<input checked="" type="checkbox"/>	<p>General Data Privacy Regulation (GDPR) User Report</p> <ul style="list-style-type: none"> • Blackboard is committed to protecting the privacy of all users. Due to changing regulations globally concerning use of data and privacy, including the European Union General Data Protection Regulation (GDPR). • On the login page, we've added links to access the Blackboard privacy and data use statement, the Blackboard terms of use, and an optional privacy and data use statement from the institution have been added to the login page. In the Original experience, the links also appear in the login module and the settings area of My Blackboard. In the Blackboard and Blackboard Instructor mobile apps, the links are found in Settings and in the Terms of Use shown at login. This way, users can access important information about the use of their data and their privacy both before and after authentication. • The Security Management: Cookie Disclosure Building Block, originally intended to address regulations in the European Privacy Data Directive, has been replaced by the Security Management: Data Use and Privacy Disclosure Building Block. This Building Block is part of the core system and can't be disabled or removed. • The Security Management: Data Use and Privacy Disclosure settings page allows an administrator to define a web link to institutional statements about data use and privacy. An administrator could also store such a statement in the Content Collection as a public file and link to it. • The User Report now includes Activity Log and Attendance data.
<input checked="" type="checkbox"/>	<p>Accessibility</p> <ul style="list-style-type: none"> • Skip links, which make it easier for users of assistive technologies to navigate the structure of pages, now work more consistently across tool areas in the system.
