursing Lab. 0 Credits.**

Community Health Nursing Lab Prerequisites: NU-420 Course Type(s): Lab Courses.

**NU-430. Nursing Care of Adults and Aging III. 4 Credits.**

Culmination of the courses Adults and Aging I and II, this course builds and expands the knowledge and skill base related to caring for adults and older clients with complex acute and chronic conditions and rehabilitative health care needs. High risk populations such as those with multiple illnesses will be address. Pathologic conditions associated with aging are discussed. Pluralistic factors, including nutrition and medication therapy are integrated. An opportunity for students to function with increased independence as well as to organize, delegate, supervise and evaluate care. Clinical experiences in selected health care settings. Additional course fees. Prerequisites: NU-315.

**NU-430L. Nursing Care of Adults and Aging III Lab. 0 Credits.**

Nurs Care Adults& Aging Lab Prerequisites: NU-430 Course Type(s): Lab Courses.

**NU-440. Leadership and Management in Nursing. 4 Credits.**

The major focus is on leadership and change in nursing practice within the health care delivery system, utilizing the nursing process as a framework. Additional course fee.

**NU-445. Leadership and Trends in Nursing. 3 Credits.**

The major focus in this course is on leadership and change in nursing practice within the health care system. Utilization of the nursing process as a framework for action is stressed. Selected concepts related to management including, types of power, delegation, motivation are discussed. Trends and issues affecting nursing and the health care system are also explored. Prerequisites: NU-315, NU-390, NU-414.

**NU-450. Nurse/Client Educator. 2 Credits.**

A multifaceted approach to client/peer education. Emphasis on teaching/ learning concepts. The role of education as a strategy in health promotion.

**NU-452. Women's Health Issues. 3 Credits.**

Exploration of health issues affecting women from historical, political and pluralistic perspectives. The students' role as health care advocate is stressed.

**NU-470. Dimensions of Professional Nursing. 4 Credits.**

The emphasis of this course is on the professional role of nursing with a focus on leadership and community health practice. The concepts of professionalism, nursing process and pluralism are explained. Leadership theory and the health care system are analyzed. Community health nursing is examined and the principles of health promotion and client education are integrated into the conduction of a community project. Pre-Req: Admission to RN-MSN Program.

**NU-495. Special Projects in Nursing RN-BSN. 1 Credit.**

This is a one credit elective in which students may choose a topic of interest and complete a scholarly paper guided by the faculty. Students may choose to expand upon a topic they have already been exposed to or develop a new topic of interest. The student will document progress on the project through weekly submissions corresponding to specific content required for the summative learning outcome of the course, the final scholarly paper.

**PC Courses****PC-110. Science Goes to the Movies. 3 Credits.**

This course considers the evolution of the science behind the movies - the technical advances that have made modern movie making possible and how the treatment of science, scientific discovery and inventions have evolved particular movie genres. Lectures and movie clips will be used to illustrate the above. Course Type(s): Core curriculum course.

**PC-130. Technology in the 21st Century. 3 Credits.**

This course will discuss the history, development and scientific breakthroughs that have led to the amazing devices and technologies available to humans today. Particular attention to the people, time and places involved in the development of inventions like TV, radio, computers, phones, transmission of electric power, movies, and some of the many advances in genetics and medicine. Course Type(s): Core curriculum course.

**PC-140. How Stuff Works. 3 Credits.**

This course will illustrate how the many devices we use in everyday life were invented and how they work. Devices like the radio, TV, microwave, smart phones, computers, etc. will be used as examples.

**PC-150. The Gene - Mystery of Inheritance. 3 Credits.**

A Historical and Scientific Journey into the Mystery of Inheritance: In the past 150 years, the concept of the Gene - the molecular particle that contains the information of inheritance - has enriched human understanding of genetics. We now have the tools to control some aspects of genetics and even alter our own evolution. This course will explore this scientific journey - using the contributions of the many scientists who have written a story that is changing living history itself.

**PC-185. General Physics I. 3 Credits.**

Classical mechanics. Prerequisites: MA-124 MA-144 OR MA-133; Course Type(s): Core curriculum course.

**PC-186. General Physics II. 3 Credits.**

Electromagnetism. Optics. Atomic and nuclear physics. Prerequisites: PC-185 MA-124 MA-144 OR MA-133.

**PC-187. General Physics Laboratory I. 1 Credit.**

A laboratory course to accompany Pc185. Lab course fee of \$100. Prerequisites: MA-124 MA-144 OR MA-133.

**PC-188. General Physics Laboratory II. 1 Credit.**

A laboratory course to accompany Pc186. Lab course fee of \$100. Prerequisites: PC-187 MA-124 MA-144 OR MA-133.

**PC-190. Applied Electronics. 3 Credits.**

DC and AC circuits, semiconductor devices, operational amplifiers, digital logic, and digital computer fundamentals. Prerequisites: PC-191.

**PC-191. Applied Electronics Laboratory. 1 Credit.**

A laboratory course to accompany PC190. Lab course fee of \$100. Prerequisites: PC-190.

**PC-210. LabVIEW Measurement and Automation. 3 Credits.**

Introduction to National Instruments LabVIEW program and its interaction with various instruments, measurements and automation.

**PC-295. Credited Internships. 3 Credits.**

Co-operative work experience. Course Type(s): Independent Study.

**PC-300. Math Methods in Physics. 3 Credits.**

This one semester course offers a comprehensive introduction to a variety of mathematical subjects used in the areas of physics with application to specific problems. Topics covered include: Vector and Tensor Analysis, Functions of a complex Variable and Calculus of Residues, Strum-Liouville Theory, Introduction to Special Functions and Fourier Series. Prerequisites: PC-186 MA-144.

**PC-331. Electronics. 4 Credits.**

Circuit principles, diodes and rectifiers, filters transistors as amplifiers and switches, operational amplifiers with applications, oscillators. Lecture and laboratory. Lab course fee of \$100. Prerequisites: PC-185 PC-186 PC-187 PC-188.

**PC-331L. Electronics Laboratory. 0 Credits.**

Laboratory for PC-331 Electronics. Prerequisites: PC-331; Course Type(s): Lab Courses.

**PC-336. Physical Electronics. 3 Credits.**

Semiconductor theory and the physics of diodes, of bipolar transistors, and of field- effect transistors. Prerequisites: PC-186.

**PC-337. Modern Physics. 4 Credits.**

The special theory of relativity, quantum phenomena, atomic and nuclear structure, molecular spectra, radio activity, fission and fusion, elementary particles. Lecture and Laboratory. Lab course fee of \$100. Prerequisites: PC-186.

**PC-337L. Modern Physics Laboratory. 0 Credits.**

A laboratory course run in conjunction with Pc337. Prerequisites: PC-337 Course Type(s): Lab Courses.

**PC-344. Optics. 4 Credits.**

Geometrical optics, wave nature of light, interference, diffraction, polarization, selected topics in quantum optics. Lecture and laboratory. Lab course fee of \$100. Prerequisites: PC-185 PC-186 OR PC-190.

**PC-350. Photonics. 3 Credits.**

Wave-particle duality of light, fiber optics, interferometers, imaging systems, optical spectroscopy, polarization devices, LEDs and Lasers, optical detectors. Prerequisites: PC-185 PC-188.

**PC-355. Thermodynamics and Stat Mechanics. 3 Credits.**

Heat and heat transfer, thermal behavior of gases, the laws of thermodynamics, entropy and enthalpy, partition functions, and engineering applications. Prerequisites: PC-185 PC-186.

**PC-370. Mechanics. 3 Credits.**

Statics and dynamics of particles and rigid bodies. Theory of small vibrations. Gravitation, moving frames of reference. Relativistic dynamics. Prerequisites: PC-185 PC-186.

**PC-374. Electricity and Magnetism I. 3 Credits.**

Electrostatics in free space and in the presence of dielectrics and conductors. Magnetostatics. Electromagnetic induction. The Maxwell equations. Prerequisites: PC-186.

**PC-380. Introduction to Quantum Mechanics. 3 Credits.**

Mathematical foundation of quantum mechanics. Schroedinger's equation with applications. The one-electron atom. Selected topics in atomic and nuclear physics. Prerequisites: PC-186.

**PC-390. Independent Study in Physics. 1 Credit.**

This course provides the opportunity for individual work on an assigned research problem. Prerequisites: PC-185 PC-186 MA-274; Course Type(s): Capstone, Writing Intensive.

**PE Courses****PE-103. Principles and Foundations of Physical Education. 3 Credits.**

An examination of the historical and philosophical development of physical education from ancient times to the present. To acquaint the student with physical education as a profession. Course Type(s): Pluralism, Core curriculum course.

**PE-150. Physiology of Exercise and Healthy Aging. 3 Credits.**

The investigation of the physiological age-related changes that occur in the later stages of life with a special emphasis on the necessary adaptations to exercise and nutrition.

**PE-200. Adapted Physical Education for Special Needs Students. 3 Credits.**

This course will provide an overview of adaptive physical education including an expanded definition, historical background, classifications and IEP development, assessment practices and teaching and instructional strategies for the special needs students.

**PE-202. Fundamentals of Coaching. 3 Credits.**

An overview of current coaching theory and practice with a special emphasis on the scientific literature depicting best practices and professionalism. In addition, course content will include pedagogy, ethics, the physiological and psychological aspects of athlete development and approaches to teaching technical and tactical skills. This course includes field experience and active learning modules.

**PE-240. Teaching of Skills Activities I. 3 Credits.**

A study of the basic principles, content, organization and curriculum for individual, dual and team activities for elementary school students. Includes methods and teaching strategies, program evaluation and peer teaching. Variable sport activities.

**PE-241. Teaching of Skills Activities II. 3 Credits.**

A study of basic principles, content, organization & curriculum for individual, dual & team activities for middle school and high school students. Includes methods and teaching strategies, program evaluation and peer teaching. Variable sports activities.

**PE-250. Sport Communication. 3 Credits.**

Media and public relations strategies in the sports industry are reviewed. Exposure to the use of web publications/multimedia and development. Prerequisites: SM-228.

**PE-255. Fitness and Wellness. 3 Credits.**

This course helps students adopt and maintain behavior associated with an active and healthy lifestyle. Through lecture and exercise, students will learn behavioral patterns consistent with current knowledge in fitness and wellness.

**PE-295. Credited Internships. 3 Credits.**

Co-operative education experience. Course Type(s): Independent Study.

**PE-301. Technology in Health and Fitness. 3 Credits.**

This class is a comprehensive introduction to technology in the physical education classroom, and health and fitness and sport-oriented facilities. It explores developmentally appropriate usage of educational technology in the home, school, and workplace as it relates to the development and maintenance of optimal health and fitness. Emphasis is on computer and Internet technologies. The course includes hands-on computer techniques, critical analysis of National Technology Standards, practical experience with curriculum design, and technology-driven exercise prescription.

**PE-310. Kinesiology. 3 Credits.**

Application of facts and principles of anatomy and mechanics to the study of human motion, including the systematic approach to the analysis of motor skill activities.

**PE-311. Biomechanics. 3 Credits.**

The study of the laws of mechanics as they relate to physical movement, skill development, and athletic performance. Special attention is paid to the muscular, joint, and skeletal actions of the body and how they may impact performance.

**PE-350. Sport Facility Operation and Event Management. 3 Credits.**

Planning, Organization and Operation of Sport Facilities and management of events.

**PE-352. Exercise Physiology I. 3 Credits.**

A study of the physiological effects of movement on the human body and the relationship existing among muscular, respiratory, circulatory and nervous systems.

**PE-353. Exercise Physiology II. 3 Credits.**

The continued study of the physiological effects of movement on the human body and the relationships existing among muscular, respiratory, circulatory and nervous systems. Course Type(s): Capstone, Writing Intensive.

**PE-360. Sports Medicine. 3 Credits.**

To teach students the basis of being a certified athletic trainer and includes injury recognition, prevention, evaluation, treatment, rehabilitation and administration of athletic injuries.

**PE-410. Legal and Ethical Issues in Sports. 3 Credits.**

A hybrid values course that includes topics in policy development, labor movement in sports, collective bargaining in sports organizations, ethical dilemmas and implications. Prerequisites: 2 COURSES FROM COURSES PL-130 PL-140 TH-110 TH-120 Course Type(s): Values, Core curriculum course.

**PE-498. Internship in HEPE. 3 Credits.**

Field Work experience in the areas of health and physical education.

**PE-499. Internship. 3 Credits.**

Field work experience in the areas of Sports Management and/or Health & Physical Education.

**PL Courses****PL-130. Introduction to Philosophy. 3 Credits.**

This course is an introduction to philosophy.
